This Brochure provides information about the qualifications and business practices of Commonwealth Financial Network[®] (“Commonwealth”). If you have any questions about the contents of this Brochure, please call 800.237.0081 or email *FormADVPart2@commonwealth.com*. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or any state securities authority.

Additional information about Commonwealth is available on the SEC’s website at *www.adviserinfo.sec.gov*.

Commonwealth is a Registered Investment Adviser. This registration does not imply any level of skill or training.

Item 2: Material Changes

The following is a summary of the material changes made to this Brochure since the last annual update filed on March 27, 2021:

- Commonwealth has updated Item 4. Advisory Business to reflect the addition of new service offerings.
- Commonwealth has updated Item 5. Fees and Compensation, Item 12. Brokerage Practices, and Item 14. Client Referrals and Other Compensation to reflect changes in the way Commonwealth compensates and is compensated by National Financial Services (“NFS”) and how it assesses transaction charges and account fees to clients (changes are effective as of May 31, 2022).
- Commonwealth is no longer offering the Preferred Portfolio Services® (“PPS”) Direct Loring Ward Model Strategies Program; the program is closed to new investors.

You may request a copy of our current Brochure at any time, without charge, by calling 800.251.0080, option 3, or emailing FormADVPart2@commonwealth.com.

Additional information about Commonwealth is available via the SEC’s Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov. The SEC’s website also provides information about any persons affiliated with Commonwealth who are registered, or required to be registered, as Investment Adviser Representatives of Commonwealth.

Item 4: Advisory Business

About Us

Joseph S. Deitch founded Commonwealth Financial Network in 1979 as an outgrowth of his retail financial planning practice under the original name of The Cambridge Group. After the company began to prosper, Joe adopted the Commonwealth name in 1981 to reflect the company's desire to foster the common good of our employees and advisors. Commonwealth has approximately 2,700 advisors registered as Investment Adviser Representatives with its Registered Investment Adviser, and a large portion of those advisors are also registered representatives with its broker/dealer.

Most Commonwealth advisors operate under their own "doing business as" ("DBA") trade name and logo, which they use for marketing purposes and which may appear on client statements. Clients should understand that even though Commonwealth's advisors often operate under their own DBA, when those advisors offer or provide advisory services through Commonwealth, they do so under the supervision of Commonwealth.

Commonwealth Financial Network is a wholly owned subsidiary of 1979 Holding Company, LLC, an indirect and wholly owned subsidiary of Gratitude Holdings, Inc.

When Joe founded Commonwealth, his desire was to create an open and supportive environment where professionals could be true to themselves and to their clients, follow their dreams, and grow to their hearts' content. Joe structured Commonwealth as an independent contractor financial services firm with the goal of providing indispensable service to Commonwealth-affiliated advisors so that they, in turn, could provide the same level of indispensable service to their clients. To that end, Commonwealth acts as a "back office" to our advisors, providing support, guidance, and oversight over many functional areas, including operations, trading, technology, investment management, marketing, compliance, practice management, and more. Commonwealth does not manufacture or sell proprietary products. Rather, Commonwealth's advisors have the freedom to evaluate their clients' individual financial objectives, risk tolerance, and investment time horizons and recommend those products and services that they believe will help their clients meet their financial goals.

This Brochure is designed to provide detailed and clear information relating to each item noted in the table of contents. Certain disclosures are repeated in one or more items, and/or other items are referred to in an effort to be as comprehensive as possible on the broad subject matters discussed. Within this Brochure, certain terms in either upper- or lowercase are used as follows:

- "We," "us," and "our" refer to Commonwealth.
- "Advisor" refers to persons who provide investment recommendations or advice on behalf of Commonwealth.
- "You," "yours," and "client" refer to clients of Commonwealth and its advisors.

Description of Services Available

Commonwealth offers a suite of investment advisory services and programs to its advisors for use with their clients. Commonwealth's investment advisory services and programs are designed to accommodate a wide range of client investment philosophies, goals, needs, and investment objectives. Through Commonwealth's various advisory programs and services, clients have access to a wide range of securities products, including, but not limited to, common and preferred stocks; municipal, corporate, and government fixed income securities; mutual funds; exchange-traded products ("ETPs"); options and derivatives; unit investment trusts ("UITs"); and variable and fixed-indexed insurance products, as well as other products and services, including a variety of asset allocation services, financial planning, and consulting services. Commonwealth advisors may also offer advice related to Commonwealth-approved direct participation programs, private placements, and other alternative investments, such as alternative energy programs, research and development programs, leasing programs, real estate programs, and pooled commodities futures programs.

Commonwealth's investment advisory services and programs consist of Commonwealth's suite of Preferred Portfolio Services® programs ("PPS Program"), wealth management and retirement consulting services, and advisory services programs available through unaffiliated third-party asset managers.

The investment recommendations and advice Commonwealth and its advisors offer do not constitute legal, tax, or accounting advice. Clients are encouraged to coordinate and discuss the impact of the financial advice they receive from a Commonwealth advisor with their attorney and accountant. Clients should inform their advisor promptly of any changes in their financial situation, investment goals, needs, or objectives. Failure to notify the advisor of any material changes could result in investment advice not meeting the changing needs of the client.

Commonwealth is the sponsor of the following PPS programs:

- **PPS Custom:** The PPS Custom Program enables an advisor to assist the client in developing a personalized investment portfolio using one or more investment types, including, but not limited to, stocks, bonds, mutual funds, exchange-traded funds ("ETFs"), UITs, variable and fixed-indexed annuities, and alternative investments. The advisor typically acts as portfolio manager, with full investment discretion, although clients may elect to have the advisor manage the account on a nondiscretionary basis.
- **PPS Select:** The PPS Select Program offers a variety of model portfolios from which investors may choose. The PPS Select model portfolios are created and managed on a discretionary basis by Commonwealth's Investment Management and Research team. The client's advisor will help the client determine which PPS Select models are best suited for the client based on his or her risk profile, investment objectives, and preferences, leaving the actual trading decisions to Commonwealth's Investment Management and Research team. PPS Select offers a variety of model portfolios with varying investment product types, including mutual fund and ETF portfolios, equity portfolios, fixed income portfolios, and variable annuity subaccount portfolios.
- **PPS Direct:** The PPS Direct Program offers advisors' clients access to a variety of model portfolios involving a range of risk levels from which they may choose. Generally, apart from the PPS Direct Third-Party Fund Strategist Program and the PPS Direct Mutual Fund/ETF Program, the PPS Direct portfolios are not managed by Commonwealth or the client's financial advisor. Rather, PPS Direct model portfolios are managed by one or more third-party portfolio managers on a discretionary basis. PPS Direct portfolios may consist of mutual funds or ETFs, or they may be made up of individual equities, fixed income securities, or other types of investments. There are four types of PPS Direct Program accounts, which are broadly described as follows:
 - **PPS Direct Mutual Fund/ETF:** As the name suggests, these accounts will be allocated among mutual funds or ETFs.
 - **PPS Direct Separately Managed Account ("SMA"):** This separately managed account strategy invests in individual securities (e.g., stocks and bonds).
 - **PPS Direct Third-Party Fund Strategist ("Strategist"):** Third-party investment advisers provide asset allocation model strategies comprising mutual funds and ETFs.
 - **PPS Direct Unified Managed Account ("UMA"):** This is best described as multiple SMAs in a single account.

Available consulting services include:

- **Wealth Management Consulting:** Commonwealth advisors provide advisory consulting services on a wide range of topics, including, but not limited to, comprehensive financial planning, budgeting and cash flow analysis, major purchases, education planning, retirement income/longevity planning, portfolio analysis, estate planning analysis, investment analysis, business succession planning, and fringe benefit analysis. Clients may engage Commonwealth advisors for consulting services on a negotiated hourly, flat, or fixed-fee basis. Fees may be paid at the time of service, in advance of service, or after service has been rendered. Any hourly fees may not exceed \$500 per hour. Clients of Commonwealth may also elect to enter into consulting or financial planning engagements with

advisors separately from, in addition to, or as part of their PPS managed account program, as may be agreed between the client and advisor.

- **Retirement Plan Consulting:** Commonwealth advisors provide a fee-for-service consulting program whereby advisors offer onetime or ongoing advisory services to qualified retirement plans. Clients may engage Commonwealth advisors for Retirement Plan Consulting services on a negotiated hourly, flat, fixed, or asset-based fee basis. The maximum annual consulting fee, when stated as a percentage of assets, is 1.50% and is negotiable. Fees may be paid at the time of service, in advance of service, or after service has been rendered. Any hourly fees may not exceed \$500 per hour. It is the responsibility of the plan sponsor to ensure these fees are reasonable. Through the Retirement Plan Consulting Program, advisors may assist plan sponsors with their fiduciary duties and provide individualized advice and/or investment management based on the needs of the plan and/or plan participants regarding matters such as:
 - Investment policy statement support
 - Plan menu design and monitoring
 - Service provider support
 - Participant advice programs
- **Plan Participant Consulting:** Commonwealth advisors provide a fee-for-service consulting program whereby advisors offer ongoing advisory services to an individual retirement account (“IRA”) formed under a SIMPLE IRA Plan. Through the Plan Participant Consulting Program, advisors may assist a client with a variety of advisory services such as:
 - Financial planning and portfolio analysis
 - Education on the options available through the SIMPLE IRA Plan
 - Recommended asset allocation
- **Health Savings Account (“HSA”) Consulting for Employers:** Commonwealth advisors provide a fee-for-service consulting program whereby advisors offer onetime or ongoing investment consulting and related HSA consulting services to employers. Employers may engage Commonwealth advisors for services on a negotiated hourly, flat, or fixed basis. Any hourly fees may not exceed \$500 per hour. It is the responsibility of the employer to ensure that these fees are reasonable. Through the HSA Consulting for Employers Program, advisors may assist employers with matters such as:
 - Consultation with the employer on the selection and monitoring of the HSA program’s service provider
 - Collaboration with the company’s benefits consultant regarding the HSA program design
 - Development of an employee education strategy
 - Delivery of employee education

Third-Party Asset Manager (“TPAM”) programs are also available. These TPAM programs offer advisors’ clients access to a variety of portfolio managers that create and implement model portfolios with varying levels of risk from which investors may choose. TPAM Program accounts are not managed by Commonwealth. Rather, TPAM Program accounts are managed by one or more unaffiliated third-party portfolio managers on a discretionary basis, and they may consist of a variety of different securities types, including stocks, bonds, ETFs, mutual funds, and derivatives. Account minimums for TPAM Program accounts generally range between \$25,000 and \$50,000, although lower or higher account minimums exist in certain programs or models.

Commonwealth acts in either a “solicitor” or “subadviser” capacity when making TPAM programs available to advisors’ clients, as described below:

- **Solicitor:** When Commonwealth acts as a solicitor for the TPAM Program sponsor, neither Commonwealth nor your Commonwealth advisor is appointed by you as an investment adviser in relation to the TPAM Program. Instead, your advisor will assist you in selecting one or more TPAM programs believed to be suitable for you based on your stated financial situation, investment objectives, and financial goals. Commonwealth and your advisor are compensated for referring you to the ongoing advisory services provided to you within the TPAM Program. This compensation generally takes the form of the TPAM sharing with Commonwealth and your advisor a percentage of the advisory fee that you pay to the TPAM Program sponsor. When we act as a solicitor for a

TPAM Program, you will receive a written solicitor disclosure statement describing the nature of our relationship with the TPAM Program, if any; the terms of our compensation arrangement with the TPAM Program, including a description of the compensation that we will receive for referring you to the TPAM Program; and the amount, if any, that you will be charged that is in addition to the advisory fee you will pay to the TPAM as a result of our referral of you to the TPAM Program.

- **Adviser or Subadviser:** Under an adviser or subadviser relationship between Commonwealth and the sponsor of the TPAM Program, Commonwealth and your advisor will act as an investment adviser or subadviser to you. We will provide you with portfolio management supervisory services with respect to the adviser or subadviser TPAM programs you select. This means that we will periodically monitor the TPAM Program's performance, investment selection, and continued appropriateness for your portfolio and will advise you accordingly. Your advisor will help you determine your risk tolerance, investment goals, and other relevant guidelines to help you choose a TPAM Program designed to help you satisfy your investment needs.

Under the **Variable Contract Subaccount Allocation Program**, clients grant an advisor discretionary authority to determine appropriate variable contract subaccount allocations within the client's Jackson National Life variable annuity and based on the client's financial circumstances, investment objectives, and risk tolerance, as well as prevailing market conditions and other factors the advisor deems appropriate. Commonwealth and the advisor will receive distribution and service (12b-1 fees) pursuant to the client's variable annuity contract and applicable prospectus for the discretionary subaccount allocation services. Clients participating in this program do not pay a separate asset management fee to Commonwealth or the advisor.

Individualized Services and Client-Imposed Restrictions

The investment advisory services provided by Commonwealth advisors depend largely on the personal information the client provides to the advisor. In order for Commonwealth advisors to provide appropriate investment advice to, or, in the case of discretionary accounts, make tailored investment decisions for, the client, it is very important that clients provide accurate and complete responses to their advisor's questions about their financial condition, needs, goals, and objectives and notify the advisor of any reasonable restrictions they wish to apply to the securities or types of securities to be bought, sold, or held in their managed account. It is also important that clients promptly inform their advisor of any changes in their financial condition, investment objectives, personal circumstances, or reasonable investment restrictions pertaining to the management of their account, if any, that may affect their overall investment goals and strategies or the investment advice provided or investment decisions made by their advisor.

In general, the client's advisor is responsible for delivering investment advisory services to clients, and clients generally deal with matters relating to their accounts by contacting their advisor directly. Of course, clients may contact Commonwealth directly for administrative and operational questions about the advisory services offered through Commonwealth.

Wrap Fee Programs

Most TPAM programs, as well as Commonwealth's PPS Custom (Platform), PPS Custom (Access), PPS Custom (TIAA), PPS Custom (Fidelity), PPS Custom (529 Plans), PPS Custom (Variable Insurance), PPS Custom (Structured Variable Annuity), PPS Custom (Fixed-Indexed Annuity), PPS Direct, PPS Select, and SEI Asset Management programs, are considered "wrap fee" programs in which the client pays specified fees for portfolio management services and trade execution. Wrap fee programs differ from other programs in that the asset-based fee structure for wrap programs is intended to be largely all inclusive, whereas non-wrap fee programs typically assess trade-by-trade execution costs that are in addition to the asset-based fees. For example, Commonwealth does not consider the PPS Custom Program (Transactions) to be a wrap fee program because clients generally pay trade-by-trade transaction costs that are in addition to the asset-based fees they pay when they participate in the program. Commonwealth's PPS Custom Program (Platform) is, however, considered a wrap fee program because clients pay an annual asset management fee as well as an asset-based platform fee that generally covers transaction costs and annual maintenance fees. PPS Custom (Access) is also considered a wrap fee program because clients pay an annual asset management fee that covers transaction costs and annual maintenance fees.

The PPS Direct, SEI Asset Management, and other TPAM model portfolio wrap fee programs or model strategies available through Commonwealth are managed in accordance with the investment methodology and philosophy used by the respective third-party portfolio manager, investment adviser, or strategist. The PPS Select Program is managed in accordance with the investment methodology and philosophy of Commonwealth's own Investment Management and Research team. The PPS Custom (Platform), PPS Custom (Access), PPS Custom (TIAA), PPS Custom (Fidelity), and PPS Custom (529 Plans) programs are managed by your advisor in accordance with his or her own investment methodology and philosophy.

For the investment advisory services provided to you by Commonwealth and your advisor, Commonwealth and your advisor receive a portion of the wrap fees you pay when you participate in any wrap fee program through Commonwealth. Commonwealth receives a higher portion of the wrap fees you pay when you participate in Commonwealth's PPS Select programs to compensate for investment management and research services provided by the Commonwealth Investment Management and Research team.

For more information relating to Commonwealth's wrap fee programs, please refer to Appendix 1 of this document, titled "The Wrap Fee Program Brochure."

Assets Under Management

As of December 31, 2021, Commonwealth had \$161,852,722,626.41 in assets under management ("AUM"), of which \$157,333,977,122.25 was managed on a discretionary basis and \$4,518,745,504.16 was managed on a nondiscretionary basis.

Program Choice Conflicts of Interest

Clients should be aware that the compensation to Commonwealth and your advisor will differ according to the specific advisory programs or services provided. This compensation to Commonwealth and your advisor may be more than the amounts we would otherwise receive if you participated in another program or paid for investment advice, brokerage, or other relevant services separately. Lower fees for comparable services may be available through Commonwealth or from other sources. Commonwealth and your advisor have a financial incentive to recommend advisory programs or services that provide us higher compensation over other comparable programs or services available through Commonwealth or elsewhere that may cost you less. For example, Commonwealth is registered both as a broker/dealer and an investment adviser, and a majority of Commonwealth's advisors may offer both commission-based brokerage services and fee-based advisory services to their clients. It's important to understand all the associated costs and benefits of each option so you can decide which types of accounts and services may be best suited for your unique financial goals, investment objective, and time horizon. Commonwealth encourages you to review its Form CRS, as well as the "For Clients" page, available on the firm's website at www.commonwealth.com/for-clients, and to discuss your options and the many differences between brokerage and advisory relationships with your advisor.

Factors that bear on the cost of a particular advisory program in relation to the cost of the same services purchased separately include, but may not be limited to, the type and size of the account; the historical or expected size or number of trades for the account; the types of securities and strategies involved; the amount of fees, commissions, and other charges that apply at the account or transaction level; and the number and range of supplementary advisory and client-related services provided to the account. Lower fees for comparable services may be available from other sources.

In addition, Commonwealth offers your advisor one or more forms of financial benefits based on your advisor's total assets under management held at Commonwealth or in Commonwealth's own PPS Program accounts, as well as financial assistance for transitioning from another firm to Commonwealth. The types of financial benefits that your advisor may receive from Commonwealth include, but are not limited to, forgivable or unforgivable loans, enhanced payouts, and discounts or waivers on transaction, platform, and account fees; technology fees; research package fees; financial planning software fees; administrative fees; brokerage account fees; account transfer fees; licensing and insurance costs; and the cost of attending conferences and events. The enhanced payouts, discounts, and other forms of financial benefits that your advisor may have the opportunity to receive from Commonwealth provide a financial incentive for your

advisor to select Commonwealth as broker/dealer for your accounts over other broker/dealers from which they may not receive similar financial benefits or to use certain Commonwealth PPS programs over other programs available through Commonwealth. Please see items 9 and 14 of this Brochure for more detailed information about these types of conflicts.

With the exception of those advisors who offer the PPS Custom Program (Access) to their clients, Commonwealth charges advisors a PPS administrative fee at the same time clients are charged PPS Program asset-based fees. The PPS administrative fee is charged to and paid by the advisor rather than the advisor's clients and is calculated as a percentage of the total PPS account assets, including cash and money market positions, held by the advisor's clients. The PPS administrative fee is used to offset Commonwealth's maintenance costs associated with PPS account reporting and reconciliation.

In the same manner as many advisors offer asset management fee discounts to their larger clients, Commonwealth offers those advisors to whom it charges administrative fees discounts based on their total PPS Program AUM. As these advisors grow their fee-based business within Commonwealth's suite of PPS programs, Commonwealth's economies of scale are shared with those advisors by reducing the percentage amount of PPS administrative fees that would otherwise be charged to the advisors. The advisors receive discounts on the PPS administrative fee when they reach specified asset levels, starting at \$10 million. As the amount of the advisors' client assets in Commonwealth's PPS programs grows above certain levels, the advisors receive larger percentage discounts to the administrative fees than they would otherwise receive with fewer assets in Commonwealth's PPS programs. Some advisors have negotiated a flat administrative fee with Commonwealth. Others may have negotiated a specific payout for a period of time as part of their agreement to join the firm.

Additionally, aside from those advisors who offer the PPS Custom Program (Access) to their clients, advisors with PPS AUM of at least \$25 million qualify for an increased payout percentage on their clients' PPS management fees, starting at 90.00% and rising to a maximum of 98.00% as their PPS AUM grows.

These discounts in PPS administrative fees and higher payouts for reaching various PPS AUM levels present a conflict of interest because they provide a financial incentive for advisors who receive the discounts to recommend Commonwealth's PPS programs over other available managed or wrap account programs outside of PPS that do not offer such discounts or higher payouts to the advisors. On the other hand, because Commonwealth does not assess administrative fees to advisors when they use advisory programs outside of PPS, depending upon the costs and fees of a particular outside program, advisors may have a financial incentive to use one or more outside programs rather than PPS programs, which also creates a conflict of interest.

Commonwealth offers transaction-fee ("TF") mutual funds, as well as no-transaction-fee ("NTF") and institutional NTF ("iNTF") mutual funds, within the PPS Custom programs. Hereinafter, unless otherwise noted, NTF and iNTF mutual funds shall be referred to as NTF, NTF funds, or NTF program. As discussed elsewhere in this Brochure, including in items 5. Fees and Compensation, 12. Brokerage Practices, and 14. Client Referrals and Other Compensation, Commonwealth receives substantial economic benefits and monthly revenue-sharing payments from National Financial Services LLC ("NFS") based on client assets held by Commonwealth with NFS in non-Fidelity NTF and iNTF funds that participate in Fidelity's NTF and iNTF programs and non-Fidelity TF funds that participate in Fidelity's TF program.

As also discussed in Item 14. Client Referrals and Other Compensation, some mutual fund families offer share classes of funds that do not make payments to NFS. As a result, Commonwealth does not receive revenue-sharing payments derived from investments or holdings in these nonsupporting fund families. Because nonsupporting funds do not make payments to NFS for NFS to share with Commonwealth in the form of revenue sharing, nonsupporting funds have lower fund expenses and will cost clients less money over longer holding periods than supporting fund families with share classes that make these payments.

In addition to complying with applicable SEC rules, Commonwealth is subject to certain rules and regulations adopted by the U.S. Department of Labor when we provide nondiscretionary investment advice to retirement plan participants and IRA owners. When these DOL rules apply, our advisors and Commonwealth, through our relationship with our advisors, are “fiduciaries,” for purposes of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and the Internal Revenue Code of 1986 (“the Code”), as amended. Therefore, Commonwealth and our advisors may not receive payments that create conflicts of interest when providing fiduciary investment advice to plan sponsors, plan participants, and IRA owners, unless we comply with a prohibited transaction exemption (“PTE”). Beginning December 20, 2021, Commonwealth and our advisors will comply with ERISA and the Code by using PTE 2020-02. As fiduciaries under ERISA and the Code, we render advice that is in plan participants’ and IRA customers’ best interest. Commonwealth’s and our advisors’ status as an ERISA/Code fiduciary is limited to ERISA/Code covered nondiscretionary advice and recommendations regarding rolling over a retirement account and does not extend to all situations.

Commonwealth offers three versions of the PPS Custom Program to clients, which Commonwealth refers to as PPS Custom Program (Transactions), PPS Custom Program (Platform), and PPS Custom Program (Access). Commonwealth limits advisors to offering *only one* of the three versions of Commonwealth’s PPS Custom Program to *all* of the advisor’s clients who want to participate in the PPS Custom Program. This means that while Commonwealth offers three versions of the PPS Custom Program to Commonwealth clients generally (i.e., Transactions, Platform, and Access), each client’s advisor is restricted to offering *only one* of those three versions to *all* of that advisor’s clients. Therefore, other advisors will have access to and will offer their clients a version of the PPS Custom Program that the clients’ own advisor cannot offer them. Depending on the specific type of PPS Custom Program that is available to clients through the client’s chosen advisor, the fees and charges clients will pay when participating in the PPS Custom Program will vary, as described more fully below. Clients should discuss with their advisor the specific version of the PPS Custom Program their advisor may offer them, and clients should consider the specific version of the PPS Custom Program that is available to them through their advisor versus other versions of the PPS Custom Program that would be available to the client were they to choose to work with a different advisor when making a decision to participate in the PPS Custom Program.

The PPS Custom Program (Transactions) assesses transaction charges for the purchase and sale of certain securities in the account. The client’s advisor may elect to pay the transaction charges on a client’s behalf. PPS Custom Program (Transactions) clients should understand that their advisor may elect to pay transaction charges for the accounts of other clients, but not for them, and vice versa. If the advisor elects to pay transaction charges, clients should understand that the annual management fee they pay may be higher than what they would otherwise pay if their advisor did not elect to pay transaction charges for their account. Depending on the frequency of trading activity, the types of securities products bought and sold, and whether the advisor uses no-transaction-fee mutual funds that do not assess transaction charges, the advisor’s election to pay transaction charges may cost a client more or cost the advisor less, which is a conflict of interest. Further, the advisor’s ability to choose whether to pay the transaction charges for one client but not another presents a conflict of interest because the advisor has a financial incentive to trade less for the accounts of clients for whom the advisor pays transaction charges than for those clients who are responsible for paying their own transaction charges. Regardless of whether the advisor or client pays the transaction charges, clients should understand that the mere existence of transaction charges could cause an advisor to reduce, delay, or avoid executing certain transactions in an effort to reduce, delay, or avoid trading costs.

Clients who choose to open a PPS Custom Program (Transactions) account should carefully consider these factors and discuss the costs and benefits of whether they or their advisor should pay transaction charges, as well as the extent to which the existence of transaction charges (regardless of who pays) impacts their advisor’s investment decisions. PPS Custom Program (Transactions) clients should consider the annual fees, administrative and other charges, revenue-sharing arrangements, and other compensation that Commonwealth and the advisor receive in making a fair and reasonable assessment of the total costs associated with their decision to open and maintain a PPS Custom Program (Transactions) account.

The PPS Custom Program (Platform) assesses an asset-based platform fee to generally cover purchase and sale transactions and annual maintenance fee costs. The client's advisor may elect to pay the platform fee on a client's behalf. PPS Custom Program (Platform) clients should understand that their advisor may elect to pay the platform fee for the accounts of other clients, but not for them, and vice versa. If the advisor elects to pay the platform fee, clients should understand that the annual management fee clients pay may be higher than what they would otherwise pay if their advisor did not elect to pay the platform fee for their account. Further, the advisor's ability to choose whether to pay the platform fee for one client but not another presents a conflict of interest because the advisor has a financial incentive to be selective in determining for which client accounts the advisor will pay the platform fee and for which accounts the advisor will not. In addition, since the platform fee is household based and the advisor creates each client's household, advisors who choose to pay the platform fee for their clients have a greater incentive to household a broader aggregation of that client's accounts as a means to reduce the total platform fee that is paid by the advisor for those client accounts over other clients for whom the advisor has chosen not to pay the platform fee, which is a conflict of interest. Regardless of who pays the platform fee, clients should discuss which accounts will be included within the client's household by the advisor for purposes of calculation of the platform fee.

Clients who choose to open a PPS Custom Program (Platform) account should carefully consider the costs and benefits of whether they or their advisor should pay the platform fee. PPS Custom Program (Platform) clients should consider the annual fees, administrative and other charges, revenue-sharing arrangements, and other compensation that Commonwealth and the advisor receive in making a fair and reasonable assessment of the total costs associated with their decision to open and maintain a PPS Custom Program (Platform) account.

The PPS Custom Program (Access) does not assess trading costs for the purchase and sale of securities, confirmation service fees, or annual maintenance fees to the client or the advisor (except that advisors shall pay a per-contract charge for the purchase or sale of options). Instead, Commonwealth pays these costs and fees. In exchange for Commonwealth paying the transaction charges, confirmation service fees, and annual maintenance fees in the PPS Custom Program (Access), Commonwealth pays the advisor a lower percentage, and retains for itself a higher percentage, of the annual asset management fee that is paid by clients when they participate in the PPS Custom Program (Access). Each advisor to whom the PPS Custom Program (Access) is made available may only offer the Access version of the PPS Custom Program to *all* of that advisor's clients. This means that while other advisors may offer *either* the PPS Custom Program (Transactions) *or* PPS Custom Program (Platform) to their clients, clients doing business with an advisor who chooses to offer the PPS Custom Program (Access) to their clients *may only* participate in the Access version of the PPS Custom Program through that advisor.

Clients who choose to open a PPS Custom Program (Access) account should carefully consider the annual fees, administrative and other charges, revenue-sharing arrangements, and other compensation that Commonwealth and the advisor receive in making a fair and reasonable assessment of the total costs associated with their decision to open and maintain a PPS Custom Program (Access) account. Additionally, clients should understand that Commonwealth's assessment of per-contract charges to the advisor for options transactions could serve as a disincentive for advisors to recommend or engage in options trading.

Item 5: Fees and Compensation

How You're Charged and How We're Compensated

Clients who elect to receive asset management services through one or more of Commonwealth's PPS programs or TPAM programs will generally pay Commonwealth and their advisor percentage-based fees calculated as a percentage of account assets under management, including cash and money market positions. The maximum allowable fee schedules for Commonwealth's various PPS programs are provided below. The fee schedules for TPAM programs are provided in the respective TPAM sponsor's Form ADV Part 2A and advisory client agreements. Certain managed account programs have lower maximum annual fee amounts, and fee schedules will vary among programs. Clients are urged to

carefully review and discuss the contents of this Brochure with their advisor, including descriptions of the various programs and services offered, the fees and charges clients will pay, the means by which Commonwealth and your advisor are compensated, and the conflicts of interest that exist between the client and Commonwealth and their advisor with respect to each program or service offered, to determine the most appropriate programs or services for their specific needs.

In most cases, the annual account management fees are payable quarterly in advance and are computed as one-quarter of the annual fee based on the account's AUM on the last business day of the previous calendar quarter. In some cases, the annual account management fee will be payable monthly in advance computed as one-twelfth of the annual fee based on the AUM on the last business day of the previous month-end, and in other cases, clients will pay an annual flat dollar fee, payable quarterly in advance.

Commonwealth receives quarter-end values from alternative investment issuers or other service providers which are used when calculating billable AUM. Commonwealth does not engage in an independent valuation of your account assets and relies on valuations provided by the investment issuers or other service providers. Commonwealth will provide (through NFS) periodic account statements which include the market value of the alternative investment based on information received from the investment issuer or other service provider. In providing these account statements, or any other valuation information to you, (i) Commonwealth relies on the valuation information provided by the manager of the alternative investment or other service provider, (ii) the valuation information used to determine the billing fee is based on estimates that may be outdated as of the dates of the account statements, (iii) the products final valuations may be higher or lower than the values reflected in the periodic account statements and (iv) while Commonwealth will adjust material estimated fee billings on a best efforts basis, Commonwealth is under no obligation to provide notice or compensation to you for differences in estimated alternative investment valuations.

Certain managed account programs charge fees in arrears and will have differing methods of computation. Please refer to the respective program description in this Brochure, the respective client agreement, and the respective TPAM Program Brochure (if applicable) for specific information about the fees that will be paid, the varying fee schedules of each program, and the methods of fee billing for the program(s) you select.

Clients who elect to open a margin account acknowledge and agree that margin may be exercised against their account for purposes including, but not limited to, covering debits, management fees, and/or other billing and administrative costs. Management fees on margin accounts will be assessed on the equity (e.g., ownership) portion of the account and not on the account's total market value. NFS will credit to Commonwealth a substantial portion of the margin interest income NFS receives from client margin debits. Commonwealth's receipt of a substantial portion of the margin interest creates a conflict of interest because Commonwealth has a greater incentive to make margin available in your account because it provides additional compensation to Commonwealth. Commonwealth does not share any portion of the margin interest it receives with your advisor.

All Commonwealth advisory program management fees are negotiable between the advisor and client. Platform fees, transaction charges, and other account-related fees assessed by NFS or Commonwealth are not negotiable, however. In the event a client terminates an advisory agreement with Commonwealth and the advisor, any unearned fees resulting from payments made by clients in advance will be refunded to the client. Likewise, in the event Commonwealth bills clients in arrears for services that have already been rendered, Commonwealth will prorate such fees up to the termination date of the advisory agreement.

Commonwealth generally offers two types of fee schedules for use in Commonwealth PPS Program accounts, which are generally referred to as "blended" schedules and "breakpoint" schedules.

Blended Schedule

A blended schedule looks at the account value and compares it to a set fee schedule. Based upon the value of the account at the end of the billing period, the fee schedule identifies specific portions of the account value to be charged at different fee rates. The total value of the account is compared against this schedule and, based on the account size, the different fee rates are blended to determine the total account fee for that period.

For example, assume the advisor and client negotiate the following blended fee schedule:

Account Value		Fee
Greater than or equal to	Less than	
\$0	\$50,000	2.25%
Next \$50,000	\$100,000	2.00%
Next \$100,000	\$250,000	1.75%
Next \$250,000	–	1.50%

Also, assume that the account value at the end of the billing period is \$200,000. In this hypothetical example, and assuming an advanced quarterly billing cycle is applied, the account fee for the upcoming quarter would be assessed as follows: First \$49,999 of the account value would be billed at a rate of 2.25% ($\$49,999 \times 2.25\% = \$1,125$; $\$1,125 \div 4 = \281.25); the next \$50,000 would be billed at a rate of 2.00% ($\$50,000 \times 2.00\% = \$1,000$; $\$1,000 \div 4 = \250); the next \$100,000 would be billed at a rate of 1.75% ($\$100,000 \times 1.75\% = \$1,750$; $\$1,750 \div 4 = \437.50).

Each of the different fee rate amounts is added together to determine the total quarterly account fee for that period, as follows:

$$\$281.25 + \$250 + \$437.50 = \$968.75 \text{ advance quarterly account fee}$$

Breakpoint Schedule

A breakpoint schedule looks at the account value and compares it to a set fee schedule. Based upon the value of the account at the end of the billing period, the billable fee rate will decline as the value of the account reaches the next fee rate, or “breakpoint.” The total value of the account is compared against the fee rate for the respective value range that corresponds with the account value to determine the total account fee for that period.

For example, assume the advisor and client negotiate the following breakpoint fee schedule:

Account Value		Fee
Greater than or equal to	Less than	
\$0	\$50,000	2.25%
\$50,000	\$100,000	2.00%
\$100,000	\$250,000	1.75%
\$250,000	–	1.50%

Also, assume that the account value at the end of the billing period is \$200,000. In this hypothetical example, and assuming an advanced quarterly billing cycle is applied, the account fee for the upcoming quarter would be assessed as follows: The \$200,000 account value falls within the fee schedule value range of \$100,000 to less than \$250,000, which corresponds with a fee rate of 1.75%. Therefore, $\$200,000 \times 1.75\% = \$3,500$; $\$3,500 \div 4 = \text{an } \$875 \text{ advance quarterly account fee.}$

Commonwealth PPS Program Fee Schedules

Following are the maximum allowable fee schedules for Commonwealth's various PPS programs.

PPS Custom Program (Transactions)

The maximum allowable annual management fee schedule for a new PPS Custom Program (Transactions) account is:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$750,000	2.25%
\$750,000	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	–	1.50%

In addition to the annual management fee, and unless otherwise agreed between the client and the advisor, clients participating in the PPS Custom Program (Transactions) will pay transaction charges as described in the "Other Fees and/or Costs" section below.

Clients participating in the PPS Custom Program (Transactions) may pay more or less than clients might otherwise pay if purchasing the services separately or participating in a different version of the PPS Custom Program. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and the advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (Transactions), may exceed those of other similar programs.

PPS Custom Program (Platform)

Unless otherwise agreed between the client and the advisor, clients participating in the PPS Custom Program (Platform) will pay a total account fee that consists of a combination of a management fee, which is negotiable, and a platform fee. Depending upon the mutual fund families selected, transaction charges will also apply as described below.

The maximum allowable management fee schedule for a new PPS Custom Program (Platform) account is:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$750,000	2.25%
\$750,000	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	–	1.50%

The maximum platform fee schedule for a new PPS Custom Program (Platform) account is:

Account Value	Maximum Platform Fee ¹
Up to \$100,000	0.12%
Next \$150,000	0.08%
Next \$250,000	0.06%
Next \$500,000	0.04%
Next \$500,000	0.03%
Next \$1,000,000	0.02%
Above \$2,500,000	0.01%

¹The platform fee is household based and calculated on a blended basis, with a minimum annual account fee of \$120 (minimum quarterly fee of \$30), which may exceed the maximum annual platform fee percentage based on account size. Households are maintained by the advisor.

Transaction charges. In addition to the platform fee, transaction charges of \$15 for buys and sells and a maximum of \$3 for periodic investment plans and systematic withdrawal plans will apply in the following mutual fund families: CGM, Dodge & Cox, Vanguard, and Dimensional Fund Advisors (DFA), except that DFA sells are \$0. For trader-assisted transactions, an additional \$5 fee is charged to the advisor.

PPS Custom Program (Access)

Clients participating in the PPS Custom Program (Access) will pay an annual account management fee, which is negotiable.

The maximum allowable management fee schedule for a new PPS Custom Program (Access) account is:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$750,000	2.25%
\$750,000	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	—	1.50%

PPS Select Program

Clients participating in the PPS Select Program will pay a total account fee that consists of a combination of an advisor fee and a program fee.

The maximum allowable advisor fee in the PPS Select Program is as follows:

Account Value	Maximum Advisor Fee¹
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
Next \$5,000,000 or more	1.25%

In addition to the annual advisor fee, all clients participating in PPS Select will pay an annual program fee. There are several different PPS Select model portfolios with program fees that vary; however, the maximum fee within the PPS Select program is as follows:

Account Value	Maximum Program Fee²
First \$250,000	0.60%
Next \$250,000	0.50%
Next \$500,000	0.45%
Next \$1,000,000	0.40%
Next \$3,000,000	0.35%
Next \$5,000,000 or more	0.30%

¹ The maximum annual advisor fee for certain account sizes and types may be negotiated.

² Commonwealth will charge a minimum annual program fee of \$600 (\$150 quarterly) for certain accounts, which may exceed the maximum annual program fee percentage based on account size.

PPS Direct Program

Clients participating in the PPS Direct Program will pay an annual fee that consists of a combination of an advisor fee and a program fee not to exceed 3.00%. In the event the combination of the advisor fee and the program fee for a particular money manager and investment strategy exceeds 3.00%, the advisor fee will be reduced such that the annual fee will not exceed 3.00%.

The maximum allowable advisor fee in the PPS Direct Program is as follows:

Account Value	Maximum Advisor Fee
Up to \$250,000	2.21%
Next \$250,000–\$499,999	2.25%
Next \$500,000–\$999,999	2.27%
Next \$1,000,000– \$1,999,999	2.29%
Next \$2,000,000– \$4,999,999	2.31%
Next \$5,000,000 or more	2.33%

The maximum program fee in the PPS Direct Program is as follows:

Account Value	Maximum Program Fee
Up to \$250,000	1.14%
Next \$250,000–\$500,000	1.04%
Next \$500,000–\$1,000,000	1.00%
Next \$1,000,000–\$2,000,000	0.99%
Next \$2,000,000–\$5,000,000	0.96%
Next \$5,000,000– \$10,000,000	0.92%
Next \$10,000,000– \$20,000,000	0.865%
Next \$20,000,000 or more	0.835%

For all PPS programs, the initial quarterly fee will be prorated based on the number of billing days in the initial quarter. Fees are based on account value and account type and are negotiable. Other methods of fee calculation exist or are possible, depending on the specific program, the services provided, client circumstances, and the account size. These methods include, but are not limited to, hourly, flat, breakpoint, and blended fee billing. Additional deposits of funds and/or securities during a particular calendar quarter are subject to billing on a pro rata basis. Clients who withdraw funds from a managed account during a billing period are not generally entitled to a pro rata refund unless they are terminating their managed account program client agreement.

Commonwealth may waive a particular fee, whether on an ongoing or a onetime basis, in its sole discretion. Commonwealth may also allow for the aggregation of assets among a client's "related" managed accounts for purposes of determining the value of AUM and the applicable advisory fee to be paid by a client. Commonwealth reserves the right to determine whether client accounts are "related" for purposes of aggregating a client's accounts together for a reduction in the percentage fee amount.

Clients participating in Commonwealth's PPS Direct, PPS Select, or PPS Custom (Platform) wrap fee programs will pay Commonwealth an annual asset-based platform or program fee that is in addition to the asset management fee. With respect to the PPS Custom Program (Platform), the advisor may elect to pay the platform fee on behalf of the client. In most cases, the annual platform or program fee is payable quarterly in advance and is computed as one-quarter of the annual fee based on the total value of your account on the last business day of the previous quarter. Other methods of fee calculation exist or are possible, depending on the specific program, services provided, client circumstances, and the account size.

Commonwealth's Wealth Management Consulting, Retirement Plan Consulting, HSA Consulting for Employers, and Plan Participant Consulting programs provide the following fee payment options:

- **Wealth Management Consulting:** The Commonwealth Wealth Management Consulting Program provides clients with the option of paying an annual fee for ongoing services, a flat fee, or an hourly rate not to exceed \$500. The fee amount a client will pay is negotiable between the client and his or her advisor and may either be paid at the time of service, in advance of service, or after services have been rendered ("in arrears"). Annual fees may be paid in monthly, quarterly, semiannual, or annual installments as agreed between the client and the advisor.
- **Retirement Plan Consulting:** The Commonwealth Retirement Plan Consulting Program provides clients with the option of paying an annual fee for ongoing services based on a percentage of assets under advisement, a flat fee, or an hourly rate not to exceed \$500. The fee amount a client will pay is negotiable between the client and the advisor and will be associated with all services provided by the advisor under the Retirement Plan Consulting Agreement. Fees may be paid directly from qualified plan assets or may be direct billed, as agreed between the client and the advisor. Where investment management services are selected to be provided by the

Commonwealth home-office, clients will pay an additional annual flat percentage fee according to the following fee schedule:

Total Plan Assets	Fee
Less than \$250,000	\$300
\$250,000–\$2,999,999	0.12%
\$3,000,000–\$9,999,999	0.09%
\$10,000,000–\$49,999,999	0.05%
\$50,000,000–\$99,999,999	0.03%
\$100,000,000 or more	0.02%

- HSA Consulting for Employers:** The HSA Consulting for Employers Program provides clients with the option of paying an annual fee for ongoing services, a flat fee, or an hourly rate not to exceed \$500. The fee amount a client will pay is negotiable between the client and the advisor and may either be paid at the time of service, in advance of service, or after services have been rendered (“in arrears”). Annual fees may be direct billed, as agreed between the client and the advisor.
- Plan Participant Consulting:** The Commonwealth Plan Participant Consulting Program calls for clients to pay an annual flat percentage fee according to the following fee schedule:

Total SIMPLE IRA Assets	Advisory Fee
\$0–\$500,000	1.00%
\$500,001–\$1,000,000	0.75%
More than \$1,000,000	0.50%

Managed Account Fee Collection Process

Managed account fees are typically automatically charged to the client’s account pursuant to instructions provided to the account custodian by Commonwealth or a TPAM. Rather than automatic fee debiting from a client’s account, clients may also have the ability to be direct billed by writing a check to Commonwealth for the fee amount or instructing Commonwealth to charge the fee to one of the client’s other Commonwealth accounts.

Managed account clients will generally pay fees quarterly, in advance or in arrears, based on the specific program selected. In some cases, the annual account management fee may be payable monthly in advance based on the AUM on the last business day of the previous month-end. Consulting clients will pay fees at time of service, in advance of service, or in arrears, as well as in monthly, quarterly, semiannual, or annual installments, as agreed to between the client and the advisor.

Other Fees and/or Costs

When Commonwealth effects securities transactions for a client’s PPS Custom Program (Transactions) account, Commonwealth assesses transaction charges to offset the asset-based fees it pays to its clearing broker/dealer and to generate additional revenue for Commonwealth.

In addition to the annual management fee, PPS Custom Program (Transactions) account clients will pay transaction charges as set forth below and as may be modified from time to time by Commonwealth.

Transaction Charges			
Stocks, ETFs, and Closed-End Funds			
Online Order Entry (including block trades)	\$7.95 ¹ /\$4.95 ²		
Trader Assisted	\$25 ¹		
Bonds, CDs, and CMOs	\$30 ¹		
UITs	\$20 ¹		
Options			
Online Order Entry (including block trades)	\$15 + \$1 per contract ¹		
Trader Assisted	\$20 + \$1.25 per contract ¹		
Alternative Investments	\$50		
Precious Metals	\$50 ¹		
Mutual Funds			
	No Transaction Fee (NTF)	Supporting³	Nonsupporting^{4,5}
Buy	\$0	\$12 ² /\$15 ¹	\$30 ¹ /\$35 ^{1,6}
Sell	\$0 ⁷	\$12 ² /\$15 ¹	\$30 ¹ /\$35 ^{1,6}
Exchange	\$0	\$0	\$30/\$35 ⁶
PIP/SWP ⁸	\$0	\$0	\$3

¹ Plus service fee of \$4 for accounts *not* enrolled in all available e-notification (e-delivery) options (excluding tax documents).

² Account *must* be enrolled in all available e-delivery options (excluding tax documents).

³ Represents more than 500 supporting fund families from which Commonwealth receives revenue-sharing payments from NFS.

⁴ Commonwealth does not receive revenue-sharing payments derived from investments in nonsupporting funds. Commonwealth assesses a transaction surcharge for buys, sells, and exchanges of nonsupporting funds. Commonwealth's transaction charges are substantially higher for nonsupporting funds to compensate Commonwealth for the absence of revenue sharing. These nonsupporting fund families are CGM, Dodge & Cox, and Vanguard.

⁵ Although Commonwealth does receive revenue-sharing payments from NFS that are derived from Dimensional Fund Advisors (DFA) fund assets, these payments are substantially less as a percentage of fund assets than amounts paid by supporting fund families. Commonwealth, therefore, classifies DFA funds as nonsupporting funds. Commonwealth assesses the same surcharges for buy transactions in DFA funds that are noted in footnote 4 for nonsupporting funds. DFA sell transaction surcharges, identified in footnote 3, are lower than sell transactions for other nonsupporting funds identified in footnote 4. DFA sell transactions processed through Commonwealth's Trade Desk shall be \$20 for accounts. Commonwealth's receipt of revenue-sharing payments from DFA fund assets (albeit substantially less than from supporting funds), combined with the higher transaction charges for buys, generates greater revenue for Commonwealth relative to DFA fund assets than the other nonsupporting funds identified in footnote 4.

⁶ If processed by Commonwealth's Trade Desk.

⁷ Funds purchased prior to their NTF effective date will still incur a transaction charge.

⁸ Periodic investment plans (PIPs) and systematic withdrawal plans (SWPs) carry a \$100 minimum.

Commonwealth assesses confirmation fees to clients to offset the asset-based fees it pays to its clearing broker/dealer and to generate additional revenue for Commonwealth.

In addition to the charges noted above, clients incur certain charges imposed by Commonwealth, or by third parties other than Commonwealth or the advisor, in connection with certain investments, transactions, and services in your account. In many cases, Commonwealth will receive a portion or in many cases all of these fees and charges or add a markup to the charges clients would otherwise pay to generate additional revenue for Commonwealth. The actual fees and charges that clients will incur are dependent upon the type of account and the nature and quantity of the transactions that occur, the

services that are provided, or the positions that are held in the account. Additional fees and charges that clients will typically pay include, but are not limited to:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction and redemption fees
- Certain deferred sales charges on mutual funds purchased or transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Other charges that may be required by law
- Brokerage account fees and charges
- HSA account fees

Information describing the brokerage fees and charges that are applicable to a Commonwealth brokerage or managed account is provided on Commonwealth's Schedule of Miscellaneous Account and Service Fees, which is available on Commonwealth's website at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf.

Commonwealth advisors may select share classes of mutual funds that pay Commonwealth 12b-1, subtransfer agent, distributor, transaction, and/or revenue-sharing fees when lower-cost institutional or advisory share classes of the same mutual fund exist that do not pay Commonwealth or your advisor additional fees. As a matter of policy, Commonwealth credits the mutual fund 12b-1 fees it receives from mutual funds purchased or held in Commonwealth managed accounts back to the client accounts paying such 12b-1 fees.

In most cases, mutual fund companies offer multiple share classes of the same mutual fund. Some share classes of a fund charge higher internal expenses, whereas other share classes of a fund charge lower internal expenses. Institutional and advisory share classes typically have lower expense ratios and are less costly for a client to hold than Class A shares or other share classes that are eligible for purchase in an advisory account. Mutual funds that offer institutional share classes, advisory share classes, and other share classes with lower expense ratios are available to investors who meet specific eligibility requirements that are described in the mutual fund's prospectus or its statement of additional information. These eligibility requirements include, but may not be limited to, investments meeting certain minimum dollar amounts and accounts that the fund considers qualified advisory programs. The lowest-cost mutual fund share class for a particular fund may not be offered through Commonwealth or made available by Commonwealth for purchase within specific types of Commonwealth program accounts. Moreover, even when a lower-cost mutual fund share class for a particular fund is offered through Commonwealth or is made available by Commonwealth for purchase within specific types of Commonwealth program accounts, Commonwealth or your Commonwealth advisor may not purchase the lower-cost share class for your account or convert higher-cost share classes you already own to a lower-cost share class. Clients should never assume that they will be invested in the share class with the lowest possible expense ratio or cost.

Commonwealth urges clients to discuss with their advisor whether lower-cost share classes are available in their particular program account. Clients should also ask their advisor why the particular funds or other investments that will be purchased or held in their managed account are appropriate for them in consideration of their expected holding period, investment objective, risk tolerance, time horizon, financial condition, amount invested, trading frequency, the amount of the advisory fee charged, whether the client will pay transaction charges for fund purchases and sales, whether clients will pay higher internal fund expenses in lieu of transaction charges that could adversely affect long-term performance, and relevant tax considerations. Your advisor may recommend, select, or continue to hold a fund share class that charges you higher internal expenses than other available share classes for the same fund.

The purchase or sale of TF funds available for investment through Commonwealth will result in the assessment of transaction charges to the client or advisor. Although NTF funds do not assess transaction

charges, most NTF funds have higher internal expenses than funds that do not participate in an NTF program. These higher internal fund expenses are assessed to investors who purchase or hold NTF funds. Depending upon the frequency of trading and hold periods, NTF funds may cost the client more, or may cost Commonwealth or the advisor less, than mutual funds that assess transaction charges but have lower internal expenses. In addition, the higher internal expenses charged to clients who hold NTF funds will adversely affect the long-term performance of their accounts when compared to share classes of the same fund that assess lower internal expenses.

Further, a large percentage of Commonwealth's clients maintain accounts with National Financial Services LLC ("NFS"), Commonwealth's clearing firm. NFS is an affiliate of Fidelity InstitutionalSM, which serves as the custodian for Commonwealth's clients' assets, including substantially all of Commonwealth's PPS managed accounts. In addition to executing and clearing transactions for Commonwealth's advisory and brokerage clients, NFS operates a platform through which NTF funds are available, as well as a platform for TF funds.

As noted above, transactions involving NTF funds may be executed without the imposition of transaction charges, while transactions involving TF funds are assessed such charges. A number of the mutual funds that have share classes that are available on the platforms that NFS operates make payments to NFS for performing certain shareholder services, which would otherwise be performed by the mutual funds. The revenue-sharing payments made by mutual funds to NFS are based upon the amount of assets invested (or, on occasion, a per-position fee) in such mutual funds by clients maintaining accounts with NFS. As Commonwealth performs certain shareholder services with respect to its clients who hold positions in mutual funds that make revenue-sharing payments, NFS shares a considerable amount of the revenue-sharing payments it receives from mutual funds with Commonwealth.

It is important to note that certain mutual funds with share classes that are available on the TF platform operated by NFS do not make revenue-sharing payments to NFS. As a result, Commonwealth does not receive revenue-sharing payments from NFS with respect to its clients' holdings in such mutual funds. In particular, and as noted in Item 4. Advisory Business, mutual funds sponsored by Fidelity Investments, which directly or indirectly owns NFS, do not make revenue-sharing payments to NFS. Also, certain mutual funds that make revenue-sharing payments to NFS with respect to certain share classes offer other share classes for which revenue-sharing payments are not made to NFS. Commonwealth's advisors are free to and do select mutual funds and mutual fund share classes for which revenue-sharing payments are not made. Further, the revenue-sharing payments Commonwealth receives from NFS are not paid or directed to any of Commonwealth's advisors.

Commonwealth's business relationship with NFS provides Commonwealth considerable revenue-sharing benefits that do not exist when clients participate in other programs and services, including TPAMs, that hold client assets away from NFS. As noted in Item 4. Advisory Business and Item 14. Client Referrals and Other Compensation, Commonwealth receives substantial monthly revenue-sharing payments from NFS based on client assets held by Commonwealth with NFS in non-Fidelity NTF funds that participate in Fidelity's NTF program, non-Fidelity TF funds that participate in Fidelity's TF program, and Fidelity Money Market Sweep portfolios. Although NTF funds do not assess transaction charges, most NTF funds have higher internal expenses than funds that do not participate in an NTF program. These higher internal fund expenses are assessed to investors who purchase or hold NTF funds.

Commonwealth's revenue-sharing agreement with NFS, and the existence of various fund share classes with lower internal expenses that Commonwealth may not make available for purchase in its managed account programs, present a conflict of interest between clients and Commonwealth. A conflict of interest exists because Commonwealth has a greater incentive to make available, recommend, or make investment decisions regarding investments that provide additional compensation to Commonwealth that cost clients more than other available share classes in the same fund that do not provide additional compensation to Commonwealth and cost you less. For those Commonwealth advisory programs that assess transaction charges to clients or to Commonwealth or the advisor, a conflict of interest exists because Commonwealth and your advisor have a financial incentive to recommend or select NTF funds that do not assess

transaction charges but cost you more in internal expenses than funds that do assess transaction charges but cost you less in internal expenses.

In addition to reading this Brochure carefully, clients are urged to inquire whether lower-cost share classes are available and/or appropriate for their account in consideration of their expected investment holding periods, amounts invested, and anticipated trading frequency. Further information regarding fees and charges assessed by a mutual fund is available in the appropriate mutual fund prospectus.

Prorated Rebate of Fees Paid in Advance

In the event a client terminates an advisory agreement with Commonwealth and his or her advisor, any unearned fees resulting from advanced payments will be refunded to the client from the date of termination through the end of the applicable billing period.

Other Forms of Compensation

As mentioned above, an ongoing asset management fee, billed quarterly in advance, is the most common method of payment for the asset management services provided by Commonwealth and the advisor, and it is the most common method in use by Commonwealth's most popular advisory offerings, such as PPS Custom, PPS Select, PPS Direct, and unaffiliated TPAM programs. In some cases, the annual account fee may be payable monthly rather than quarterly, certain managed account programs will charge fees in arrears rather than in advance, and managed account programs will have differing methods of fee calculation. Please refer to the respective program descriptions in this Brochure, the respective client agreement, and the respective TPAM Program Brochure (if applicable) for specific information about the annual fees and other charges for a program, the varying fee schedules applicable to each program, and the methods of fee billing for the program(s) you select.

In addition to the annual asset management fee, and unless otherwise agreed between advisor and client, clients participating in Commonwealth's PPS Direct, PPS Select, or PPS Custom (Platform) wrap fee programs will pay Commonwealth an annual platform or program fee. In most cases, the annual platform or program fee is payable quarterly in advance and is computed as one-quarter of the annual fee based on the total value of your account on the last business day of the previous quarter.

In addition to the annual asset management fee, and unless otherwise agreed between advisor and client, clients participating in Commonwealth's PPS Custom (Transactions) program will pay transaction charges as set forth in the Other Fees and/or Costs section above and may be modified from time to time by Commonwealth.

When an advisor provides consulting services to a client, the client will often pay for services rendered on a onetime basis, although clients may also choose to receive consulting services on an ongoing or subscription basis. For Retirement Plan Consulting, the fee may be an hourly, flat, fixed, or asset-based fee for providing onetime, or ongoing, advisory services to a plan. For Wealth Management Consulting, the fee may be an hourly, flat, or fixed fee for providing consulting and/or financial planning services. For Plan Participant Consulting, the fee will be an annual flat percentage fee according to the fee schedule outlined in Item 5. For HSA Consulting for Employers, the fee may be an hourly, flat, or fixed fee for providing onetime, or ongoing investment consulting and related HSA consulting services to an employer. Retirement Plan Consulting, Plan Participant Consulting, HSA Consulting for Employers, and Wealth Management Consulting may be paid either at the time of service, in advance of service, or after services are rendered. Clients should make checks payable only to Commonwealth Financial Network in relation to Commonwealth Retirement Plan Consulting, Plan Participant Consulting, and HSA Consulting for Employers, Wealth Management Consulting, and direct-billed PPS Program services. This is the only instance in which the client should make a check payable to Commonwealth. Checks should never be made payable to the advisor, the advisor's business name, or any other entity under the control of the advisor in relation to any programs or services offered through Commonwealth. Clients who are asked or instructed by their advisor to make checks payable to the advisor, the advisor's business name, or any entity under control of the advisor should contact Commonwealth directly for verification.

Clients should be aware that, when assets are invested in shares of mutual funds, variable insurance products, and certain alternative investments within a managed account program, clients will pay investment advisory fees to Commonwealth and to the advisor for their advisory services in connection with the investments. In addition to the payments received by Commonwealth and the advisor, clients will also pay management fees, mutual fund and money market 12b-1 fees, subtransfer agent fees, mutual fund and money market administrative expenses, mutual fund transaction fees, certain deferred sales charges and redemption fees on previously purchased mutual funds, annuity internal expenses and fees, and other fees charged by the investment company, insurance product, or alternative investment sponsor, which are typically charged to clients as an internal expense of the product. These internal expenses are described in the prospectus or offering document for the specific product. Clients may be able to invest directly in the investment company, insurance product, or alternative investment without incurring the investment advisory fees, platform fees, or transaction charges assessed by Commonwealth or their advisor. If a client's assets are invested in a fee-based annuity, the client will pay both the direct management fee to Commonwealth and his or her advisor for the advisory services provided by Commonwealth and the advisor in connection with that investment and, indirectly, the management and other fees charged by the underlying annuity investment options, as well as the charges assessed by the insurance company for the product. Of course, clients should also be aware of the tax implications of investing, as well as of the existence of deferred sales charges or redemption fees charged by some product sponsors for positions the client subsequently sells in Commonwealth managed accounts.

Commonwealth and your advisor receive service fees and other compensation from certain investment product sponsors and distributors when they make recommendations or investment decisions for you. These fees and compensation include, but are not limited to, mutual fund and money market 12b-1 and subtransfer agent fees, mutual fund transaction fees, due diligence fees, marketing reimbursements or allowances, or other transaction or service fees. This additional compensation presents a conflict of interest because Commonwealth and your advisor have a greater incentive to make available, recommend, or make investment decisions regarding investments for your account that provide additional compensation to your advisor or Commonwealth over other investments that do not provide additional compensation to your advisor or Commonwealth. Clients are urged to read and consider the contents of this Brochure carefully and to inquire about Commonwealth's and the advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor. Further information about Commonwealth's and your advisor's sources of compensation and conflicts of interest is provided in this Brochure. Information regarding fees and charges assessed to you by the investment products you purchase is available in the appropriate product prospectus, statement of additional information, and/or investment offering document.

Special Disclosures for ERISA Plans: In this Brochure, Commonwealth has disclosed conflicts of interest, such as receiving additional compensation from third parties (e.g., 12b-1 fees, subtransfer agent fees, and revenue sharing) for providing marketing, recordkeeping, or other services in connection with certain investments. Commonwealth, however, has adopted policies and procedures that are designed to ensure compliance with the prohibited transaction rules under ERISA, as amended. For example, Commonwealth has taken several steps to address the conflict of interest associated with Commonwealth's or Commonwealth's advisors' receipt of compensation for services provided to ERISA plans.

First, an advisor negotiates the compensation with ERISA plan sponsors or participants ("ERISA clients") and the compensation is either an annual fee for ongoing services based on a percentage of assets under advisement, a flat fee, or an hourly rate. Second, to the extent that an advisor receives additional compensation from a third party, the advisor must report it to Commonwealth to enable the additional compensation to be offset against the fees that the ERISA clients would otherwise pay for the advisor's services. Third, Commonwealth has established a policy not to influence any advisor's advice or management of assets at any time or for any reason based on any compensation that Commonwealth or the advisor might receive from third parties. In no event will Commonwealth allow advisors to provide advice or manage assets for ERISA clients if they have conflicts of interest that Commonwealth believes are prohibited by ERISA.

As a covered service provider to ERISA plans, Commonwealth will comply with the U.S. Department of Labor regulations on service and fee disclosures, effective July 16, 2011 (or such other date as provided by the Department). Thus, Commonwealth and its advisors will disclose a description of its services along with (i) direct compensation received from ERISA clients; (ii) indirect compensation (e.g., 12b-1 fees) received from third parties; and (iii) transaction-based compensation (e.g., commissions) or other similar compensation shared with related parties servicing the ERISA plan. These disclosures will be made reasonably in advance of entering into, renewing, or extending the advisory service agreement with the ERISA client.

Item 6: Performance-Based Fees and Side-by-Side Management

Commonwealth does not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client).

Item 7: Types of Clients

Commonwealth generally provides advisory services to the following types of clients:

- Individuals (other than high-net-worth individuals)
- High-net-worth individuals
- Corporations or other businesses
- Pension and profit-sharing plans
- State or municipal government entities
- Charitable organizations

Most Commonwealth clients are retail clients who fall under the “Individuals (other than high-net-worth individuals)” category. This category includes, but is not limited to, individual, joint, trust, IRA, 401(k) participant, and custodial accounts.

Commonwealth’s various managed account programs generally require clients to meet certain program account minimums. In some cases, account balances may be combined at the household level to satisfy the account minimum. Commonwealth and the respective Program Sponsors may waive the account minimum requirements for their respective programs in their sole discretion. The following is a description of the account minimums in the various managed accounts available through Commonwealth:

- The Commonwealth PPS Custom Program generally involves a \$25,000 account minimum.
- The account minimums for Commonwealth’s PPS Select programs generally start as low as \$1,000 for Passive model portfolios and \$10,000 for Active model portfolios.
- The PPS Select DFA Program minimum is generally \$50,000. The PPS Select Equity SMA Program minimum is generally \$100,000. The PPS Select Fixed Income SMA Program minimum is generally \$500,000.
- The account minimums for Commonwealth’s PPS Direct programs vary and are typically determined by the third-party portfolio managers. In general, the PPS Direct Mutual Fund/ETF account minimums are \$25,000. The PPS Direct SMA account minimums typically range from \$100,000 to \$250,000. The PPS Direct UMA Program minimum is generally \$250,000.
- Commonwealth also offers advisors’ clients access to certain TPAM programs. Account minimums for TPAM Program accounts vary but generally range between \$25,000 and \$50,000.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss

Methods of Analysis and Investment Strategies

Investing in securities involves risk of loss that investors should be sure they understand and should be prepared to bear.

Commonwealth primarily serves retail investors. Each advisor associated with Commonwealth has the independence to take the approach he or she believes is most appropriate when analyzing investment products and strategies for clients. There are several sources of information that Commonwealth and the advisor may use as part of the investment analysis process. These sources include, but are not limited to:

- Prospectuses and offering materials
- Product and sponsor sales materials
- Sponsor due diligence meetings and product presentations
- Financial publications
- Research, software, and materials prepared by third parties
- Corporate rating services
- SEC filings (annual reports, prospectus, 10-K, etc.)
- Company press releases

As a firm, Commonwealth does not favor any specific method of analysis over another and, therefore, would not be considered to have one approach deemed to be a “significant strategy.” There are, however, a few common approaches that may be used by Commonwealth or your advisor, individually or collectively, in the course of providing advice to clients. **It is important to note that there is no investment strategy that will guarantee a profit or prevent loss.** Following are some common strategies employed by Commonwealth and its advisors in the management of client accounts:

- **Dollar-Cost Averaging (DCA):** The technique of buying a fixed dollar amount of a particular investment on a regular schedule, regardless of the share price. More shares are purchased when prices are low, and fewer shares are bought when prices are high. DCA is believed to lessen the risk of investing a large amount in a single investment at higher price. DCA strategies do not prevent against loss in declining markets.
- **Asset Allocation:** An investment strategy that aims to balance risk and reward by allocating assets among a variety of asset classes. At a high level, there are three main asset classes—equities (stocks), fixed income (bonds), and cash/cash equivalents—each of which has different risk and reward profiles/behaviors. Asset classes are often further divided into domestic and foreign investments, and equities are often divided into small, intermediate, and large capitalization. The general theory behind asset allocation is that each asset class will perform differently from the others in different market conditions. By diversifying a portfolio of investments among a wide range of asset classes, advisors seek to reduce the overall volatility and risk of a portfolio through avoiding overexposure to any one asset class during various market cycles. Asset allocation does not guarantee a profit or protect against loss.
- **Technical Analysis (aka “Charting”):** A method of evaluating securities by analyzing statistics generated by market activity, such as past prices and volume. Technical analysts do not attempt to measure a security’s intrinsic value. Instead, they use charts and other tools to identify patterns that can suggest future activity. When looking at individual equities, a person using technical analysis generally believes that performance of the stock, rather than performance of the company itself, has more to do with the company’s future stock price. It is important to understand that past performance does not guarantee future results.
- **Fundamental Analysis:** A method of evaluating a security that entails attempting to measure its intrinsic value by examining related economic, financial, and other qualitative and quantitative factors. Fundamental analysts attempt to study everything that can affect the security’s value, including macroeconomic factors (e.g., the overall economy and industry conditions) and company-specific factors (e.g., financial condition and management). The end goal of performing fundamental analysis is to produce a value that an investor can compare with the security’s current price, with the

aim of figuring out what sort of position to take with that security (underpriced = buy, overpriced = sell or short). Fundamental analysis does not guarantee a profit or protect against loss.

- **Quantitative Analysis:** An analysis technique that seeks to understand behavior by using complex mathematical and statistical modeling, measurement, and research. By assigning a numerical value to variables, quantitative analysts try to replicate reality mathematically. Some believe that it can also be used to predict real-world events, such as changes in a share price. Quantitative analysis does not guarantee a profit or protect against loss.
- **Qualitative Analysis:** Securities analysis that uses subjective judgment based on nonquantifiable information, such as management expertise, industry cycles, strength of research and development, and labor relations. This type of analysis technique is different from quantitative analysis, which focuses on numbers. The two techniques, however, are often used together. Qualitative analysis does not guarantee a profit or protect against loss.

Commonwealth's PPS Select Program is based on asset allocation concepts and modern portfolio theory. The PPS Select portfolios are designed to provide long-term, risk-adjusted returns for investors across the risk/return spectrum. Depending on the program and model selected by a client, the program may invest in open-end mutual funds, closed-end funds, ETFs, individual municipal fixed income securities, and individual equity securities managed by Commonwealth's own Investment Management and Research team. When selecting investments for inclusion or removal from the PPS Select portfolios, the Commonwealth Investment Management and Research team conducts extensive due diligence.

Commonwealth's investment philosophy process has five steps: (1) screening, (2) evaluation, (3) analysis, (4) portfolio construction, and (5) ongoing monitoring:

- **Step 1—Screening:** An initial screening process based on quantitative criteria is used as a starting point for further research. Its purpose is to narrow down the universe of investments that meet Commonwealth's objective criteria.
- **Step 2—Evaluation:** After screening, the investment (or group of investments) under consideration is evaluated by applying a scoring system based on returns that are adjusted to take into account quantifiable risk. The investment is also evaluated based on its peer group ranking, benchmark relative performance, and consistency of investment management style.
- **Step 3—Analysis:** The objective of this step is to build a solid understanding of how the investment operates. During this stage, the Investment Management team spends a great deal of time evaluating the investment's philosophy and process to ensure that they are consistent. After the in-depth quantitative and qualitative analysis is complete, the team meets with the potential investment's key decision makers—either on-site or over the phone—to gain a greater understanding of their process for managing the portfolio.
- **Step 4—Portfolio Construction:** After Commonwealth's portfolio managers have determined that the investment is attractive on a stand-alone basis, they assess how well the investment complements and fits with other PPS Select portfolio holdings. A review of certain metrics, such as excess-return correlation, is performed to reasonably ensure that holdings will perform as expected in different market environments.
- **Step 5—Ongoing Monitoring:** The PPS Select portfolios are monitored on an ongoing basis. The Investment Management team continually conducts performance reviews, holdings-based attribution analysis, firm commentary reviews, and conference calls and meetings to determine whether a portfolio is meeting the team's risk-adjusted return expectations and an investment's stated objective.

Risks of Loss

Regardless of what investment strategy or analysis is undertaken, investing in securities involves risk of loss that clients must be prepared to bear; in fact, some investment strategies could result in total loss of your investment. Some risks may be avoided or mitigated, while others are completely unavoidable. When evaluating risk, financial loss may be viewed differently by each client and may depend on many different risks, each of which may affect the probability and magnitude of any potential losses. The

following risks may not be all inclusive but should be considered carefully by a prospective client before retaining our services.

Some of the common risks you should consider prior to investing include, but are not limited to:

- **Market risks:** The prices of, and the income generated by, the common stocks, bonds, and other securities you own may decline in response to certain events taking place around the world, including those directly involving the issuers; conditions affecting the general economy; overall market changes; local, regional, or global political, social, or economic instability; governmental or governmental agency responses to economic conditions; and currency, interest rate, and commodity price fluctuations.
- **Interest rate risks:** The prices of, and the income generated by, most debt and equity securities will most likely be affected by changing interest rates and by changes in the effective maturities and credit ratings of these securities. For example, the prices of debt securities generally decline when interest rates rise and increase when interest rates fall. In addition, falling interest rates may cause an issuer to redeem, “call,” or refinance a security before its stated maturity date, which would typically result in having to reinvest the proceeds in lower-yielding securities.
- **Credit risks:** Debt securities are also subject to credit risk, which is the possibility that the credit strength of an issuer will weaken and/or an issuer of a debt security will fail to make timely payments of principal or interest and the security will go into default.
- **Risks of investing outside the U.S.:** Investments in securities issued by entities based outside the United States are often subject to the risks described above to a greater extent.
- **Margin transactions:** Securities transactions in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan, inherently have more risk than cash purchases. If the value of the shares drops sufficiently, the investor will be required to either deposit more cash into the account or sell a portion of the stock in order to maintain the margin requirements of the account. This is known as a “margin call.” An investor’s overall risk in accounts utilizing margin includes the amount of money invested plus the amount that was loaned to them.
- **Tax considerations:** Our strategies and investments may have unique and significant tax implications. Unless specifically agreed otherwise, and in writing, however, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, it is strongly recommended that you consult with a tax professional regarding the investing of your assets. Custodians and broker/dealers must report the cost basis of equities acquired in client accounts. Your custodian will default to the first in, first out (“FIFO”) accounting method for calculating the cost basis of your equity investments and average-cost for mutual fund positions. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, provide written notice to our firm immediately, and Commonwealth will alert your account custodian of your individually selected accounting method. Decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.
- **Risk of loss:** Investing in securities involves risk of loss that you should be prepared to bear. Commonwealth and your advisor do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met.
- **Liquidity risk:** The risk of being unable to sell your investment at a fair price at a given time due to high volatility or lack of active liquid markets. You may receive a lower price, or it may not be possible to sell the investment at all. Certain structured products, interval funds, and alternative investments are less liquid than securities traded on an exchange, and you should be aware of the fact that you may not be able to sell these products outside of prescribed time periods. You should consult your advisor prior to purchasing products considered illiquid and in instances where changes in your financial situation and objectives may increase your need for liquidity.
- **Inflation risk:** Security prices and portfolio returns will likely vary in response to changes in inflation and interest rates. Inflation causes the value of future dollars to be worth less and may

reduce the purchasing power of a client's future interest payments and principal. Inflation also generally leads to higher interest rates which may cause the value of many types of fixed income investments to decline.

- **Time horizon and longevity risk:** Time horizon risk is the risk that your investment horizon is shortened because of an unforeseen event (e.g., the loss of your job). This may force you to sell investments that you were expecting to hold for the long term. If you must sell at a time that the markets are down, you may lose money. Longevity risk is the risk of outliving your savings. This risk is particularly relevant for people who are retired or nearing retirement.
- **Recommendation of particular types of securities:** Commonwealth and your advisor will recommend various types of securities and do not primarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it, and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. In very general terms, however, the higher the anticipated return of an investment, the higher the risk of loss associated with the investment. Descriptions of the types of securities Commonwealth and your advisor may recommend to you and some of their inherent risks are provided below:
 - *Money market funds:* A money market fund is technically a security, and, as such, there is a risk of loss of principal, although it is generally rare. In return for this risk, you should earn a greater return on your cash than you would expect from a Federal Deposit Insurance Corporation ("FDIC") insured savings account (money market funds are not FDIC insured). Next, money market fund rates are variable. In other words, you do not know how much you will earn on your investment next month. The rate could go up or down. If it goes up, that may result in a positive outcome. If it goes down, however, and you earn less than you expected to, you may end up needing more cash. A final risk you are taking with money market funds has to do with inflation. Because money market funds are considered to be safer than other investments like stocks, long-term average returns on money market funds tend to be less than long-term average returns on riskier investments. Over long periods of time, inflation can eat away at your returns.
 - *Municipal securities:* Municipal securities, while generally thought of as safe, can have significant risks associated with them, including, but not limited to, the creditworthiness of the governmental entity that issues the bond, the stability of the revenue stream that is used to pay the interest to the bondholders, when the bond is due to mature, and whether the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same amount of interest or yield to maturity.
 - *Bonds:* Also known as corporate debt securities, bonds are typically safer investments than equity securities, but their risk can also vary widely based on the financial health of the issuer, the risk that the issuer might default, when the bond is set to mature, and whether the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same rate of return.
 - *Stocks:* There are numerous ways of measuring the risk of equity securities (also known simply as "equities" or "stocks"). In very broad terms, the value of a stock depends on the financial health of the company issuing it. Stock prices, however, can be affected by many other factors, including, but not limited to, the class of stock (e.g., preferred or common), the health of the market sector of the issuing company, and the overall health of the economy. In general, larger, more well-established companies (i.e., large-caps) tend to be safer than smaller start-up companies (i.e., small-caps), but the mere size of an issuer is not, by itself, an indicator of the safety of the investment.
 - *Mutual funds and ETFs:* Mutual funds and ETFs are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities, or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small-cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities)

rather than balancing the fund with different types of securities. ETFs differ from mutual funds in that they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are “no load,” meaning there’s no fee to buy into or sell out of the fund, other types of mutual funds do charge such fees, which can also reduce returns. Mutual funds can also be “closed-end” or “open-end.” Open-end mutual funds continue to allow new investors indefinitely, whereas closed-end funds have a fixed number of shares to sell, which can limit their availability to new investors.

- *Variable annuities:* A variable annuity is a form of insurance where the seller or issuer (typically an insurance company) makes a series of future payments to a buyer (annuitant) in exchange for the immediate payment of a lump sum (single-payment annuity) or a series of regular payments (regular-payment annuity). The payment stream from the issuer to the annuitant has an unknown duration based principally upon the date of death of the annuitant. At this point, the contract will terminate, and the remainder of the funds accumulated will be forfeited unless there are other annuitants or beneficiaries in the contract. Annuities can be purchased to provide an income during retirement. Unlike fixed annuities that make payments in fixed amounts or in amounts that increase by a fixed percentage, variable annuities pay amounts that vary according to the performance of a specified set of investments, typically bond and equity mutual funds. Many variable annuities typically impose asset-based sales charges or surrender charges for withdrawals within a specified period. Variable annuities may impose a variety of fees and expenses, in addition to sales and surrender charges, such as mortality and expense risk charges, administrative fees, underlying fund expenses, and charges for special features, all of which can reduce the return.
- *Real estate:* Real estate is increasingly being used as part of a long-term core strategy due to increased market efficiency and increasing concerns about the future long-term variability of stock and bond returns. In fact, real estate is known for its ability to serve as a portfolio diversifier and inflation hedge. The asset class still bears a considerable amount of market risk, however. Real estate has shown itself to be very cyclical, somewhat mirroring the ups and downs of the overall economy. In addition to employment and demographic changes, real estate is also influenced by changes in interest rates and the credit markets, which affect the demand and supply of capital and, thus, real estate values. Along with changes in market fundamentals, investors wishing to add real estate as part of their core investment portfolios need to look for property concentrations by area or by property type. Because property returns are directly affected by local market basics, real estate portfolios that are too heavily concentrated in one area or property type can lose their risk mitigation attributes and bear additional risk by being too influenced by local or sector market changes.
- *Limited partnerships:* A limited partnership is a financial affiliation that includes at least one general partner and a number of limited partners. The partnership invests in a venture, such as real estate development or oil exploration, for financial gain. The general partner has management authority and unlimited liability. The general partner runs the business and, in the event of bankruptcy, is responsible for all debts not paid or discharged. The limited partners have no management authority, and their liability is limited to the amount of their capital commitment. Profits are divided between general and limited partners according to an arrangement formed at the creation of the partnership. The range of risks is dependent on the nature of the partnership and disclosed in the offering documents if privately placed. Publicly traded limited partnerships have similar risk attributes to equities; however, like privately placed limited partnerships, their tax treatment is under a different tax regime from equities. You should speak to your tax adviser in regard to their tax treatment.
- *Options contracts:* Options are complex securities that involve risks and are not suitable for everyone. Option trading can be speculative in nature and carry substantial risk of loss. It is generally recommended that you only invest in options with risk capital. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an underlying asset at a specific price on or before a certain date (i.e., the expiration date). The two types of options are calls and puts. A call gives the holder the right to buy an asset at a certain price within a specific period of time. Calls are similar to having a long position on a stock. Buyers of calls hope that the stock will increase substantially before the option expires. A put gives the holder

the right to sell an asset at a certain price within a specific period of time. Puts are very similar to having a short position on a stock. Buyers of puts hope that the price of the stock will fall before the option expires. Selling options is more complicated and can be even riskier. Option trading risks are closely related to stock risks, as stock options are a derivative of stocks.

- *Structured products:* A structured product is generally a prepackaged investment strategy based on derivatives, such as a single security, a basket of securities, options, indices, commodities, debt issuances, and/or foreign currencies, and, to a lesser extent, swaps. Structured products are usually issued by investment banks or affiliates thereof. In addition to a fixed maturity, they have two components: a note and a derivative. The derivative component is often an option. The note provides for periodic interest payments to the investor at a predetermined rate, and the derivative component provides for the payment at maturity. Some products use the derivative component as a put option written by the investor that gives the buyer of the put option the right to sell to the investor the security or securities at a predetermined price. Other products use the derivative component to provide for a call option written by the investor that gives the buyer of the call option the right to buy the security or securities from the investor at a predetermined price. A feature of some structured products is a “principal guarantee” function, which offers protection of principal if held to maturity. These products are not always FDIC insured, however; they may only be insured by the issuer and, thus, have the potential for loss of principal in the case of a liquidity crisis or other solvency problems with the issuing company. Investing in structured products involves a number of risks, including, but not limited to, fluctuations in the price, level, or yield of underlying instruments; interest rates; currency values; and credit quality. They also involve the risk of substantial loss of principal, limits on participation in any appreciation of the underlying instrument, limited liquidity, credit risk of the issuer, conflicts of interest, and other events that are difficult to predict.

Investments may also be affected by currency controls; different accounting, auditing, financial reporting, disclosure, and regulatory and legal standards and practices; expropriation (occurs when governments take away a private business from its owners); changes in tax policy; greater market volatility; different securities market structures; higher transaction costs; and various administrative difficulties, such as delays in clearing and settling portfolio transactions or in receiving payment of dividends. These risks may be heightened in connection with investments in developing countries. Investments in securities issued by entities domiciled in the United States may also be subject to many of these risks.

Any of the common risks described above could adversely affect the value of your portfolio and account performance, and you can lose money. Even though these risks exist, Commonwealth and your advisor will still earn the fees and other compensation described in this Brochure. Clients should carefully consider the risks of investing and the potential that they may lose principal while Commonwealth and your advisor continue to earn fees and other forms of compensation.

Your investments are not bank deposits and are not insured or guaranteed by the FDIC or any other governmental agency, entity, or person, unless otherwise noted and explicitly disclosed as such, and as such may lose value.

Item 9: Disciplinary Information

Information on disciplinary history and registration of Commonwealth and persons associated with Commonwealth may be obtained online at <https://adviserinfo.sec.gov> or <https://brokercheck.finra.org> or by contacting state regulatory authorities. Following is a list of those legal or disciplinary events that may be material to your evaluation of Commonwealth or the integrity of Commonwealth’s management.

During the period January 1, 2014, to March 27, 2014, Commonwealth purchased, recommended, or held for advisory clients’ mutual fund share classes that charged 12b-1 fees instead of lower-cost share classes of the same funds for which the clients were eligible. Commonwealth and its associated persons received 12b-1 fees in connection with these investments. The Securities and Exchange Commission (SEC) found that Commonwealth failed to disclose in its Form ADV or otherwise the conflicts of interest related to its receipt of 12b-1 fees and/or its selection of mutual fund share classes that pay such fees. As

a result of these disclosure failures, the SEC found that Commonwealth violated Sections 206(2) and 207 of the Advisers Act. Pursuant to the Division of Enforcement's Share Class Selection Disclosure Initiative, Commonwealth self-reported these violations to the SEC. On March 11, 2019, the SEC accepted Commonwealth's offer of settlement and entered an administrative order. Without admitting or denying the findings, Commonwealth consented to a cease and desist, censure, and disgorgement of \$1,426,700.16 and prejudgment interest of \$210,603.29.

During the period from December 7, 2009, to January 28, 2012, Commonwealth used a system to comply with its regulatory obligations pertaining to archiving, preserving, and supervising the business-related emails of its associated persons. During this period, Commonwealth's email surveillance system failed to subject about 12.6 million of our associated persons' outgoing emails to our daily email surveillance protocol and failed to surveil approximately 474,380 emails that were sent or received by our registered representatives ("RRs"). These failures violated NASD Conduct Rules 3010(a) and 3010(d)(2) and FINRA Rule 2010. Despite the failure of its surveillance tool to review outgoing emails, Commonwealth did surveil incoming emails that were received by its RRs, including emails sent in reply to its RRs' outgoing emails; outgoing emails that were sent to or carbon-copied to Commonwealth employees or other Commonwealth RRs; and certain outgoing emails in connection with the firm's branch audits. Commonwealth self-reported these issues to FINRA in March 2012; undertook an internal review of its supervisory policies, procedures, and systems relating to these issues; and subjected emails that had not been reviewed to review. On March 19, 2014, FINRA accepted Commonwealth's letter of acceptance, waiver, and consent. Without admitting or denying the findings, Commonwealth accepted and consented to a censure and a \$250,000 fine.

Item 10: Other Financial Industry Activities and Affiliations

Commonwealth, the Broker/Dealer, and Material Conflicts of Interest

As mentioned in the "About Us" section, Commonwealth is registered as an investment adviser and a broker/dealer. Commonwealth's registration as a broker/dealer is material to Commonwealth's advisory business because substantially all of Commonwealth's managed accounts are held with Commonwealth's broker/dealer. Depending upon the securities registrations held by each individual advisor, Commonwealth's advisors offer a variety of securities and investments to their clients, including, but not limited to, mutual funds, 529 college savings plans, HSAs, annuities, individual stocks and bonds, options, limited partnerships, UITs, real estate investment trusts, donor-advised funds, alternative investments, and a variety of other securities and insurance products approved for sale by Commonwealth. Several of Commonwealth's principal executive officers and management persons, including Commonwealth's founder and chairman, vice chairman, CEO, president, and CFO, are each individually registered with Commonwealth's broker/dealer. As discussed in Item 5. Fees and Compensation and Item 12. Brokerage Practices of this Brochure, Commonwealth's relationship as a broker/dealer presents a variety of material conflicts of interest with its clients. Commonwealth has separate, fully disclosed clearing arrangements with NFS and Pershing LLC ("Pershing"), a Bank of New York Mellon company.

As part of the investment advisory programs offered to clients, Commonwealth, in its capacity as a broker/dealer, provides brokerage execution services to Commonwealth advisory clients participating in Commonwealth's PPS managed account programs. Commonwealth and its advisors make securities and insurance recommendations to clients (or, in the case of discretionary services, make investment decisions for clients) regarding Commonwealth's investment advisory programs and services. Where permitted by law, Commonwealth and/or your advisor will receive transaction-based commissions, insurance commissions, mutual fund 12b-1 fees, distributor fees, service fees, due diligence fees, marketing reimbursements, revenue sharing, and other payments relating to your investment in or otherwise supporting Commonwealth's or your advisor's activities regarding the securities and insurance products recommended, purchased, or held within your Commonwealth advisory program account or pursuant to the advisory services provided. To the extent Commonwealth is the investment adviser, sponsor, or other service provider to your investment advisory program, Commonwealth receives compensation for its services. Clients should be aware that Commonwealth's or your advisor's receipt of commissions, fees, payments, and other compensation presents a conflict of interest because Commonwealth and your advisor have an incentive to make available or to recommend those products,

programs, or services or make investment decisions regarding investments, that provide additional compensation to Commonwealth or your advisor over other investments that do not provide additional compensation to Commonwealth or your advisor. As a matter of policy Commonwealth credits the mutual fund 12b-1 fees it receives in Commonwealth PPS managed accounts back to the accounts paying such 12b-1 fees. See also Item 5. Fees and Compensation and Item 12. Brokerage Practices of this Brochure to review information with respect to certain material conflicts of interest that are applicable between Commonwealth and its clients due to Commonwealth's business as a broker/dealer.

Other Commonwealth-Related Companies

Commonwealth has a related company that is licensed as an insurance agency under the name of CES Insurance Agency. Several Commonwealth management persons, and a large majority of Commonwealth's advisors, are licensed insurance agents of CES Insurance Agency.

Commonwealth's Relationships with Other Investment Advisers

Commonwealth and your advisor may serve as solicitors for or recommend clients to third-party investment advisers. Commonwealth and its advisors are compensated for referring your advisory business to these third-party investment advisers. This compensation generally takes the form of the third-party investment adviser sharing with Commonwealth and your advisor a portion of the advisory fee the third-party investment adviser charges you for providing investment management services. Commonwealth and your advisor, therefore, have a conflict of interest to refer clients to those third-party investment advisers that pay referral fees to Commonwealth or to your advisor rather than those that don't. Additionally, Commonwealth and your advisor have a conflict of interest to refer clients to those third-party investment advisers that pay higher referral fees over those that pay lower referral fees. Commonwealth performs reasonable due diligence on these third-party investment advisers on an initial and ongoing basis. Clients who are referred to these third-party investment advisers will receive a separate written disclosure document that describes, among other things, the compensation that will be paid to Commonwealth and the advisor by the third-party investment adviser, as well as any amount to be charged to the client that is in addition to the advisory fee that would otherwise be paid by the client to the third-party investment adviser in exchange for the referral.

Item 11: Code of Ethics, Participation or Interest in Client Transactions, and Personal Trading

Pursuant to Rule 204A-1 under the Investment Advisers Act of 1940, as amended, Commonwealth has adopted a Code of Ethics that governs a number of conflicts of interest we have when providing our advisory services to you. Our Code of Ethics is designed to ensure that we meet our fiduciary obligations to you and to foster a culture of compliance throughout our firm.

Our Code of Ethics is comprehensive and is designed to help us detect and prevent violations of securities laws and to help ensure that we keep your interests first at all times. We distribute our Code of Ethics to each supervised person at Commonwealth at the time of his or her initial affiliation with our firm; we make sure it remains available to each supervised person for as long as he or she remains associated with our firm; and we ensure that updates to our Code of Ethics are communicated to each supervised person as changes are made.

Commonwealth's Code of Ethics sets forth certain standards of conduct and addresses conflicts of interest among Commonwealth and Commonwealth's employees, agents, advisors, and advisory clients.

We will provide a copy of our Code of Ethics to any client or prospective client upon request.

Commonwealth and its advisors often invest in the same securities that we recommend to clients. Commonwealth and its advisors also recommend securities to, and buy and sell securities for, client accounts at or about the same time that we buy or sell the same securities for our own accounts. These activities create a conflict of interest between us and our clients. Commonwealth policy prohibits "trading ahead" of clients' transactions to the detriment of clients. When Commonwealth and its advisors are purchasing or selling securities for their own accounts, priority will be given to client transactions, or

trades will be aggregated together to obtain an average execution price for the benefit of all parties. Commonwealth has implemented surveillance and exception reports that are designed to identify and correct situations in which firm or advisor transactions are intentionally placed ahead of client transactions to the detriment of clients.

Item 12: Brokerage Practices

General Overview

Commonwealth renders investment advice to a large majority of its PPS Program advisory clients on a discretionary basis pursuant to written authorization granted by the client. Commonwealth maintains a primary clearing relationship for the execution of client transactions with NFS as the account custodian. Commonwealth maintains a secondary clearing relationship for the execution of client transactions with Pershing and Charles Schwab and Company Inc. (“Schwab”) as the account custodians. In some cases, Commonwealth will approve the use of other account custodians for its PPS accounts. Substantially all of Commonwealth’s PPS advisory clients must select Commonwealth as the broker/dealer of record and NFS as the clearing firm for their PPS managed accounts. NFS and Pershing offer their broker/dealer clients substantial financial strength and stability, economies of scale, and reliable technology.

Commonwealth PPS clients do not generally have the option to direct securities brokerage transactions to other broker/dealers or other account custodians. This constitutes a conflict of interest as Commonwealth receives compensation on trading and other activities for accounts held at NFS. If, however, a client should request, and Commonwealth approve, the use of a broker/dealer other than NFS, Pershing, or Schwab for securities transaction execution, the client should be aware that Commonwealth will generally be unable to negotiate commissions or other fees and charges for the client’s account, and Commonwealth would not be able to combine the client’s transactions with those of other Commonwealth clients purchasing or selling the same securities (“batched trades”), as discussed further below. As a result, Commonwealth would be unable to reasonably ensure that the client receives “best execution” with respect to such directed trades. Commonwealth may also be unable to provide timely monitoring of transaction activity or provide the client with quarterly performance reporting and other operational or administrative services.

Not all investment advisers that are dually registered as broker/dealers or that have affiliated broker/dealers require their clients to use the adviser’s related broker/dealer to execute transactions. Although Commonwealth is often able to obtain price improvement through its trade executions with NFS that it believes is beneficial to its clients, Commonwealth’s clearing relationship with NFS provides Commonwealth’s broker/dealer with substantial economic benefits by using itself as the broker/dealer and NFS as the clearing firm for its PPS Program accounts rather than an unaffiliated broker/dealer. For example, Commonwealth pays NFS an asset-based fee for custody, clearing, and account-related charges and assesses transaction costs and certain other brokerage account charges and fees to PPS client accounts. Commonwealth has also received compensation for continuing to utilize NFS as its clearing firm in the form of a contract renewal credit. Additionally, Commonwealth receives continuous revenue-sharing payments from NFS that are derived from certain types of positions and assets in client accounts held at NFS. Commonwealth also maintains a Core Account Sweep Program with NFS. This program creates substantial financial benefits for Commonwealth and NFS as described in this Item 12. This additional compensation received by Commonwealth in its broker/dealer capacity creates a significant conflict of interest with Commonwealth’s clients because Commonwealth has a substantial economic incentive to use NFS as its clearing firm for trade execution and custody over other firms that do not or would not revenue share with Commonwealth. Additionally, by using itself as the broker/dealer for its PPS Program accounts, Commonwealth may be unable to achieve the most favorable execution for client transactions, which may cost clients more money. Further detailed discussion of the substantial economic benefits Commonwealth receives from its relationship with NFS can be found in Item 5. Fees and Compensation, this Item 12, and in Item 14. Client Referrals and Other Compensation below. Clients are urged to read and consider the contents of this Brochure carefully and to inquire about Commonwealth’s and the advisor’s various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor.

Best Execution

Commonwealth seeks to obtain, through its clearing firms, the best combination of net price and execution when effecting brokerage transactions for client accounts. Commonwealth periodically and systematically reviews NFS's, Pershing's, and Schwab's brokerage execution quality and Commonwealth's processes to ensure that Commonwealth continues to meet its best execution obligations for its clients.

A number of judgmental factors are utilized by Commonwealth in analyzing overall trade execution quality and its selection of clearing firms. Such factors include, but are not necessarily limited to:

- The nature of the securities being purchased or sold
- Access to market participants, which may be limited due to thin or no trading activity for a particular security
- The size of the transaction
- The speed of the transaction
- The size of the spread
- The ability to obtain price improvement
- The desired timing of the transaction
- The activity existing and anticipated in the market for the particular security
- The execution, clearance, and settlement capabilities of the executing broker/dealer
- The overall trade execution quality of the executing broker/dealer as compared with other leading executing broker/dealers
- The executing broker/dealer's financial stability and industry reputation
- The efficiency and reliability of the executing broker/dealer's systems and technologies
- The quality of Commonwealth's access to the executing broker/dealer's senior management and the executing broker/dealer's responsiveness to Commonwealth
- The extent to which Commonwealth can leverage the strength of its relationship with the clearing broker/dealer to improve overall service and technology

Aggregation of Trade Orders

Because Commonwealth advisors generally manage their client's accounts independently of one another based on each client's specific needs and objectives, transactions for each client account are often executed independently. When advisors believe it is appropriate or beneficial to do so, however, they will aggregate the purchase or sale of multiple clients' securities together to help facilitate best execution and provide each client with the same execution price. Aggregating multiple client orders together is particularly useful when Commonwealth or your advisor is utilizing model portfolio management strategies.

When Commonwealth and its advisors aggregate orders, they do so in a manner reasonably designed to ensure that no participating client obtains a more favorable execution price than other clients. When Commonwealth or your advisor aggregates multiple client orders, transactions are typically allocated pro rata to the participating client accounts in proportion to the size of the order placed for each account. Commonwealth or your advisor may increase or decrease the amount of securities allocated to each account, if necessary, to avoid holding odd lot or small numbers of shares for particular clients. Additionally, if Commonwealth is unable to fully execute an aggregated order and Commonwealth determines that it would be impractical to allocate a small number of securities among the accounts participating in the transaction on a pro rata basis, Commonwealth will allocate such securities in a manner determined in good faith to be fair and equitable to the clients involved. Clients should understand that in instances where their assets are maintained at Pershing or Schwab, Commonwealth is not able to aggregate client orders with those placed for accounts held at NFS.

In the event a money manager ("Manager") through the PPS Direct SMA/UMA Program elects to use brokers or dealers other than Commonwealth to effect a transaction in a security (commonly referred to as "stepping out" a trade), brokerage commissions, markups and markdowns, and other charges for those transactions are generally charged to the client by the executing broker or dealer, whereas the wrap fees

assessed by Commonwealth cover the costs of brokerage commissions and other charges on transactions effected through Commonwealth. Clients in the PPS Direct SMA/UMA Program should be aware that, in cases where a Manager engages in step-out trades, the executing broker or dealer may assess a commission markup or markdown or other charge for having executed the transaction, which will be in addition to the wrap fee assessed by Commonwealth. In such cases, the net purchase or sale price reflected on trade confirmations and brokerage statements provided by Commonwealth for those trades will include the cost of brokerage commissions or dealer markups or markdowns charged by the executing broker and paid for by the client. Due to the additional costs often incurred by clients when Managers engage in step-out trades, the Managers that elect to engage in step-out trades will generally cost clients more than those Managers that do not engage in step-out trades. Some Managers have historically directed most, if not all, of their program trades to outside brokers or dealers.

In the selection of brokers or dealers to effect transactions, the Manager is expected to comply with its best-execution obligations and consider all relevant factors, including, but not limited to, the speed and efficiency, execution quality, commission rates, and responsiveness of the executing broker or dealer. The Manager may select brokers or dealers that provide the Manager research or other transaction-related services and may cause the client to pay such brokers or dealers commissions or other transaction-related fees in excess of those that other brokers or dealers may have charged, including Commonwealth. Such research and other services may be used for the benefit of the Manager's accounts as and where permitted by rule or regulation. Managers that specialize in fixed income, international, small-cap, or ETP disciplines may be more likely to trade away from Commonwealth due to market conditions, liquidity, exchange availability, or other factors they consider relevant in satisfying their best-execution obligations to clients.

Clients should understand that Commonwealth does not evaluate whether a Manager is meeting its best-execution obligations to clients when trading away, as it is not a party to those transactions and is not able to negotiate the prices obtained or transaction-related charge(s) assessed between the Manager and the executing broker or dealer. Commonwealth does not discourage or restrict a Manager's ability to trade away.

Clients participating in the PPS Direct SMA/UMA Program should review the respective Manager's Form ADV Disclosure Brochure carefully prior to deciding to do business with any particular Manager. Among other things, the Manager's Brochure must disclose the Manager's conflicts and various sources of compensation, best execution policies and practices, and the costs incurred by clients that result from engaging in step-out trades, among other things. Clients should also discuss the use or intended use of any particular Manager with their advisor, including the Manager's trading practices and the costs that will be borne by the client by choosing to participate in the PPS Direct SMA/UMA Program. Clients who are participating, or who are considering participating, in Commonwealth's PPS Direct SMA/UMA Program are urged to read Commonwealth's Step-Out Trading Disclosure, available on Commonwealth's website at www.commonwealth.com/clients/media/StepOutTradingDisclosure.pdf.

Research and Other Soft-Dollar Benefits

Commonwealth does not use commissions to pay for research and brokerage services (i.e., soft-dollar transactions). Research, along with other products and services other than trade execution, are paid for by Commonwealth in accordance with the terms of Commonwealth's clearing agreements with NFS and Pershing.

Core Account Sweep Programs (CASPs)

Commonwealth offers two core account sweep programs ("Programs"). These Programs are the core account investment vehicles used to hold your cash balances while awaiting reinvestment for eligible accounts. The two Programs, the Bank Deposit Sweep Program ("BDSP") and the Advisory Retirement Sweep Program ("ARSP"), are available for different types of client accounts. The BDSP is the core account investment vehicle for eligible brokerage accounts. The ARSP is the core account investment vehicle for eligible advisory individual retirement accounts. The cash balance in your eligible Commonwealth brokerage accounts will be deposited automatically or "swept" into interest-bearing

FDIC-insurance eligible Program deposit accounts (“Deposit Accounts”) at one or more FDIC-insured financial institutions (each a “Program Bank” or collectively, “Program Banks”).

BDSP. The Program creates financial benefits for Commonwealth and NFS. We will receive a fee from each Program Bank in connection with the Program (equal to a percentage of all participants’ average daily deposits at the Program Banks). Amounts will vary but in no event will they be more than 2.50% on an annualized basis as applied across all Deposit Accounts. At our discretion, we may reduce or raise fees and vary the amount of the reductions between clients based on market conditions. Although the fees vary from Program Bank to Program Bank, the Program pools all fees in an effort to treat clients equally, regardless of in which individual bank clients’ funds may be deposited. The fee amount received will reduce the interest rate paid to clients by the Program Bank. We will also pay a fee to NFS. We reserve the right to modify the fees we receive from Program Banks. From time to time, if the fee increases, you will receive notification of any such change. In addition to our fees, other service providers with respect to the Program will receive fees from each Program Bank (collectively, with the fees paid to us and/or NFS, “Program Fees”). In addition to the Program Fees referenced above, your nonbrokerage retirement advisory account will be charged additional fees that apply to the securities accounts maintained by you.

Cash balances in the Program are also included in the value of account assets used to calculate the management fees and other asset-based fees we charge to your PPS advisory accounts.

The Program Banks use Program Deposits to fund current and new lending and for investment activities. The Program Banks earn net income from the difference between the interest they pay on Program Deposits and the fees paid to us and the income they earn on loans, investments, and other assets. As noted above, the Program Banks may pay rates of interest on Program Deposits that are lower than prevailing market interest rates that have been paid on accounts otherwise opened directly with the Program Bank. Program Banks do not have a duty to provide the highest rates available and may instead seek to pay a low rate. Lower rates will be more financially beneficial to a Program Bank. There is no necessary linkage between bank rates of interest and the highest rates available in the market, including any money market mutual fund rates. By comparison, a money market mutual fund generally seeks to achieve the highest rate of return (less fees and expenses) consistent with the money market mutual fund’s investment objective, which can be found in the fund’s prospectus.

The revenue generated by us may be greater than revenues generated by sweep options at other brokerage firms and may be greater than other core account investment vehicles currently available to you or possible core account investment vehicles that we have used in the past or may consider using in the future. In addition, we will make compensation payments to NFS, our clearing agent, for recordkeeping and other services with respect to amounts invested in the Program, which will be no more than 70 basis points (0.70%). NFS may receive more revenue with respect to amounts in the Program than with respect to other sweep products.

Because of the fees and benefits described above, the Program may be more profitable to us than other available sweep options, if any. We and/or NFS will benefit from the possession and temporary investment of cash balances prior to the deposit of such balances in the Program.

ARSP. The Program provides financial benefits for Commonwealth and NFS. For their services in connection with maintaining and administering the Program, Commonwealth and NFS will receive fees, including a per-account fee if certain independent market triggers are satisfied. It is expected that these fees will be covered by income generated by the cash balances in the Program, with the remaining economics flowing to you. Both your and Commonwealth’s fees are based on a fixed formula and vary based on factors such as the Federal Funds Effective Rate (“FFER”), total AUM, and number of accounts in the Program. Commonwealth’s fee will be the sum of two fees: (i) a variable rate that is a subset of the total rate applied to a portion of the cash balances in the Program (“Variable Fee”), and (ii) a per-account fee (“Account Fee”).

In addition to the Program Fees referenced above, client accounts are charged additional fees that apply to the securities accounts maintained by clients. Cash balances in the Program are also included in the value of account assets used to calculate the management fees and other asset-based fees Commonwealth charges to PPS advisory accounts.

The account interest received will be the net of the gross fee paid by the Program Banks less the fees paid to the administering party, NFS, and Commonwealth. When the FFER is 1.00%, Commonwealth will receive 95 basis points (0.95%). As the FFER increases above 1.00%, most of the incremental economics will generally flow to you, as the Program shares 70.00% of the change in the underlying market interest rates as measured by the FFER with you, with the remaining 30.00% flowing to Commonwealth, establishing Commonwealth's Variable Fee. When the FFER declines below 1.00%, Commonwealth will absorb 100.00% of the variance in the fee, and you will continue to be paid the net remaining interest. Commonwealth's minimum Variable Fee rate applied is 15 basis points (0.15%) per account. Commonwealth reserves the right to temporarily reduce or waive this minimum account fee at any time. Commonwealth's Account Fee will be \$1.00 per account each month and applied when the average monthly FFER from the prior month exceeds 1.10%. Both of Commonwealth's fees are expected to be received directly from the proceeds paid by the participating Program Banks and not directly from your account, although in the event that the proceeds paid from the Program Banks are insufficient, we may charge your account directly to cover the fees. While your yield will be available on your account statement, these fees will not generally be seen on your statement unless there is a need to charge your account directly. Advisors do not receive any of the fees received by Commonwealth or NFS. Other than these stated fees, there will be no charges, fees, or commissions imposed on your account with respect to the Program.

The total ARSP economics are based on and, therefore, vary due to three primary factors: (i) the amount of cash balances in the Program, (ii) the number of accounts in the Program, and (iii) market interest rates, which are typically represented by the FFER. Commonwealth's compensation under the Program is not affected by the actual amounts held in the Deposit Accounts but will vary with the FFER. The Variable Fee rate will be applied to a fixed representation of cash balances, defined as 4.00% of total assets within accounts related to the ARSP Program under administration by Commonwealth. Amounts will vary, but in no event will Commonwealth's compensation be more than 250 basis points (2.50%) on an annualized basis across all Deposit Accounts.

Commonwealth can change the applicable fee schedule upon thirty (30) days' advance notice to you. The current FFER can be found at www.federalreserve.gov/monetarypolicy/openmarket.htm.

Applicable law governing retirement accounts, such as qualified plans under ERISA and individual retirement accounts under the Internal Revenue Code, necessitates that interest rates paid by the Program Banks for deposits in the Deposit Accounts, our fee, and other service fees were negotiated at arm's length, are believed to be fair and reasonable, and are designed to approximate the value for the services involved and in the context of clients' Eligible Assets.

Although it is anticipated that our fees under the Program will be covered by amounts paid by the Program Banks, and you direct NFS to collect such fees from the amounts collected from Program Banks, we reserve the right to withdraw (or direct NFS to withdraw) the monthly account fee, or a portion thereof, from your account in the unlikely event or to the extent that the amount received from the Program Banks for the period is less than our fee for the same period.

The revenue generated by us will vary compared to revenues generated by sweep options at other brokerage firms or possible core account investment vehicles that we have used in the past or may consider using in the future. In addition, we will make compensation payments to NFS, our clearing agent, for recordkeeping services with respect to amounts invested in the Program, which will be no more than 70 basis points (0.70%). NFS or the Program

administrator may, from time to time, temporarily reduce its fees during certain periods, such as when necessary to help ensure that the interest rates paid by the Program Banks during the period equal the applicable disclosed client rate for the period. Under such circumstances, NFS or the Program administrator, as the case may be, may recover any such reduced fees, subject to its targeted compensation rate, from future periods. NFS may receive more revenue with respect to amounts in the Program than with respect to other sweep products.

Clients should note that although the default option for cash in Commonwealth advisory accounts is generally these Core Sweep Programs, Clients have the right to seek higher yields in other available investment options.

Specific features and account eligibility of the CASP are further explained in the Disclosure Document provided to all Commonwealth brokerage clients. A current version of Commonwealth's CASP Disclosure Document is available at www.commonwealth.com/clients/media/BankSweepDisclosureDocument.pdf.

Money Market Accounts

For client assets awaiting reinvestment that are not eligible to invest in CASP, including Keogh plans, the Fidelity Government Money Market Fund (SPAXX) is the default money market fund used for accounts held at NFS. Clients may instruct their advisor to manually select a Money Class money fund rather than the default Fidelity Government Money Market Fund at any time.

Client Referrals and Directed Brokerage

As also discussed elsewhere in this Brochure, Commonwealth is dually registered as an investment adviser and a broker/dealer. Commonwealth, in its broker/dealer capacity, introduces its client transactions to NFS, Pershing, and Schwab for execution, clearance, and settlement. In selecting or recommending NFS, Pershing, and Schwab for execution, clearance, and settlement, Commonwealth does not consider whether it or a related person receives client referrals from the executing broker/dealer. NFS, Pershing, and Schwab provide custody and clearing of Commonwealth's client brokerage account assets, including PPS Program accounts. Substantially all of Commonwealth's PPS Program clients must establish a securities brokerage account with Commonwealth and execute securities transactions for PPS Program accounts through NFS. Not all investment advisers require their clients to direct brokerage to a particular broker/dealer or to the investment adviser's affiliated broker/dealer.

As noted in Item 4. Advisory Business and Item 5. Fees and Compensation, Commonwealth's business relationship with NFS provides Commonwealth considerable economic benefits that Commonwealth would not receive if it did not generally require PPS Program clients to use Commonwealth as broker/dealer and NFS for trade execution, clearance, and settlement. Commonwealth's business relationship with NFS provides that Commonwealth shall receive substantial monthly revenue-sharing payments from NFS based on client assets held by Commonwealth with NFS in non-Fidelity NTF funds that participate in Fidelity's NTF program, non-Fidelity TF funds that participate in Fidelity's TF program, and Fidelity Money Market Sweep portfolios. Although NTF funds do not assess transaction charges, most NTF funds have higher internal expenses than funds that do not participate in an NTF program. These higher internal fund expenses are assessed to investors who purchase or hold NTF funds.

Apart from Commonwealth's wrap fee programs, when Commonwealth effects securities transactions for a client's account, Commonwealth assesses certain transaction charges to offset the asset-based fees it pays to NFS and to generate additional revenue for Commonwealth.

In addition to the transaction charges described above, Commonwealth will charge a \$4 service (confirm) fee for all transactions except mutual fund exchanges, NTF funds, and periodic investment/systematic withdrawal transactions. If the client signs up for e-notification (e-delivery), the service fee will be waived. Commonwealth assesses confirmation fees to offset the asset-based fees it pays to its clearing broker/dealer and to generate additional revenue for Commonwealth.

In some cases, broker/dealers are compensated for utilizing their clearing firms' securities transaction and execution services. This industry practice is generally known as "payment for order flow." As a matter of policy, Commonwealth does not receive payment for order flow.

The investment advisory services provided by Commonwealth may cost the client more or less than purchasing similar services separately. Lower fees for comparable services may be available from other sources. Clients should consider whether the appointment of Commonwealth as the sole broker/dealer will result in certain costs or disadvantages to them as a result of possibly less favorable executions.

Item 13: Review of Accounts

Commonwealth home office Compliance and Operations principals, senior members of Commonwealth's Advanced Planning team, and/or designated Office of Supervisory Jurisdiction ("OSJ") branch managers periodically review client accounts and financial plans to identify situations that may warrant either a more detailed review or a specific action on behalf of an advisory client.

Commonwealth utilizes a series of surveillance, exception, trade, and other transaction reports, and collectively obtains and analyzes the results of periodic data requests, to help facilitate the ongoing review of Commonwealth's managed accounts. In addition, Commonwealth advisors provide continual and regular investment advice or investment supervisory services to clients, routinely review client portfolios, and are responsible for contacting clients at least annually.

There are various reports, data analytics, and supervisory controls utilized by Commonwealth to review accounts. Among some of the reports and data requests utilized by Commonwealth to conduct these reviews are the following:

Report	Review Frequency	Nature of Report
State Licensing Report	Weekly	To identify transactions for which the advisor or OSJ manager was not properly licensed in a state prior to transacting business
Conflict Trading	Daily	To identify potential violations of Commonwealth's Code of Ethics
Options Account Analysis	Quarterly	To identify accounts with a high volume of option trades
PPS Custom Activity Analysis	Quarterly	To conduct trading activity analysis on PPS accounts and advisors
PPS Out of Balance Analysis	Quarterly	To identify accounts out of balance from a client's stated objectives

Item 14: Client Referrals and Other Compensation

Other Compensation Received from Product Sponsors

Through our national network of advisors, Commonwealth offers access to a broad selection of securities products, including mutual funds, ETFs, variable insurance products, 529 college savings plans, direct participation programs, HSAs, donor-advised funds, and nontraded alternative investments. Some of the companies that advise or distribute these products ("Sponsor Companies") participate in activities that are designed to help facilitate the distribution of their products. These companies often pay the travel, meals, and lodging expenses for Commonwealth advisors to attend educational programs and due diligence meetings designed to help advisors be more knowledgeable about those companies' products, operations, and management. These companies also often provide other forms of compensation to Commonwealth advisors relating to, but not contingent upon, the sale and distribution of their products, including merchandise, gifts, prizes, and entertainment such as tickets to sporting events and leisure

activities, as well as payment or reimbursement for the costs of business development expenses, client seminars, client appreciation events, software, and marketing materials designed to help promote the advisor's business.

In addition to the support that Sponsor Companies provide directly to Commonwealth's advisors, Commonwealth receives additional compensation from certain mutual fund companies ("Core Partners") in the form of annual payments, typically paid in quarterly installments, directly from these companies. This compensation is in addition to the customary commissions, 12b-1 fees, distribution fees, and other fees that are paid to Commonwealth by these Core Partners and constitutes a conflict of interest. The annual payments are made from the Core Partner's or an affiliate's own assets and not from investor assets. No portion of the annual payments made by Core Partners to Commonwealth is paid from brokerage commissions generated by the purchases of any specific investment.

In exchange for the annual payments Commonwealth receives from its Core Partners, Commonwealth will provide a variety of benefits to these companies. These benefits include, but are not limited to, direct access to Commonwealth's senior leadership, research, and product support staff; invitations to Commonwealth-sponsored meetings and events, which include direct access to Commonwealth advisors; ability to post product marketing and educational materials to Commonwealth's internal web portal used by Commonwealth advisors; access to Commonwealth's proprietary investment models, research, and analysis; and contact information for Commonwealth advisors.

None of the annual payments received by Commonwealth from Core Partners are paid to or shared with any advisor who sells a Core Partner's products. Commonwealth advisors do not receive a greater or lesser commission or advisory fee for sales of these sponsors' products for which Commonwealth receives annual payments. Because Commonwealth's advisors receive no direct increase or change in compensation from selling a certain sponsor's products over those of another sponsor's products, we do not believe Commonwealth's receipt of these annual payments from its Core Partners presents a conflict of interest for a Commonwealth advisor to recommend one sponsor's products over another's.

The financial support, marketing support, participation in due diligence meetings and educational activities, and gifts and entertainment received by advisors that are paid for by Sponsor Companies do, however, create a conflict of interest for Commonwealth advisors who receive this compensation because they incentivize our advisors to focus more on or otherwise recommend or promote the products of those Sponsor Companies that provide this compensation to the advisor over those that do not. These activities are reviewed, and require approval, by a member of the Commonwealth Compliance department.

Additional information describing the support and annual payments provided by Core Partners to Commonwealth is provided on the Revenue Sharing Disclosure, which is available on Commonwealth's website at www.commonwealth.com/clients/revenue-sharing.aspx.

Investment Adviser/Asset Management Programs

Commonwealth and/or its advisors receive reimbursements, marketing and distribution allowances, business and client development, educational enhancement, due diligence fees, gifts and entertainment, and other compensation ("additional compensation") directly from third-party investment advisory program sponsors (collectively, "Program Sponsors") based on the amount of client deposits and/or client assets under management with the Program Sponsors. This additional compensation is provided to Commonwealth and/or the advisor as an incentive to promote the sale of the Program Sponsor's products or services.

In all cases, such reimbursements, marketing allowances, or other compensation will be paid to Commonwealth and/or the advisor from the Program Sponsor's own resources and not from client funds or assets. Program Sponsors may also opt to pay Commonwealth a quarterly fee based upon deposits or AUM and/or some combination thereof on an annual basis based upon certain allowable assets.

These payments to Commonwealth and/or its advisors present a conflict of interest because they provide a financial incentive for Commonwealth or its advisors to recommend clients use a particular Program

Sponsor that provides this additional compensation over other programs that do not provide this additional compensation. Clients are urged to read and consider the contents of this Brochure carefully (and the Brochures of any other Program Sponsors, as applicable) and to inquire about Commonwealth and their advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor. Further information about Commonwealth's and your advisor's sources of compensation and conflicts of interest is described in this Brochure.

Other Payments to Commonwealth Advisors

In addition to receiving asset-based fees in their capacity as an investment adviser or solicitor, Commonwealth advisors receive reimbursements or marketing allowances for marketing expenses and business development costs incurred by the advisor. In addition, advisors receive invitations to conferences and meetings that are sponsored by third-party firms that offer managed account or advisory programs or services to the advisor. Portfolio strategists, investment managers, and product manufacturers typically contribute to the cost of the conferences and meetings, are identified as a sponsor of the conference or meeting, and often have the opportunity to promote their products, programs, and services directly to the financial advisor. Additionally, the advisor's travel-related costs and expenses, meals, and entertainment are usually paid for or subsidized by the firms. These payments to Commonwealth advisors present a conflict of interest because they provide a financial incentive for advisors to recommend clients use a particular managed account program or advisory service that offers these payments and opportunities to the advisor over other managed account or advisory programs that do not offer such payments or opportunities to the advisor.

Clients are urged to read and consider the contents of this Brochure carefully (and the Brochures of any TPAM, as applicable) and to inquire about Commonwealth's and the advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor.

Commonwealth offers your advisor one or more forms of financial benefits based on your advisor's total AUM held at Commonwealth or in Commonwealth's own PPS Program accounts or financial assistance for transitioning from another firm to Commonwealth. The types of financial benefits that your advisor may receive from Commonwealth include, but may not be limited to, forgivable or unforgivable loans, enhanced payouts, and discounts or waivers on transaction, platform, and account fees; technology fees; research package fees; financial planning software fees; administrative fees; brokerage account fees; account transfer fees; licensing and insurance costs; and the cost of attending conferences and events. The enhanced payouts, discounts, and other forms of financial benefits that your advisor may have the opportunity to receive from Commonwealth provide a financial incentive for your advisor to select Commonwealth as broker/dealer for your accounts over other broker/dealers from which they may not receive similar financial benefits or to use certain Commonwealth PPS programs over other programs available through Commonwealth.

Clients are urged to read and consider the contents of this Brochure carefully and to inquire about Commonwealth's or their advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor. Further information about Commonwealth's and your advisor's sources of compensation and conflicts of interest is described in this Brochure.

Payments to Commonwealth

Consistent with prudent product approval practices, Commonwealth conducts or causes to be conducted a due diligence analysis of Sponsor Companies prior to making them available to the public through its advisors. Commonwealth receives due diligence fees, distribution allowances, and other payments from its Sponsor Companies. While the arrangements Commonwealth has with each Sponsor Company vary, certain Sponsor Companies pay Commonwealth additional compensation for marketing expenses, distribution allowances, due diligence, or other compensation of either up to 70 basis points (0.70%) annually on deposits or assets held at the Sponsor Company, or up to 200 basis points (2.00%) on the gross amount of each sale, depending on the product. These additional payments are paid to and retained

by Commonwealth, and none of these additional payments are paid to or shared with any Commonwealth advisor. Commonwealth advisors do not receive a greater or lesser commission for sales of these products from which Commonwealth receives revenue-sharing payments. Even though these payments are not shared with Commonwealth advisors, the receipt of these payments from Sponsor Companies by Commonwealth creates a conflict of interest for clients because Commonwealth may choose to make available to clients those Sponsor Companies that provide these payments to Commonwealth over those Sponsor Companies that do not make such payments to Commonwealth.

Commonwealth receives additional compensation from certain mutual fund companies—our Core Partners—in the form of annual payments, typically paid in quarterly installments, directly from these companies. This compensation is in addition to the customary commissions, 12b-1 fees, distribution fees, and other fees that are paid to Commonwealth by these Core Partners. In exchange for the annual payments Commonwealth receives from its Core Partners, Commonwealth provides a variety of benefits to these companies. These benefits include, but are not limited to, direct access to Commonwealth's senior leadership, research, and product support staff; invitations to Commonwealth-sponsored meetings and events, which include direct access to Commonwealth advisors; ability to post product marketing and educational materials to Commonwealth's internal web portal used by Commonwealth advisors; access to Commonwealth's proprietary investment models, research, and analysis; and direct contact information for Commonwealth's advisors. The existence of the additional benefits provided by Commonwealth to Core Partners, in exchange for the annual payments these Core Partners provide to Commonwealth, creates a conflict of interest for clients because Commonwealth or your financial advisor is more likely to recommend or promote the products of Core Partners that make such payments to Commonwealth over those product sponsors that do not.

As we note in this Brochure, Commonwealth uses NFS as its clearing and custody firm for substantially all of Commonwealth's PPS managed accounts. As also discussed in Item 5. Fees and Compensation and Item 12. Brokerage Practices, Commonwealth's business relationship with NFS provides Commonwealth considerable revenue-sharing benefits. In particular, Commonwealth receives substantial monthly revenue-sharing payments from NFS based on client assets held by Commonwealth with NFS in non-Fidelity NTF funds that participate in Fidelity's NTF program and non-Fidelity TF funds that participate in Fidelity's TF program.

Not all investment advisers that are dually registered as broker/dealers or that have affiliated broker/dealers require their clients to use the adviser's related broker/dealer to execute transactions. Although Commonwealth is often able to obtain price improvement through its trade executions with NFS and Pershing that it believes is beneficial to its clients, Commonwealth's clearing relationship with NFS in particular provides Commonwealth's broker/dealer with substantial economic benefits by using itself as the broker/dealer and NFS as the clearing firm for its PPS Program accounts rather than an unaffiliated broker/dealer or other clearing broker/dealer.

For example, Commonwealth assesses transaction charges to offset the asset-based fees it pays to NFS and to generate additional revenue for Commonwealth. Additionally, Commonwealth receives continuous revenue-sharing payments from NFS that are derived from certain types of positions and assets in client accounts held at NFS. For example, NFS credits Commonwealth a substantial portion of margin interest income that NFS receives from margin account balances. Commonwealth also maintains a Core Account Sweep Program with NFS. This program creates substantial financial benefits for Commonwealth as discussed in Item 12 of this Brochure. This additional compensation received by Commonwealth in its broker/dealer capacity creates a significant conflict of interest with Commonwealth's clients because Commonwealth has a substantial economic incentive to use NFS as its clearing firm for trade execution and custody over other firms that do not or would not revenue share with Commonwealth. Additionally, by using itself as the broker/dealer for its PPS Program accounts, Commonwealth may be unable to achieve the most favorable execution for client transactions, which may cost clients more money. Clients are urged to read and consider the contents of this Brochure carefully and to inquire about Commonwealth's and the advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor.

Commonwealth's assessment of transaction charges for securities transactions in the PPS Custom (Transaction Fee) Program creates a conflict of interest because Commonwealth benefits from the additional revenue generated by the trading activities of its advisors and clients.

Additionally, NFS offers an NTF program composed of no-load mutual funds. Participating mutual fund sponsors pay a fee to NFS to participate in the NTF program, and a substantial portion of this fee is shared with Commonwealth. None of these additional payments are paid to any advisors who sell NTF funds. NTF mutual funds may be purchased within an investment advisory account at no charge to the client. Clients, however, should be aware that funds available through the NTF program often contain higher internal expenses than mutual funds that do not participate in the NTF program. Commonwealth's receipt of a substantial portion of the fees associated with the NTF program creates a conflict of interest because Commonwealth has an incentive to make available or to recommend the various NTF classes of mutual funds that provide this additional compensation to Commonwealth over other mutual fund share classes of the same fund that do not make such payments to NFS to share with Commonwealth.

Although NTF funds do not assess transaction charges, most NTF funds have higher internal expenses than funds that do not participate in an NTF program. These higher internal fund expenses are assessed to investors who purchase or hold NTF funds. Depending upon the frequency of trading and hold periods, NTF funds may cost you more, or may cost Commonwealth or your Commonwealth advisor less, than mutual funds that assess transaction charges but have lower internal expenses. In addition, the higher internal expenses charged to clients who hold NTF funds will adversely affect the long-term performance of their account when compared to share classes of the same fund that assess lower internal expenses.

For those Commonwealth advisory programs that assess transaction charges to clients or to Commonwealth or the advisor, a conflict of interest exists because Commonwealth and your advisor have a financial incentive to recommend or select NTF funds that do not assess transaction charges but cost you more in internal expenses than funds that do assess transaction charges but cost you less in internal expenses. In addition to reading this Brochure carefully, clients are urged to inquire whether lower-cost share classes are available and/or appropriate for their account in consideration of their expected investment holding periods, amounts invested, and anticipated trading frequency. Further information regarding fees and charges assessed by a mutual fund is available in the appropriate mutual fund prospectus.

Core Account Sweep Programs

Commonwealth offers two core account sweep programs ("Programs"). These Programs are the core account investment vehicles used to hold your cash balances while awaiting reinvestment for eligible accounts. The two Programs, the Bank Deposit Sweep Program ("BDSP") and the Advisory Retirement Sweep Program ("ARSP"), are available for different types of client accounts. The BDSP is the core account investment vehicle for eligible brokerage accounts. The ARSP is the core account investment vehicle for eligible advisory individual retirement accounts. The cash balance in your eligible Commonwealth brokerage accounts will be deposited automatically or "swept" into interest-bearing FDIC insurance-eligible Program deposit accounts ("Deposit Accounts") at one or more FDIC-insured financial institutions (each a "Program Bank" or collectively, "Program Banks").

The Programs create substantial financial benefits for Commonwealth and NFS. Please see Item 12 of this Brochure for a detailed description of the compensation and associated conflicts that will apply to clients who participate in the Programs.

Nonpurpose Loan Program

Commonwealth offers a nonpurpose loan ("NPL") program that enables clients to collateralize certain accounts to obtain secured loans through NFS or banking institutions that participate in the program. Commonwealth receives third-party compensation from program participants based on the amount of the outstanding loan. This compensation to Commonwealth varies; therefore, Commonwealth can earn more or less depending on the program participant selected by the client. This compensation is a conflict of interest to Commonwealth since Commonwealth has a financial incentive for the client to

select a program participant that pays Commonwealth more. Commonwealth does not share this compensation with its advisors; therefore, an advisor does not have a financial incentive if one program participant is selected over another. Clients are not required to use the program participants in Commonwealth's NPL program and can work directly with other banks to negotiate loan terms or obtain other financing arrangements.

Commonwealth as Solicitor

Commonwealth and your advisor may serve as solicitors for a variety of third-party investment advisers with respect to some or all of your assets. In such cases, Commonwealth and your advisor are compensated by these third-party investment advisers for referring your advisory business to them. This compensation generally takes the form of the third-party investment adviser sharing with Commonwealth and the advisor a percentage of the advisory fee the third-party investment adviser charges you. In some cases, these investment advisers will increase the advisory fee you would otherwise pay to the investment adviser if you engaged them directly. You will receive a written disclosure document that includes, among other things, a description of the compensation paid or to be paid to Commonwealth and your advisor as a solicitor and the amount, if any, that you will be charged in addition to the advisory fee you would have otherwise paid to the investment adviser. Commonwealth and your advisor have a conflict of interest to refer your advisory business to those third-party investment advisers that pay referral fees to Commonwealth and your advisor rather than to those investment advisers that do not make such payments or to those investment advisers that pay higher referral fees to Commonwealth and your advisor rather than to those who compensate Commonwealth and your advisor lesser referral fees.

In some cases, Commonwealth and/or your Commonwealth advisor receive training and educational support, marketing support, enhanced service, invitations to attend conferences or meetings, or some other economic benefit that is in addition to our receipt of the referral fee discussed above from a third-party investment adviser to whom we have referred your advisory business. This support or other economic benefit will be paid from the third-party investment adviser's own funds and not from client funds. Commonwealth and your advisor have a conflict of interest to favor referring your advisory business to those third-party investment advisers that provide such additional compensation over those investment advisers that do not provide such additional compensation.

Commonwealth's Use of Solicitors

The Commonwealth Alliance Program ("CAP") is a referral program designed to compensate outside professionals or firms, such as attorneys, accountants, or other broker/dealers and investment advisers, for referring your advisory business to Commonwealth and your advisor. These professionals or firms are known as "solicitors." If your advisory account is referred by a solicitor to Commonwealth or your advisor, Commonwealth and your advisor will generally pay a portion of the advisory fee you pay us to the solicitor, typically for as long as you maintain an advisory relationship with us, to compensate the solicitor for the referral. Commonwealth will not charge a client who is referred to Commonwealth by a solicitor any amount for the cost of obtaining the client that is in addition to the fee normally charged by Commonwealth for its investment advisory services. The amount of compensation the solicitor receives, however, may be more than what the solicitor would receive if the client participated in our other programs or paid separately for investment advice, brokerage, and other services. In addition, when Commonwealth advisors refer potential clients to the solicitor for professional services, the solicitor has an incentive to refer more clients to Commonwealth and its advisors. The solicitor, therefore, has a financial incentive to recommend one or more of Commonwealth's wrap fee programs over other programs or services, including nonadvisory programs and services, that may be available to a client for which the solicitor would not receive referral compensation or referrals from Commonwealth advisors. Commonwealth also permits the use of certain approved lead-generation programs. In these programs, the advisor pays fees to the lead generation program based on the agreement signed between the lead generation program provider and the advisor. Some advisors and staff members associated with the Firm refer clients to other advisors of Commonwealth. This program, known as the Strategic Alliance Program (SAP), operates under substantially similar requirements as CAP. Commonwealth also maintains networking arrangements with certain financial institutions (generally banks and credit unions) who also refer clients to various Commonwealth advisors. In exchange for the referrals, those institutions receive a portion of the advisory fees charged by Commonwealth and the advisor.

All solicitation arrangements are disclosed to clients at the time of the solicitation via execution of a Solicitor Disclosure Statement that outlines the nature and amount of the compensation we pay the solicitor and whether the solicitor is affiliated with or related to Commonwealth. Solicitors are required to provide prospective clients with a current copy of Commonwealth's most current Form ADV Part 2A Brochure no later than the date on which the client enters into an advisory relationship with Commonwealth and the advisor.

Item 15: Custody

Custody Services

Commonwealth maintains a primary clearing relationship for the execution of client transactions with NFS as the account custodian. Commonwealth maintains a secondary clearing relationships for the execution of client transactions with Pershing and Schwab as the account custodians. In some cases, Commonwealth will approve the use of other account custodians for its PPS accounts. Substantially all of Commonwealth's PPS advisory clients must select Commonwealth as the broker/dealer of record and NFS as the clearing firm for their PPS managed accounts. The name and address of the account custodian used for the account will be identified in the respective PPS managed account client agreement.

Clients who establish a managed account with Commonwealth as the broker/dealer of record will receive custodial account statements directly from the respective custodian that holds those assets, such as NFS, Pershing, or a direct product sponsor. Clients are urged to carefully review the statements they receive from the account custodian, and, if applicable, from Commonwealth or their advisor, and should promptly report material discrepancies to Commonwealth directly at 800.237.0081.

Performance Reporting

Commonwealth clients may also receive portfolio summary or performance reporting for their Commonwealth managed accounts from Commonwealth or their advisor that are in addition to the account statements clients receive directly from the respective account custodian. Commonwealth urges you to compare the account statements you receive from your account custodian with any account summary statements or reports you receive from us or your advisor. If you believe there are material discrepancies between your custodial statement and the summary statements or reports you receive from Commonwealth or your advisor, please call Commonwealth directly at 800.237.0081.

Item 16: Investment Discretion

General

Commonwealth renders investment advice to the vast majority of its managed account clients on a discretionary basis, pursuant to written authorization granted by the client to Commonwealth and your advisor in a Commonwealth client agreement. This authorization grants the advisor or Commonwealth discretionary authority to determine appropriate account investments based on the client's financial circumstances, investment objectives, risk tolerance, prevailing market conditions, and other factors, and to receive product prospectuses on the client's behalf as the client's agent.

This authorization grants to Commonwealth and your advisor the discretion to buy, sell, exchange, convert, or otherwise trade in securities and/or insurance products that are approved by Commonwealth, and to execute orders for such securities and/or insurance products with or through any distributor, issuer, or broker/dealer as Commonwealth or your advisor may select. Your advisor may determine which products to purchase or sell for your managed account, as well as when to purchase or sell such products, and the prices to be paid. Neither Commonwealth nor your advisor is granted authority to take possession of your assets or direct the delivery of your assets to anywhere other than your address of record without your written consent.

Under the Retirement Plan Consulting Program, Commonwealth may serve as an investment manager, as defined in section 3(38) of ERISA, pursuant to written authorization granted by the client to Commonwealth

or your advisor in a Retirement Plan Consulting Agreement. Neither Commonwealth nor your advisor is granted any authority to take custody or possession of any plan assets.

Level of Authority

Clients may request reasonable restrictions on their managed account, including, but not limited to, the type, nature, or specific names of securities to be bought, sold, or held in their managed account, as well as the type, nature, or specific names of securities that may not be bought, sold, or held in their managed account. Clients generally grant Commonwealth and their advisor discretionary trading authority over their PPS Program accounts. If not specifically requested otherwise by the client, discretionary authority will be established at the time the account is first opened. Commonwealth's PPS Custom Program does, however, permit the client to choose to have Commonwealth and the advisor provide investment advice and recommendations to the client on a nondiscretionary basis. Clients who wish to receive advice with respect to their PPS Custom managed account on a nondiscretionary basis must execute an amendment to the PPS Custom Client Agreement to modify the agreement to be nondiscretionary. Clients should request a copy of the nondiscretionary amendment form from their advisor if they desire to exercise this option.

Miscellaneous Authority

As a matter of firm policy, neither Commonwealth nor its advisors have or will accept the authority to file class action claims on behalf of clients. This policy reflects Commonwealth's recognition that it does not have the requisite expertise to advise clients about participating in class actions. Commonwealth and its advisors have no obligation to determine if securities held by the client are subject to a pending or resolved class action settlement or verdict. Commonwealth and its advisors also have no duty to evaluate a client's eligibility or to submit a claim to participate in the proceeds of a securities class action settlement or verdict. Furthermore, Commonwealth and its advisors have no obligation or responsibility to initiate litigation to recover damages on behalf of clients who may have been injured because of actions, misconduct, or negligence by corporate management of issuers whose securities are held by clients. The decision to participate in a class action or to sign a release of claims when submitting a proof of claim may involve the exercise of legal judgment, which is beyond the scope of services provided to clients by Commonwealth or your advisor. In all cases, clients retain the responsibility for evaluating whether it is prudent to join a class action or to opt out.

Item 17: Voting Client Securities

General Policy

As a matter of firm policy, and in accordance with this Brochure and our advisory client agreements, neither Commonwealth nor its advisors have or will accept the authority to vote proxies on behalf of advisory clients or ERISA clients in any situation where Commonwealth or the adviser acts as investment adviser to the client. Commonwealth or its advisors may, but are not obligated to, provide advice to clients regarding the clients' voting of proxies. In all cases, clients must either retain the responsibility for receiving and voting proxies for any and all securities maintained in their managed accounts, or they must appoint a third-party investment adviser or other person who is not associated with Commonwealth to vote proxies for their managed accounts.

In the event the advisor chooses to provide advice to clients designed to assist them in deciding how to vote their proxies, the advisor has a fiduciary duty to disclose to the client any material conflicts of interest the advisor may have with respect to such advice. In all cases, Commonwealth or the advisor will send, or will cause to be sent, all such proxy and legal proceedings information and documents it receives to the client or a third party authorized and directed by the client to receive such information and documents on the client's behalf, so that the client or a third-party appointed by the client may take whatever action the client deems advisable under the circumstances.

PPS Direct and TPAM Programs

In situations when the client uses a PPS Direct or unaffiliated TPAM Program to manage his or her portfolio, where permissible, the client may grant the program's designated third-party asset manager discretion to vote proxies with respect to any securities purchased or held in the account; to execute waivers, consents,

and other instruments with respect to such securities; and to consent to any plan of reorganization, merger, combination, consolidations, liquidation, or similar plan with reference to such securities.

In such cases, all proxy and legal proceedings information and documents received by Commonwealth or the advisor relating to the securities within PPS Direct or TPAM Program accounts must be forwarded to the designated asset manager as the client's agent and attorney-in-fact with respect to proxy voting.

If the client has not appointed a third-party asset manager as the client's agent and attorney-in-fact with respect to proxy voting, such proxies must be provided directly to the client who shall have the exclusive responsibility to take whatever action the client deems appropriate.

Item 18: Financial Information

Some advisors who provide Wealth Management Consulting or Retirement Plan Consulting services to clients may require prepayment of more than \$1,200 in fees six (6) months or more in advance. Commonwealth also maintains custody of certain client assets and in certain instances, as defined in SEC Rule 206(4)-2. Additionally, pursuant to the trading authorization granted by Commonwealth managed account clients to Commonwealth and their advisor, Commonwealth has discretionary trading authority over the funds and securities of clients.

Commonwealth neither has a financial commitment that would impair its ability to meet its contractual and fiduciary commitments to clients, nor has Commonwealth been the subject of a bankruptcy proceeding.

This Wrap Fee Program Brochure provides information about the qualifications and business practices of Commonwealth Financial Network® (“Commonwealth”). If you have any questions about the contents of this Brochure, please call 800.237.0081 or email FormADVPart2@commonwealth.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or any state securities authority.

Additional information about Commonwealth is available on the SEC’s website at www.adviserinfo.sec.gov.

Commonwealth is a Registered Investment Adviser. This registration does not imply any level of skill or training.

Item 2: Material Changes

The following is a summary of the material changes made to this Brochure since the last annual update filed on March 27, 2021:

- Commonwealth has updated Item 9. Additional Information to reflect changes in the way Commonwealth compensates and is compensated by National Financial Services (“NFS”) and how it assesses transaction charges and account fees to clients (changes are effective as of May 31, 2022).
- Commonwealth is no longer offering the Preferred Portfolio Services® (“PPS”) Direct Loring Ward Model Strategies Program; the program is closed to new investors.

You may request a copy of our current Brochure at any time, without charge, by calling at 800.251.0080, option 3, or emailing FormADVPart2@commonwealth.com.

Additional information about Commonwealth is available via the SEC’s Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov. The SEC’s website also provides information about any persons affiliated with Commonwealth who are registered, or required to be registered, as Investment Adviser Representatives of Commonwealth.

Item 4: Services, Fees, and Compensation

PPS Direct SMA/UMA and Strategist Program Services, Fees, and Compensation

The PPS Direct SMA/UMA and Strategist Program provides clients access to an investment platform that facilitates ownership of individual securities managed at the discretion of one or more money managers (“Money Managers”). Certain services in the PPS Direct SMA/UMA and Strategist Program are provided by Investnet Asset Management, Inc. (“Investnet”). Investnet is a Registered Investment Adviser and has been chosen by Commonwealth to provide access to a wide range of Money Managers within the Separately Managed Account Program (“SMA Program”), the Unified Managed Account Program (“UMA Program”), and the Third-Party Fund Strategist program (“Strategist Program”).

Additionally, Investnet acts as the “overlay manager” in the UMA Program, which means that Investnet may, at its discretion, place trades within client accounts based on the trading instructions provided by the selected Money Managers. Clients who participate in the PPS Direct SMA/UMA and Strategist Program are required to grant full discretionary authorization to Commonwealth and Investnet to hire and fire portfolio managers and to invest, reinvest, sell, exchange, and otherwise deal with client assets in their discretion, including, without limitation, the authority to select, allocate, and reallocate the client assets in the client’s accounts to different Money Managers and to delegate discretion to the respective Money Managers. For the SMA and UMA programs, Commonwealth and Investnet generally will only use this discretionary authorization to:

- Replace investment vehicles, including Money Managers, when it determines such a change is necessary
- Rebalance a client’s account in accordance with the investment strategy chosen by the client
- Liquidate sufficient assets to pay the program and advisor fee, as well as other fees and charges associated with the account, when necessary

The SMA Program enables Commonwealth, as sponsor of the program, to leverage Investnet’s established relationships with Money Managers and to make the services of Money Managers available to the advisor’s clients. Investnet provides SMA Program clients with the ability to access the money management services of one or more Money Managers, either directly using a separately managed account for each Money Manager or indirectly using a single managed account traded by Investnet based on the instructions of the relevant Money Manager. The advisor will help their clients select one or more Money Managers and investment strategies for use within the SMA Program. If the client chooses to utilize the SMA Program, the client will establish a separate brokerage account for each Money Manager or strategy selected.

A portfolio tailored for an SMA Program account may consist of any combination of the following types of securities that are managed by one or more Money Managers, as chosen by the client:

- Individual equity and fixed income securities
- Mutual funds
- Exchange-traded funds (“ETFs”)

The Strategist Program enables Commonwealth to leverage Investnet’s established relationships with various third-party Money Managers that provide asset allocation portfolios for investments in mutual funds and ETFs. Investnet will manage the asset allocation portfolio on a discretionary basis based on the investment recommendations of the Money Manager(s) selected by the client. If the client chooses to utilize the Strategist Program, the client will establish a separate brokerage account for each strategist or strategy selected. For each Money Manager, Investnet provides overlay management of the portfolios, whereby Investnet performs model management, administrative, and/or trading implementation duties pursuant to the direction of the Money Manager.

A portfolio tailored for a Strategist Program account may consist of any combination of the following types of securities that are managed by one or more Money Managers, as chosen by the client:

- ETFs
- Mutual funds

The UMA Program enables the advisor to construct a single portfolio by selecting specific, underlying investment vehicles within asset allocation models defined by Commonwealth. The UMA Program offers clients an asset management account in which Commonwealth's advisors, in their capacity as Investment Adviser Representatives of Commonwealth, are responsible for selecting the specific, underlying investment vehicles in the appropriate model to meet their client's needs. Commonwealth's Asset Management group determines the target asset mix, and Envestnet provides overlay management with respect to the client's account.

The UMA Program may be used by clients in combination with the SMA Program described above. If the client selects the UMA Program, the client will establish one brokerage account in which multiple Money Managers or strategies will be implemented.

A portfolio tailored for a UMA Program account may consist of any combination of the following types of securities that are managed by one or more Money Managers, as chosen by the client:

- Individual equity and fixed income securities
- Mutual funds
- ETFs

The PPS Direct SMA/UMA and Strategist Program will be offered to interested clients by Commonwealth's advisors. Through consultation with the client, the advisor will obtain necessary financial data from the client to assist the client in determining the appropriateness of the account, and to help the client select one or more Money Managers or investment strategies based on the client's stated goals and objectives. The client will have the opportunity to meet with his or her advisor periodically to review the assets in the account. At any time, subject to Envestnet's, the Money Manager's, or Commonwealth's judgment, specific investments will periodically be reallocated within the client's account to reestablish the targeted percentages of the assets and the appropriate investment strategy. This reallocation could be based on market conditions, specific client circumstances, or other factors that suggest reallocation may be appropriate. The client will be responsible for all tax consequences resulting from any account rebalancing or reallocation initiated by the client, Envestnet, Commonwealth, or a Money Manager.

Clients participating in the PPS Direct SMA/UMA and Strategist Program will pay an annual fee that consists of a combination of an advisor fee and a program fee. In the event the combination of the advisor fee and the program fee for a particular money manager and investment strategy exceeds 3.00%, the advisor fee will be reduced such that the annual fee will not exceed 3.00%. The program fee comprises a platform fee, a sponsor fee, a money manager fee, and custody and clearing charges and will vary based upon the selected money manager and investment strategy. Commonwealth retains the sponsor fee portion of the program fee with respect to SMA and UMA Program accounts. Commonwealth retains a portion of the program fee with respect to Strategist Program accounts, a portion of which Commonwealth uses to offset custody and clearing costs. The advisor fee is negotiated between the client and the advisor, a portion of which is retained by Commonwealth.

The maximum allowable annual advisor fee in the PPS Direct SMA/UMA and Strategist Program is as follows:

Account Value	Maximum Advisor Fee
Up to \$250,000	2.21%
Next \$250,000–\$500,000	2.25%
Next \$500,000–\$1,000,000	2.27%
Next \$1,000,000–\$2,000,000	2.29%
Next \$2,000,000–\$5,000,000	2.31%
Next \$5,000,000 or more	2.33%

The maximum annual program fee in the PPS Direct SMA/UMA and Strategist Program is as follows:

Account Value	Maximum Program Fee
Up to \$250,000	1.14%
Next \$250,000–\$500,000	1.04%
Next \$500,000–\$1,000,000	1.00%
Next \$1,000,000–\$2,000,000	0.99%
Next \$2,000,000–\$5,000,000	0.96%
Next \$5,000,000– \$10,000,000	0.92%
Next \$10,000,000– \$20,000,000	0.865%
Next \$20,000,000 or more	0.835%

Money Manager strategies that hold numerous positions have historically experienced high portfolio turnover or frequent rebalancing and may carry higher custody and clearing costs. The total annual account fee will be calculated by applying the annual fee schedule for the pertinent category of program assets, as stated in the Statement of Investment Selection portion of the Envestnet Program Terms and Conditions, and is payable in advance and computed as one-quarter of the total annual account fee based on the balance of the account on the last business day of the previous calendar quarter. The initial quarterly fee will be prorated as more fully described in the Terms and Conditions between the client, Envestnet, and Commonwealth. Other methods of fee calculation may be possible, depending on the client's circumstances and on the account size.

In the event a Money Manager ("Manager") through the PPS Direct SMA/UMA Program elects to utilize other brokers or dealers to effect a transaction in a security (commonly referred to as "stepping out" a trade), brokerage commissions and other charges for such transactions are generally charged to the client by the executing broker or dealer, whereas the wrap fee assessed by Commonwealth covers the cost of brokerage commissions on transactions effected through Commonwealth. Clients in the PPS Direct SMA/UMA Program should be aware that, in cases where a Manager engages in step-out trades, the executing broker or dealer may assess a commission or other charge for having executed the transaction, which will be in addition to the wrap fee assessed by Commonwealth. In such cases, the net purchase or sale price reflected on trade confirmations and brokerage statements on such trades will include the cost of brokerage commissions or dealer markups or markdowns charged by the executing broker and paid for by the client. Due to the additional costs incurred by clients when Managers engage in step-out trades, the Managers that elect to engage in step-out trades will generally cost clients more than those Managers that do not engage in step-out trades. Some Managers have historically directed most, if not all, of their program trades to outside broker/dealers.

In the selection of brokers or dealers to effect transactions, the Manager must, as part of its best-execution obligations, consider all relevant factors, including, but not necessarily limited to, the value of research services, speed and efficiency, execution capability, confidentiality, commission rates, and responsiveness of the executing broker or dealer. The Manager may select brokers or dealers that

provide the Manager research or other transaction-related services and may cause the client to pay such brokers or dealers commissions or other transaction-related fees in excess of those that other brokers or dealers may have charged, including Commonwealth. Such research and other services may be used for the benefit of the Manager's accounts as and where permitted by rule or regulation. Managers that specialize in fixed income, international, small-cap, or ETP disciplines may be more likely to trade away due to market conditions, liquidity, exchange availability, or other factors they consider relevant.

Clients should understand that Commonwealth does not evaluate whether a Manager is meeting its best-execution obligations to clients when trading away, as it is not a party to such transactions and is not in a position to negotiate the price or transaction-related charge(s) between the Manager and the executing broker or dealer.

Clients participating in the PPS Direct SMA/UMA Program should review the Manager's Form ADV Disclosure Brochure carefully prior to deciding to do business with any particular Manager. Among other things, the Manager's Brochure must disclose the Manager's conflicts and various sources of compensation, as well as those costs incurred by clients that may result from engaging in step-out trades, among other things. Clients should also discuss the use or intended use of any particular Manager with their advisor, including the Manager's trading practices and the costs that may be borne by the client should he or she choose to participate in the PPS Direct SMA/UMA Program.

Participating in the PPS Direct SMA/UMA and Strategist Program may cost clients more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Managers selected
- Amount of trading effected by the subadvisor or Money Manager
- Actual costs of such services if purchased separately
- Transaction costs, including the additional costs of step-out trading

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Direct SMA/UMA and Strategist Program, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Direct SMA/UMA and Strategist Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Other charges that may be required by law
- Brokerage account fees and charges

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Direct Russell Model Strategies Program Services, Fees, and Compensation

Commonwealth has an arrangement with Russell Funds Distributors, Inc. (“Russell”), a registered broker/dealer and the principal underwriter for the Russell Investment Company, an open-end registered investment company. Commonwealth makes the Russell Model Strategies Program available to clients through a series of model strategies (“Model Strategies”) provided to Commonwealth by Russell that include varying percentages of equity and debt no-transaction-fee (“NTF”) and institutional no-transaction-fee (“iNTF”) funds with degrees of risk and potential return. Hereinafter, unless otherwise noted, NTF and iNTF mutual funds shall be referred to as NTF, NTF funds, or NTF program. Russell will monitor and make changes to the Model Strategies based on its individual investment analysis and asset allocation discipline and will communicate any changes in strategies to Commonwealth. Commonwealth will then manage the funds within the Model Strategies using one of five different Russell asset allocation strategies: Conservative, Moderate, Balanced, Growth, and Aggressive.

Based on the information provided to Commonwealth’s advisor by the client, the advisor will assist the client in determining the appropriateness of the Russell Program and the available Model Strategies in establishing an asset allocation program for the client. The advisor will explain the Russell Program and Model Strategies that are available to the client, as well as explain the rebalancing and reallocation guidelines used in the management of the Model Strategies. After that, Commonwealth will direct the allocation and rebalancing of the client’s PPS Direct Russell Model Strategies Program account and chosen Model Strategies in line with the asset allocation policies and strategies provided to Commonwealth by Russell.

Clients participating in the PPS Direct Russell Model Strategies Program will pay an annual fee that consists of a combination of an advisor fee and a program fee. The program fee is retained by Commonwealth, a portion of which Commonwealth uses to offset custody and clearing costs. The advisor fee is negotiated between the client and the advisor, a portion of which is retained by Commonwealth.

The maximum allowable annual advisor fee in the PPS Direct Russell Model Strategies Program is as follows:

Account Value	Maximum Advisor Fee
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum annual program fee in the PPS Direct Russell Model Strategies Program is as follows:

Account Value	Maximum Program Fee ¹
First \$250,000	0.25%
Next \$250,000	0.20%
Next \$500,000	0.15%
Next \$1,000,000 or more	0.10%

¹The maximum annual program fee and other costs may apply upon termination. Commonwealth reserves the right to charge a minimum annual program fee of \$35 (minimum quarterly fee of \$8.75), which may exceed the maximum annual program fee by percentage described above based on the size of the account.

Clients participating in the PPS Direct Russell Model Strategies Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Managers selected

- Amount of trading effected by the TPAM
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Direct Russell Model Strategies Program, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Direct Russell Model Strategies Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Other charges that may be required by law
- Brokerage account fees and charges

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Direct American Funds Model Portfolios Program Services, Fees, and Compensation

Commonwealth has an arrangement with American Funds. Commonwealth makes the PPS Direct American Funds Model Portfolios Program available to clients through a series of model strategies ("Model Strategies") provided to Commonwealth by American Funds. These Model Strategies include a variety of structured, long-term, globally diversified portfolios constructed primarily of mutual funds with varying degrees of risk and potential return. American Funds will monitor and make changes to the Model Strategies based on its individual investment analysis and asset allocation discipline and will communicate any changes in strategies to Commonwealth. Commonwealth will then manage the funds within the Model Strategies as selected by the client.

Based on the information provided to Commonwealth's advisor by the client, the advisor will assist the client in determining the appropriateness of the PPS Direct American Funds Model Portfolios Program and the available Model Strategies in establishing an asset allocation program for the client. The advisor will explain the PPS Direct American Funds Model Portfolios Program and Model Strategies that are available to the client, as well as explain the rebalancing and reallocation guidelines used in the management of the Model Strategies. After that, Commonwealth will direct the allocation and rebalancing of the client's PPS Direct American Funds Model Portfolios Program account and chosen Model Strategies in line with the asset allocation policies and strategies provided to Commonwealth by American Funds.

Clients participating in the PPS Direct American Funds Model Portfolios Program will pay an annual fee that consists of a combination of an advisor fee and a program fee. The program fee is retained by Commonwealth, a portion of which Commonwealth uses to offset custody and clearing costs. The advisor fee is negotiated between the client and the advisor, a portion of which is retained by Commonwealth.

The maximum allowable annual advisor fee in the PPS Direct American Funds Model Portfolios Program is as follows:

Account Value	Maximum Advisor Fee
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum annual program fee in the PPS Direct American Funds Model Portfolios Program is as follows:

Account Value	Maximum Program Fee¹
Up to \$250,000	0.25%
Next \$250,000	0.20%
Next \$500,000	0.15%
Next \$1,000,000 or more	0.10%

¹The minimum annual program fee is \$35 (\$8.75 quarterly), which may exceed the maximum annual program fee percentage based on account size.

Clients participating in the PPS Direct American Funds Model Portfolios Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Managers selected
- Amount of trading
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, custody and clearing services, and client-related services offered through the PPS Direct American Funds Model Portfolios Program, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Direct American Funds Model Portfolios Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Other charges that may be required by law
- Brokerage account fees and charges

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as

well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Direct BlackRock ETF Managed Portfolio Series Program Services, Fees, and Compensation

Commonwealth has an arrangement with BlackRock Investment Management, LLC. Commonwealth makes the PPS Direct BlackRock ETF Managed Portfolio Series Program available to clients through a series of model strategies (“Model Strategies”) provided to Commonwealth by BlackRock. These Model Strategies include a variety of structured, long-term, globally diversified portfolios constructed primarily of ETFs with varying degrees of risk and potential return. BlackRock will monitor and make changes to the Model Strategies based on its individual investment analysis and asset allocation discipline and will communicate any changes in strategies to Commonwealth. Commonwealth will then manage the funds within the Model Strategies as selected by the client.

Based on the information provided to Commonwealth’s advisor by the client, the advisor will assist the client in determining the appropriateness of the PPS Direct BlackRock ETF Managed Portfolio Series Program and the available Model Strategies in establishing an asset allocation program for the client. The advisor will explain the PPS Direct BlackRock ETF Managed Portfolio Series Program and Model Strategies that are available to the client, as well as explain the rebalancing and reallocation guidelines used in the management of the Model Strategies. After that, Commonwealth will direct the allocation and rebalancing of the client’s PPS Direct BlackRock ETF Managed Portfolio Series Program account and chosen Model Strategies in line with the asset allocation policies and strategies provided to Commonwealth by BlackRock.

Clients participating in the PPS Direct BlackRock ETF Managed Portfolio Series Program will pay an annual fee that consists of a combination of an advisor fee and a program fee. The program fee is retained by Commonwealth, a portion of which Commonwealth uses to offset custody and clearing costs. The advisor fee is negotiable between the client and the advisor, a portion of which is retained by Commonwealth.

The maximum allowable annual advisor fee in the PPS Direct BlackRock ETF Managed Portfolio Series Program is as follows and is negotiable:

Account Value	Maximum Advisor Fee
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum annual program fee in the PPS Direct BlackRock ETF Managed Portfolio Series Program is as follows:

Account Value	Maximum Program Fee ¹
Up to \$250,000	0.25%
Next \$250,000	0.20%
Next \$500,000	0.15%
Next \$1,000,000 or more	0.10%

¹The minimum annual program fee is \$35 (\$8.75 quarterly), which may exceed the maximum annual program fee percentage based on account size.

Clients participating in the PPS Direct BlackRock ETF Managed Portfolio Series Program may pay more or less than clients might otherwise pay if purchasing the services separately.

There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Managers selected
- Amount of trading
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, custody and clearing services, and client-related services offered through the PPS Direct BlackRock ETF Managed Portfolio Series Program, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Direct BlackRock ETF Managed Portfolio Series Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- ETF management fees and administrative expenses
- Transaction fees and redemption fees
- Charges on the sale of previously purchased assets transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Brokerage account fees and charges
- Other charges that may be required by law

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Select Program Services, Fees, and Compensation

The PPS Select Program offers clients a managed account employing specific asset allocation models developed and managed by Commonwealth's own Investment Management and Research team as a portfolio manager. The account will be made up of a mix of asset classes with weightings based on risk profile, investment objective, individual client preferences, and availability. Clients will have the opportunity to periodically meet with their advisor to review their account. The account may be rebalanced at any time pursuant to the discretionary trading authority clients grant to Commonwealth to help ensure that the account remains within reasonable deviation parameters of the specific PPS Select asset allocation model selected by the client.

Commonwealth's advisors will collect financial data from clients, help clients determine the appropriateness of the account, and help clients identify the appropriate investment objectives and strategies to be used. Each PPS Select account will have an appropriate percentage mix of asset classes allocated to the account, composed of domestic and/or international fixed income, equity mutual fund shares, ETFs, and/or variable annuity subaccounts.

Most often, several asset classes with varying degrees of risk will be used in a client's portfolio, depending on the client's risk profile, investment objectives, individual client preferences, and availability. Commonwealth will have complete and unlimited discretionary trading authority to purchase and sell securities in the account, and to liquidate previously purchased securities that may be transferred into the account, in accordance with the investment objectives and model allocations chosen by the client.

Clients participating in the PPS Select Program will pay a total account fee that consists of a combination of an advisor fee and a program fee. Commonwealth and the advisor will share in the advisor fee. Commonwealth retains the program fee to compensate Commonwealth as portfolio manager and offset custodial and clearing costs.

The maximum allowable advisor fee in the PPS Select Program is as follows:

Account Value	Maximum Advisor Fee¹
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum program fee in the PPS Select Program is as follows:

Account Value	Maximum Program Fee²
First \$250,000	0.25%
Next \$250,000	0.20%
Next \$500,000	0.15%
Next \$1,000,000 or more	0.10%

¹The annual advisor fee for certain account sizes and types is negotiable.

²The minimum annual program fee is \$35 (\$8.75 quarterly), which may exceed the maximum annual program fee percentage based on account size.

For clients with multiple PPS Select accounts that are identical in registration and title, Commonwealth will aggregate the values of those accounts so that they may benefit from a lower PPS Select annual program fee calculation for those identically titled accounts than if the annual program fees were calculated on a per-account basis.

Clients participating in the PPS Select Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by Commonwealth
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, and the costs of the client-related services offered through the PPS Select Program, including research, supplemental advisory, and client-related services, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Select Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees

- IRA and qualified retirement plan fees
- Various brokerage account service and miscellaneous fees, as applicable
- Other charges that may be required by law

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth’s Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Select DFA Program Services, Fees, and Compensation

The PPS Select DFA Program offers clients a managed account employing specific asset allocation models composed of mutual funds from Dimensional Fund Advisors (the “DFA Funds”). The asset allocation models are developed and managed by Commonwealth’s own Investment Management and Research team as portfolio manager. Commonwealth makes the PPS Select DFA Program available to clients through a series of model strategies (“Model Strategies”) composed of the DFA Funds that include a varying percentage of equity and debt securities with varying degrees of risk and potential return. Clients will have the opportunity to periodically meet with their advisor to review their account. The account may be rebalanced at any time pursuant to the discretionary trading authority clients grant to Commonwealth to help ensure that the PPS Select account remains within reasonable deviation parameters of the specific asset allocation model selected by the client.

Commonwealth’s advisors will collect financial data from clients, help clients determine the appropriateness of the account, and help clients identify the investment objectives and strategies to be used. Each PPS Select DFA account will have an appropriate percentage mix of asset classes allocated to the account, composed of equity and debt DFA Funds. Most often, several asset classes with varying degrees of risk will be used in a client’s portfolio, depending on the client’s risk profile, investment objective, individual client preferences, and availability.

Commonwealth will have complete and unlimited discretionary trading authority to purchase and sell DFA Funds, and to liquidate previously purchased securities that may be transferred into a PPS Select DFA account, in accordance with the investment objectives and model allocations chosen by the client.

Clients participating in the PPS Select DFA Program will pay a total account fee that consists of a combination of an advisor fee and a program fee. Commonwealth and the advisor will share in the advisor fee. Commonwealth retains the program fee to compensate Commonwealth as portfolio manager and offset custody and clearing costs.

The maximum allowable advisor fee in the PPS Select DFA Program is as follows:

Account Value	Maximum Advisor Fee ¹
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum program fee in the PPS Select DFA Program is as follows:

Account Value	Maximum Program Fee ²
First \$500,000	0.30%
Next \$500,000	0.25%
Next \$1,000,000	0.20%
Next \$3,000,000	0.15%
Next \$5,000,000	0.10%
Next \$10,000,000 or more	0.05%

¹The annual advisor fee for certain account sizes and types is negotiable.

²The minimum annual program fee is \$150 (\$37.50 quarterly), which may exceed the maximum annual program fee percentage based on account size.

For clients with multiple PPS Select DFA accounts that are identical in registration and title, Commonwealth will aggregate the values of those accounts so that they may benefit from a lower PPS Select DFA annual program fee calculation for those identically titled accounts than if the annual program fees were calculated on a per-account basis.

Clients participating in the PPS Select DFA Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by Commonwealth
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, and the costs of the client-related services offered through the PPS Select DFA Program, including research, custody, and clearing services, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Select DFA Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Various brokerage account service and miscellaneous fees, as applicable
- Other charges that may be required by law

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Select Fixed Income SMA Program Services, Fees, and Compensation

The PPS Select Fixed Income SMA Program offers clients a managed account employing specific fixed income asset allocation models developed and managed by Commonwealth's own Investment Management and Research team as portfolio manager. The account will be made up of investment-grade, nationally issued bond securities based on the client's risk profile, investment objective, and individual preferences, as well as availability. Clients will have the opportunity to periodically meet with their advisor to review their account. The account may be rebalanced pursuant to the discretionary trading authority clients grant to Commonwealth at any time to help ensure that the PPS Select account remains within reasonable deviation parameters of the specific asset allocation model selected by the client.

Commonwealth's advisors will collect financial data from clients, help clients determine the appropriateness of the account, and help clients identify the investment objectives and strategies to be used. Each PPS Select Fixed Income SMA account will be invested in investment-grade, nationally issued bonds and will focus on the short or intermediate part of the yield curve, as selected by the client. Investments will be selected on a relative value basis and opportunities created by movements in the yield curve. With movements in interest rates, this portfolio may exhibit some volatility.

Commonwealth will have complete and unlimited discretionary trading authority to purchase and sell investment-grade, nationally issued bonds and to liquidate previously purchased securities that may be transferred into the client's PPS Select account, in accordance with the investment objectives and model allocations chosen by the client.

Clients participating in the PPS Select Fixed Income SMA Program will pay a total account fee that consists of a combination of an advisor fee and a program fee. Commonwealth and the advisor will share in the advisor fee. Commonwealth retains the program fee to compensate Commonwealth as portfolio manager and offset custody and clearing costs.

The maximum allowable advisor fee in the PPS Select Fixed Income SMA Program is as follows:

Account Value	Maximum Advisor Fee¹
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum program fee in the PPS Select Fixed Income SMA Program is as follows:

Account Value	Maximum Program Fee²
First \$500,000	0.40%
Next \$500,000	0.35%
Next \$1,000,000	0.30%
Next \$3,000,000	0.25%
Next \$5,000,000	0.20%
Next \$10,000,000	0.10%
Next \$20,000,000 or more	0.05%

¹The annual advisor fee for certain account sizes and types is negotiable.

²Commonwealth will charge a minimum annual program fee of \$500 (\$125 quarterly), which may exceed the maximum annual program fee percentage based on account size.

For clients with multiple PPS Select accounts that are identical in registration and title, Commonwealth will aggregate the values of those accounts so that they may benefit from a lower PPS Select annual program fee calculation for those identically titled accounts than if the annual program fees were calculated on a per-account basis.

Clients participating in the PPS Select Fixed Income SMA Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Managers selected
- Amount of trading effected by Commonwealth
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, and the cost of the client-related services offered through the PPS Select Fixed Income SMA Program, including research, supplemental advisory, and client-related services, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Select Fixed Income SMA Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Money market 12b-1 fees and subtransfer agent fees
- Money market management fees and administrative expenses
- Transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Various brokerage account service and miscellaneous fees, as applicable
- Other charges that may be required by law

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Commonwealth and your advisor receive some of these fees. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Select Equity SMA Program Services, Fees, and Compensation

The PPS Select Equity SMA Program offers clients a managed account employing specific equity allocation models developed and managed by Commonwealth's Investment Management and Research team as portfolio manager. The account will consist primarily of equities that seek to provide current and future dividend growth, as well as long-term capital appreciation. Clients will have the opportunity to periodically meet with their advisor to review their account. The account may be rebalanced pursuant to the discretionary trading authority clients grant to Commonwealth to help ensure that the PPS Select account remains within reasonable deviation parameters of the specific asset allocation model selected by the client.

Commonwealth's advisors will collect financial data from clients, help clients determine the appropriateness of the account, and help clients identify the investment objectives and model strategies to be used. The portfolio will invest primarily in the stock of large-capitalization domestic companies with a history of paying dividends or that possess reasonable prospects for future dividend growth. Companies will be selected based on their relative value, current dividend yield, prospects for dividend growth, balance sheet strength, and potential for cash flow generation. Past and current performance is no guarantee of future results.

Commonwealth will have complete and unlimited discretionary trading authority to purchase and sell all securities and to liquidate previously purchased securities that may be transferred into the client's PPS Select account, in accordance with the investment objectives and model allocations chosen by the client.

Clients participating in the PPS Select Equity SMA Program will pay a total account fee that consists of a combination of an advisor fee and a program fee. Commonwealth and the advisor will share in the advisor fee. Commonwealth retains the program fee to compensate Commonwealth as portfolio manager and offset custody and clearing costs.

The maximum allowable advisor fee in the PPS Select Equity SMA Program is as follows:

Account Value	Maximum Advisor Fee¹
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum Program Fee in the PPS Select Equity SMA Program is as follows:

Account Value	Maximum Program Fee²
First \$250,000	0.60%
Next \$250,000	0.50%
Next \$500,000	0.45%
Next \$1,000,000	0.40%
Next \$3,000,000	0.35%
Next \$5,000,000 or more	0.30%

¹The annual advisor fee for certain account sizes and types is negotiable.

²Commonwealth will charge a minimum annual program fee of \$600 (\$150 quarterly), which may exceed the maximum annual program fee percentage based on account size.

For clients with multiple PPS Select accounts that are identical in registration and title, Commonwealth will aggregate the values of those accounts so that they may benefit from a lower PPS Select annual program fee calculation based on the total value of those identically titled PPS Select accounts.

Clients participating in the PPS Select Equity SMA Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by Commonwealth
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, and the costs of the client-related services offered through the PPS Select Equity SMA Program, including research and supplemental advisory services, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Select Equity SMA Program. Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Various brokerage account service and miscellaneous fees, as applicable
- Other charges that may be required by law

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Select Jefferson National Annuity Program Services, Fees, and Compensation

No new accounts are being opened in this program. For existing accounts, the PPS Select Jefferson National Monument Advisor Variable Annuity Program account offers clients a managed account chosen from specific asset allocation models developed and managed by Commonwealth's own Investment Management and Research team as portfolio manager. The account will consist of a mix of asset classes with weightings based on risk profile, investment objective, individual client preferences, availability, and account size. Clients will have the opportunity to periodically meet with their advisor to review their account. The account may be rebalanced pursuant to the discretionary trading authority clients grant to Commonwealth at any time to help ensure that the PPS Select Jefferson National Monument Advisor Variable Annuity account remains within reasonable deviation parameters of the specific asset allocation model selected by the client.

Commonwealth's advisors will collect financial data from clients, help clients determine the appropriateness of the account, and help clients identify the investment objectives and model portfolio strategies to be used. Each PPS Select Jefferson National Monument Advisor Variable Annuity will have an appropriate percentage mix of variable annuity subaccount asset classes allocated to the account.

Most often, several asset classes with varying degrees of risk will be used in a client's portfolio, depending on the client's risk profile, investment objectives, individual client preferences, and availability. Commonwealth will have complete and unlimited discretionary trading authority to purchase and sell variable annuity subaccounts in the account in accordance with the investment objectives and model allocations chosen by the client.

Clients participating in the PPS Select Jefferson National Annuity Program will pay a total account fee that consists of a combination of an advisor fee and a program fee. Commonwealth and the advisor will share in the advisor fee. Commonwealth retains the program fee to compensate Commonwealth as portfolio manager. Other third-party custodial fees may apply.¹

The maximum allowable advisor fee in the PPS Select Jefferson National Annuity Program is as follows:

Account Value	Maximum Advisor Fee²
Up to \$499,999	2.00%
\$500,000–\$999,999	1.75%
\$1,000,000–\$4,999,999	1.50%
\$5,000,000 or more	1.25%

The maximum program fee in the PPS Select Jefferson National Annuity Program is as follows:

Account Value	Maximum Program Fee³
First \$250,000	0.25%
Next \$250,000	0.20%
Next \$500,000	0.15%
Next \$1,000,000 or more	0.10%

¹Jefferson National has a \$20 monthly flat insurance fee.

²The annual advisor fee for certain account sizes and types is negotiable.

³Commonwealth will charge a minimum annual program fee of \$35 (\$8.75 quarterly), which may exceed the maximum annual program fee percentage based on account size.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure.

For clients with multiple PPS Select accounts that are identical in registration and title, Commonwealth will aggregate the values of those accounts so that they may benefit from a lower PPS Select annual program fee calculation for those identically titled accounts than if the annual program fees were calculated on a per-account basis.

Clients participating in the PPS Select Jefferson National Monument Advisor Variable Annuity Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, and the costs of the client-related services offered through the PPS Select Jefferson National Monument Advisor Variable Annuity Program, including research, supplemental advisory, and client-related services, may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Select Jefferson National Monument Advisor Variable Annuity Program. These include, but are not limited to, the following:

- Variable annuity subaccount management fees and administrative expenses
- Variable annuity subaccount transaction fees and redemption fees
- Variable annuity mortality and expenses

- Variable annuity living and death benefit rider costs
- Other variable annuity account service and miscellaneous fees, as applicable
- Other charges that may be required by law

For more information that explains the fees and charges paid by clients participating in the program, see the Jefferson National Monument Advisor Variable Annuity prospectus.

PPS Custom Program (Platform) Services, Fees, and Compensation

Commonwealth offers three versions of the PPS Custom Program to clients, which Commonwealth refers to as PPS Custom Program (Transactions), PPS Custom Program (Platform), and PPS Custom Program (Access). Commonwealth limits advisors to offering *only one* of the three versions of Commonwealth's PPS Custom Program to *all* of the advisor's clients who wish to participate in the PPS Custom Program. This means that while Commonwealth offers three versions of the PPS Custom Program to Commonwealth clients generally (i.e., Transactions, Platform, and Access), each client's advisor is restricted to offering *only one* of those three versions to *all* of that advisor's clients. Therefore, other advisors will have access to and will offer their clients a version of the PPS Custom Program that the client's own advisor cannot offer them. Depending on the specific type of PPS Custom Program that is available to clients through the client's chosen advisor, the fees and charges clients will pay when participating in the PPS Custom Program will vary, as described more fully below. Clients should discuss with their advisor the specific version of the PPS Custom Program their advisor may offer them, and clients should consider the specific version of the PPS Custom Program that is available to them through their advisor versus other versions of the PPS Custom Program that would be available to the client were they to choose to work with a different advisor when making a decision to participate in the PPS Custom Program.

The PPS Custom Program (Platform) account enables an advisor to assist the client in developing a personalized investment portfolio using one or more investment types, including, but not limited to, stocks, bonds, mutual funds, ETFs, unit investment trusts ("UITs"), variable and fixed-indexed annuities, and alternative investments. The advisor typically acts as portfolio manager, with full investment discretion, although clients may elect to have the advisor manage the account on a nondiscretionary basis. The account will be tailored to the particular needs of the client and may consist of a mix of asset classes and weightings based on risk profile, investment objective, and individual preferences. The client will have the opportunity to periodically meet with the advisor to review the account. The client account may be rebalanced at any time, pursuant to the discretion granted, to maintain the chosen asset allocation. The client account may also be reallocated as necessary when warranted by market conditions or changes in the client risk profile, investment objective, or other relevant circumstances.

Clients participating in the PPS Custom Program (Platform) will pay a total account fee that consists of a combination of management fee, which is negotiable, and a platform fee. Commonwealth and the advisor will share in the advisor fee. Commonwealth retains the platform fee, a portion of which Commonwealth uses to offset custody and clearing costs and annual maintenance fee charges. Depending upon the mutual fund families selected, transaction charges will also apply.¹

The maximum allowable management fee schedule for a new PPS Custom Program (Platform) account is as follows:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$750,000	2.25%
\$750,000	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	—	1.50%

¹Transaction charges of \$15 for buys and sells and a maximum of \$3 for periodic investment plans and systematic withdrawal plans will apply in the following mutual fund families: CGM, Dimensional Fund Advisors ("DFA"), Dodge & Cox, and Vanguard, except that DFA sells are \$0. For trader-assisted transactions, an additional \$5 fee is charged to the advisor.

The maximum platform fee schedule for a new PPS Custom Program (Platform) account is as follows:

Account Value	Maximum Platform Fee²
Up to \$100,000	0.12%
Next \$150,000	0.08%
Next \$250,000	0.06%
Next \$500,000	0.04%
Next \$500,000	0.03%
Next \$1,000,000	0.02%
Above \$2,500,000	0.01%

²The platform fee is household based and calculated on a blended basis, with a minimum annual account fee of \$120 (minimum quarterly fee of \$30), which may exceed the maximum annual platform fee percentage based on account size. Households are maintained by the advisor.

Clients participating in the PPS Custom Program (Platform) may pay more or less than clients might otherwise pay if purchasing the services separately or participating in a different version of the PPS Custom Program. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (Platform), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (Platform). Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Other charges that may be required by law
- Brokerage account fees and charges

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment products utilized in the program.

PPS Custom Program (Access) Services, Fees, and Compensation

The PPS Custom Program (Access) account enables an advisor to assist the client in developing a personalized investment portfolio using one or more investment types, including, but not limited to, stocks, bonds, mutual funds, ETFs, UITs, variable and fixed-indexed annuities, and alternative investments. The advisor typically acts as portfolio manager, with full investment discretion, although clients may elect to have the advisor manage the account on a nondiscretionary basis. The account will be tailored to the particular needs of the client and may consist of a mix of asset classes and weightings based on risk profile, investment objective, and individual preferences. The client will have the opportunity to periodically meet with the advisor to review the account. The client account may be rebalanced at any time, pursuant to the discretion granted, to maintain the chosen asset allocation. The client account may also be reallocated as necessary when warranted by market conditions or changes in the client risk profile, investment objective, or other relevant circumstances.

Clients participating in the PPS Custom Program (Access) will pay an annual account management fee, which is negotiable. Commonwealth and the advisor will share in the management fee.

The maximum allowable management fee schedule for a new PPS Custom Program (Access) account is:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$750,000	2.25%
\$750,000	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	—	1.50%

Clients participating in the PPS Custom Program (Access) may pay more or less than clients might otherwise pay if purchasing the services separately or participating in a different version of the PPS Custom Program. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (Access), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (Access). Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Other charges that may be required by law
- Brokerage account fees and charges

Commonwealth credits 12b-1 fee payments received back to all Commonwealth PPS accounts. 12b-1 fees received by Commonwealth will be credited back to client accounts quarterly.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth’s Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or offering document for the specific investment.

PPS Custom Program (TIAA) Services, Fees, and Compensation

The PPS Custom Program (TIAA) enables an advisor to assist participants in retirement plans offered through TIAA in developing a personalized investment portfolio. The advisor acts as portfolio manager, with full investment discretion, although clients may also select a nondiscretionary program account.

Clients participating in the PPS Custom Program (TIAA) will pay a total annual account fee consisting of a management fee, which is negotiable. Commonwealth and the advisor will share in the management fee. Other transaction charges and third-party custodial fees may apply.

The maximum allowable management fee schedule for a new PPS Custom Program (TIAA) account is as follows:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	—	1.50%

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure.

Clients participating in the PPS Custom Program (TIAA) may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (TIAA), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (TIAA). These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction and redemption fees
- Other transaction charges and service fees
- Retirement plan fees
- Other charges that may be required by law

More information about the fees and charges assessed by a mutual fund can be found in the appropriate mutual fund prospectus. Information about custodial and other charges that may be assessed to clients by TIAA is available directly from TIAA.

PPS Custom Program (Fidelity) Services, Fees, and Compensation

The PPS Custom Program (Fidelity) enables an advisor to assist participants in certain retirement plans offered through Fidelity in developing a personalized investment portfolio. The advisor acts as portfolio manager, typically with full investment discretion, although clients may also select a nondiscretionary program account.

Clients participating in the PPS Custom Program (Fidelity) will pay a management fee, which is negotiable. Commonwealth and the advisor will share in the management fee. Other transaction charges and third-party custodial fees may apply.

The maximum allowable management fee schedule for a new PPS Custom Program (Fidelity) account is as follows:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	—	1.50%

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure.

Clients participating in the PPS Custom Program (Fidelity) may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (Fidelity), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (Fidelity). These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction and redemption fees
- Other transaction charges and service fees
- Retirement plan fees
- Other charges that may be required by law

More information about the fees and charges assessed by a mutual fund can be found in the appropriate mutual fund prospectus. Information about custodial and other charges that may be assessed to clients by Fidelity is available directly from Fidelity.

PPS Custom Program (529 Plans) Services, Fees, and Compensation

The PPS Custom Program (529 Plans) enables an advisor to offer clients an asset management account in which the advisor assists the client in developing a personalized asset allocation program utilizing investment options available within a tax-advantaged 529 plan. The advisor typically acts as portfolio manager, with full investment discretion, although clients may elect to have the advisor manage the account on a nondiscretionary basis. The account will be tailored to the particular needs of the client and may consist of a mix of asset classes and weightings based on the client's risk profile, investment objective, and individual preferences. The client will have the opportunity to periodically meet with the advisor to review the account. The client account may be rebalanced at any time, pursuant to the discretion granted, to maintain the chosen asset allocation. The account may also be reallocated by the advisor as necessary or when warranted by market conditions or changes in the client risk profile, investment objective, or other relevant circumstances. Clients are advised that the Internal Revenue Service imposes restrictions on the number of reallocations that can be made in a calendar year. Please consult your advisor for further information.

Clients participating in the PPS Custom Program (529 Plans) will pay an annual asset management fee, which is negotiable. Commonwealth and the advisor will share in the management fee. The maximum allowable annual management fee for a PPS Custom Program (529 Plans) account may not exceed 0.75%.

Clients participating in the PPS Custom Program (529 Plans) may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (529 Plans), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (529 Plans). Commonwealth receives a portion of these fees. These include, but are not limited to, the following:

- Investment option or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Investment option and money market management fees and administrative expenses
- Investment option transaction and redemption fees
- Other charges that may be required by law
- Brokerage account fees and charges

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure. More information that explains the fees and charges paid by clients participating in the program can be found in Commonwealth's Schedule of Miscellaneous Account and Service Fees, available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf, as well as in the investment product prospectus, statement of additional information, and/or 529 plan offering document for the specific investment products utilized in the program.

More information about the fees and charges assessed by a mutual fund can be found in the appropriate mutual fund prospectus. Information about custodial and other charges that may be assessed to clients by 529 plans is available directly from 529 plans.

PPS Custom Program (Variable Insurance) Services, Fees, and Compensation

The PPS Custom Program (Variable Insurance) enables an advisor to assist participants in certain variable insurance products offered through various insurance companies in developing a personalized investment portfolio. The advisor acts as portfolio manager, typically with full investment discretion, although clients may also select a nondiscretionary program account.

Clients participating in the PPS Custom Program (Variable Insurance) will pay a management fee, which is negotiable. Commonwealth and the advisor will share in the management fee. Other transaction charges and third-party fees may apply.

The maximum allowable management fee schedule for a new PPS Custom Program (Variable Insurance) account is as follows:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$750,000	2.25%
\$750,000	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	—	1.50%

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure.

Clients participating in the PPS Custom Program (Variable Insurance) may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (Variable Insurance), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (Variable Insurance). These include, but are not limited to, the following:

- Subaccount management fees and administrative expenses
- Subaccount transaction fees and redemption fees
- Mortality fees and expenses
- Living and death benefit rider costs
- Other account service and miscellaneous fees
- Other charges that may be required by law and/or the insurance company for annuity purchases

More information about the fees and charges assessed by an insurance company can be found in the appropriate variable insurance prospectus.

PPS Custom Program (Structured Variable Annuity) Services, Fees, and Compensation

The PPS Custom Program (Structured Variable Annuity) enables an advisor to assist participants in certain structured variable annuities offered through various insurance companies in developing a

personalized investment portfolio. The advisor acts as portfolio manager, typically with full investment discretion, although clients may also select a nondiscretionary program account.

Clients participating in the PPS Custom Program (Structured Variable Annuity) will pay a management fee, which is negotiable. Commonwealth and the advisor will share in the management fee. Other transaction charges and third-party fees may apply.

The maximum allowable annual management fee schedule for a new PPS Custom Program (Structured Variable Annuity) account is 1.25%.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure.

Clients participating in the PPS Custom Program (Structured Variable Annuity) may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (Structured Variable Annuity), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (Structured Variable Annuity). These include, but are not limited to, the following:

- Subaccount management fees and administrative expenses
- Subaccount transaction fees and redemption fees
- Mortality fees and expenses
- Living and death benefit rider costs
- Other account service and miscellaneous fees
- Other charges that may be required by law and/or the insurance company for annuity purchases

More information about the fees and charges assessed by an insurance company can be found in the appropriate structured variable annuity prospectus.

PPS Custom Program (Fixed-Indexed Annuity) Services, Fees, and Compensation

The PPS Custom Program (Fixed-Indexed Annuity) enables an advisor to assist participants in certain fixed-indexed annuities offered through various insurance companies in developing a personalized investment portfolio. The advisor acts as portfolio manager, typically with full investment discretion, although clients may also select a nondiscretionary program account.

Clients participating in the PPS Custom Program (Fixed-Indexed Annuity) will pay a management fee, which is negotiable. Commonwealth and the advisor will share in the management fee. Other transaction charges and third-party fees may apply.

The maximum allowable annual management fee schedule for a new PPS Custom Program (Fixed-Indexed Annuity) account is 1.25%.

Additional information about other compensation Commonwealth and your advisor receive can be found in Item 14 of Part 2A of this Brochure.

Clients participating in the PPS Custom Program (Fixed-Indexed Annuity) may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Amount of trading effected by the advisor
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor, including research, supplemental advisory, and client-related services offered through the PPS Custom Program (Fixed-Indexed Annuity), may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the PPS Custom Program (Fixed-Indexed Annuity). These include, but are not limited to, the following:

- Index-linked strategy administrative expenses
- Index-linked strategy transaction fees and redemption fees
- Mortality fees and expenses
- Living and death benefit rider costs
- Other account service and miscellaneous fees
- Other charges that may be required by law and/or the insurance company for annuity purchases

More information about the fees and charges assessed by an insurance company can be found in the appropriate fixed-indexed annuity prospectus.

SEI Asset Management Program Services, Fees, and Compensation

The SEI Asset Management Program through Commonwealth offers clients a managed account using a series of model strategies ("Model Strategies") provided to Commonwealth by SEI Investments Management Corporation ("SEI"), an SEC-registered investment adviser, whereby Commonwealth makes available model portfolios consisting of no-load and load-waived mutual funds advised by SEI or separate account program portfolios comprising mutual funds, individual securities, cash, cash equivalents, and/or other investments managed by SEI or a separate portfolio manager.

The client's advisor will assist the client in determining the appropriateness of the account and will help the client establish an asset allocation policy. SEI will determine the portfolio managers and investment allocation within each model portfolio. SEI Private Trust Company ("SPTC") will invest the account according to the client's chosen asset allocation policy and rebalance or reallocate the investments within the account. Generally, rebalancing will occur on a monthly basis. SEI may change the relative allocation among the funds in the models, as well as the funds and portfolio managers included in the models. Such changes in the asset allocations of the model portfolios will generally be effected on a quarterly basis.

Account assets are held in custody by SPTC. Clients will enter into a separate custodial agreement with SPTC to participate in the program and are subject to the SPTC fees and charges for their services. Clients will receive from SPTC account statements no less frequently than quarterly detailing account activity and positions held in the account at period-end, as well as an annual tax reporting statement from SPTC. Clients may also receive quarterly performance updates showing the investment performance of the account.

The maximum allowable annual management fee schedule for a new SEI Asset Management Program account through Commonwealth is as follows:

Account Value		Maximum Annual Management Fee
Greater than or equal to	Less than	
\$0	\$750,000	2.25%
\$750,000	\$1,000,000	2.00%
\$1,000,000	\$2,000,000	1.75%
\$2,000,000	—	1.50%

The annual management fee is negotiable and shall be as set forth in the “Payment of Advisor Fees” section of the SPTC Investor Application and the associated fee schedule. Commonwealth and the advisor will share in the management fee.

Clients participating in the SEI Asset Management Program may pay more or less than clients might otherwise pay if purchasing the services separately. There are several factors that determine whether such costs would be more or less, including, but not limited to, the following:

- Size of the account
- Types of securities and strategies involved
- Managers selected
- Amount of trading effected by the TPAM
- Actual costs of such services if purchased separately

The advisory fees charged for the services provided by Commonwealth and your advisor through the SEI Asset Management Program at Commonwealth may exceed those of other similar programs.

In addition to the fees noted above, clients incur certain charges in connection with investments made through the SEI Asset Management Program. These include, but are not limited to, the following:

- Mutual fund or money market 12b-1 fees, subtransfer agent fees, and distributor fees
- Mutual fund and money market management fees and administrative expenses
- Mutual fund transaction fees and redemption fees
- Certain deferred sales charges on previously purchased mutual funds transferred into the account
- Other transaction charges and service fees
- IRA and qualified retirement plan fees
- Various brokerage account service and miscellaneous fees, as applicable
- Other charges that may be required by law

In addition to the fees described above, clients incur certain charges imposed by third parties other than Commonwealth and the advisor, such as SEI and SPTC, including, but not limited to, SEI fund management fees and administrative servicing fees, SEI account maintenance fees, and IRA and qualified retirement plan fees. SEI charges between 0.30% and 1.20% of AUM per year for investment management services performed by SEI, based upon the type of model portfolio selected by the client. Neither Commonwealth nor the client’s advisor receives any portion of third-party fees. Further information regarding fees and charges assessed by an SEI fund is available in the appropriate prospectus.

More information that explains the fees and charges paid by clients participating in the program can be found in the SEI Account Application (including the associated fee schedule, custody agreement, custody account fee schedule, and investment management agreement for separately managed accounts), SEI’s Form ADV Part 2A Brochure, and/or offering document for the specific investment products utilized in the program.

Other General Costs That May Apply to All Programs Described in This Brochure

Other costs that may be charged and that are not part of those mentioned in the various program descriptions above include fees for portfolio transactions executed away from the broker/dealer or custodian selected by the client, dealer markups, electronic fund and wire transfers, spreads paid to market-makers, and exchange fees, among others. The program fees described above do not cover certain charges associated with securities transactions in clients' accounts, including (i) dealer markups, markdowns, or spreads charged on transactions in over-the-counter securities; (ii) costs relating to trading in certain foreign securities; (iii) the internal charges and fees assessed on collective investment vehicles, such as mutual funds and closed-end funds, UITs, ETFs, or real estate investment trusts ("REITs"); (iv) brokerage commissions or other charges imposed by broker/dealers or entities other than the custodian if and when trades are cleared by another broker/dealer; (v) the charge to carry tax lot information on transferred mutual funds or other investment vehicles, postage and handling charges, returned check charges, transfer taxes, stock exchange fees, or other fees mandated by law; and (vi) any brokerage commissions or other charges, including contingent deferred sales charges ("CDSC"), imposed upon the liquidation of "in-kind assets" that are transferred into a program account.

Commonwealth or the appointed third-party investment adviser or Money Manager may liquidate assets transferred into a program account in their sole discretion. Clients should be aware that if they transfer in-kind assets into a program account, such assets may be liquidated immediately or at a future point in time, and clients incur a brokerage commission or other charge, including a CDSC. Clients will also be responsible for the payment of any taxes when liquidations of assets held in their account take place. Accordingly, clients should consult with their advisor and tax consultant before transferring in-kind assets into a program. The broker/dealer or custodian may charge the client certain additional and/or minimum fees.

A client may also incur redemption fees when the third-party investment adviser or Money Manager to an investment strategy determines that it is in the client's overall interest, in conjunction with the stated goals of the investment strategy, to divest from certain collective investment vehicles prior to the expiration of the collective investment vehicle's minimum holding period. Depending on the length of the redemption period, the particular investment strategy, and/or market circumstances, a third-party investment adviser or Money Manager may be able to minimize any redemption fees when, in their discretion, it is reasonable to allow a client to remain invested in a collective investment vehicle until expiration of the minimum holding period.

In certain programs, the total annual account fee does not cover certain custodial fees that are charged to clients by the custodian. Clients will be charged for specific account services, such as ACAT transfers, electronic fund and wire transfers, and for other optional services elected by clients. Accounts will be subject to transaction-based ticket charges for the purchase or sale of certain mutual funds depending upon the specific program account selected by the client. Similarly, the total annual account fee does not cover certain non-brokerage-related fees, such as IRA trustee or custodian fees and tax-qualified retirement plan account fees and annual and termination fees for retirement accounts, such as IRAs.

Information describing the brokerage fees and charges that are applicable to any program account described in this Brochure is provided on Commonwealth's Schedule of Miscellaneous Account and Service Fees, which is available at www.commonwealth.com/clients/media/Commonwealth_Brokerage_Fee_Schedule.pdf.

Please refer to the respective program description in this Brochure, to the respective client agreement, and to the respective TPAM Program Brochure (if applicable), for specific information about the maximum fee allowed, the varying fee schedules of each program, and the methods of fee billing for the program(s) you select.

Special Disclosures for ERISA Plans: In this Brochure, Commonwealth has disclosed conflicts of interest, such as receiving additional compensation from third parties (e.g., 12b-1 fees, subtransfer agent fees, and revenue sharing) for providing marketing, recordkeeping, or other services in connection with certain investments. Commonwealth, however, has adopted policies and procedures that are designed to ensure compliance with the prohibited transaction rules under ERISA, as amended. For example, Commonwealth

has taken several steps to address the conflict of interest associated with Commonwealth's or Commonwealth's advisors' receipt of compensation for services provided to ERISA plans.

First, an advisor negotiates the compensation with ERISA plan sponsors or participants ("ERISA clients") and the compensation is either an annual fee for ongoing services based on a percentage of assets under advisement, a flat fee, or an hourly rate. Second, to the extent that an advisor receives additional compensation from a third party, the advisor must report it to Commonwealth to enable the additional compensation to be offset against the fees that the ERISA clients would otherwise pay for the advisor's services. Third, Commonwealth has established a policy not to influence any advisor's advice or management of assets at any time or for any reason based on any compensation that Commonwealth or the advisor might receive from third parties. In no event will Commonwealth allow advisors to provide advice or manage assets for ERISA clients if they have conflicts of interest that Commonwealth believes are prohibited by ERISA.

As a covered service provider to ERISA plans, Commonwealth will comply with the U.S. Department of Labor regulations on fee disclosures, effective July 16, 2011 (or such other date as provided by the Department). Thus, Commonwealth and its advisors will disclose (i) direct compensation received from ERISA clients; (ii) indirect compensation (e.g., 12b-1 fees) received from third parties; and (iii) transaction-based compensation (e.g., commissions) or other similar compensation shared with related parties servicing the ERISA plan. These fee disclosures will be made reasonably in advance of entering into, renewing, or extending the advisory service agreement with the ERISA client.

Item 5: Account Requirements and Types of Clients

PPS Direct SMA/UMA Program

The minimum account size required to participate in the PPS Direct SMA Program is normally \$100,000. The minimum account size required to participate in the PPS Direct UMA Program is normally \$250,000. At Commonwealth's and Envestnet's discretion, an account may be established at a lower minimum.

PPS Direct Russell Model Strategies Program

The PPS Direct Russell Model Strategies minimum account size is generally \$25,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Direct American Funds Model Portfolios Program

The PPS Direct American Funds Model Portfolios Program is generally available to client accounts with an initial value of at least \$5,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Direct BlackRock ETF Managed Portfolio Series Program

The PPS Direct BlackRock ETF Managed Portfolio Series is generally available to client accounts with an initial value of at least \$10,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Select Program

The PPS Select Program is generally available to client accounts with an initial value of at least \$10,000 for Active model portfolios and \$1,000 for Passive model portfolios. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Select DFA Program

The PPS Select DFA Program is generally available to client accounts with an initial value of at least \$50,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Select Fixed Income SMA Program

The PPS Select Fixed Income SMA Program is generally available to client accounts with an initial value of at least \$500,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Select Equity SMA Program

The PPS Select Equity SMA Program is generally available to client accounts with an initial value of at least \$100,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Select Jefferson National Annuity Program

The PPS Select Jefferson National Annuity Program is generally available to client accounts with an initial value of at least \$25,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Custom Program (Platform)

The PPS Custom Program (Platform) is generally available to client accounts with an initial value of at least \$25,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Custom Program (Access)

The PPS Custom Program (Access) is generally available to client accounts with an initial value of at least \$25,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Custom Program (TIAA)

The PPS Custom Program (TIAA) is generally available to client accounts with no account minimum.

PPS Custom Program (Fidelity)

The PPS Custom Program (Fidelity) is generally available to clients with no account minimum.

PPS Custom Program (529 Plans)

The PPS Custom Program (529 Plans) is generally available to client accounts with an initial value of at least \$25,000. At Commonwealth's discretion, an account may be established at a lower minimum.

PPS Custom Program (Variable Insurance)

The PPS Custom Program (Variable Insurance) is generally available to clients with an initial value of at least \$1,000.

PPS Custom Program (Structured Variable Annuity)

The PPS Custom Program (Structured Variable Annuity) is generally available to clients with an initial value of at least \$5,000.

PPS Custom Program (Fixed-Indexed Annuity)

The PPS Custom Program (Fixed-Indexed Annuity) is generally available to clients with an initial value of at least \$10,000.

SEI Asset Management Program

The SEI Mutual Fund Strategies program is generally available to clients with no account minimum. The SEI ETF Strategy is generally available to clients with an initial value of at least \$25,000. The SEI Managed Account Solution is generally available to clients with an initial value of at least \$50,000. The SEI Asset Management Program is generally available to client accounts with an initial value of at least \$100,000.

All Programs

Most Commonwealth clients are retail clients, such as individual and joint owners, revocable and irrevocable trusts, individual retirement accounts, self-directed 401(k) participant accounts, 529 college saving plan accounts, health savings accounts, and custodial accounts. Commonwealth also manages assets held in corporate, pension, 401(k), defined benefit plan, and municipality accounts, among others.

Item 6: Portfolio Manager Selection and Evaluation

PPS Direct Program

In the review, analysis, and approval of Money Managers or Strategists for the PPS Direct programs, Commonwealth will perform due diligence on the Money Manager or Strategist in line with Commonwealth's current policies and practices at the time. In conducting its due diligence of each Money Manager or Strategist, Commonwealth will generally consider the following:

- Investment strategy and discipline
- Performance history
- Experience
- Marketing materials
- Nature of client base
- Reporting capabilities
- Disciplinary history
- Form ADV Part 1 and Part 2 disclosures and financial condition
- Availability to clients of Commonwealth
- Ability to trade through Commonwealth

Once a Money Manager or Strategist is approved for the PPS Direct Program, Commonwealth will monitor the Money Manager's or Strategist's performance, AUM, disciplinary history, and investment strategy discipline. Commonwealth's monitoring of the Money Manager's or Strategist's performance does not typically include any calculation or determination as to the accuracy of any performance information that may be provided by the respective Money Manager or Strategist. Since Commonwealth itself is the sponsor of the PPS Direct Program, however, and receives electronic transaction and account data directly from National Financial Services LLC ("NFS") or Pershing LLC ("Pershing"), Commonwealth prepares and makes available to PPS Direct account clients its own performance reports. Commonwealth urges clients to compare the account statements they receive from their account custodian with any account summary statements they receive from Commonwealth or their advisor.

If you believe there are material discrepancies between your custodial statement and the summary statements or reports you receive from Commonwealth or your advisor, please promptly call Commonwealth directly at 800.237.0081.

Based upon Commonwealth's monitoring of the Money Manager or Strategist, your Commonwealth advisor may recommend that a particular Money Manager or Strategist be terminated or replaced. Such a recommendation may be based on a number of factors, including, but not limited to, the following:

- Performance, changes, or deviations in the Money Manager's or Strategist's stated investment strategy or style
- Material changes in the disciplinary history of the Money Manager or Strategist
- Changes in a client's objectives, financial circumstances, goals, or needs

Money Manager or Strategist strategies approved for Commonwealth's PPS Direct programs will generally reside in one of four categories—Recommended, Offered, Accommodative, or Closed—as more fully described below.

A. "Recommended" Status for PPS Direct Program Manager Strategies. Manager strategies on "Recommended" status may be selected from the existing pool of offered managers but are frequently sought out directly by the Investment Management and Research team. Managers that are on the Recommended List are subject to ongoing due diligence by the Investment Management and Research team. Such reviews consider quantitative and qualitative factors, absolute and relative performance, style consistency, risk management, operational parameters, and other considerations. Commonwealth will make quarterly performance available to advisors and their clients. Further analysis and periodic communication may also be provided to advisors and their clients as necessary or appropriate.

B. “Offered” Status for PPS Direct Program Manager Strategies. At times, PPS Direct manager strategies may be removed from the Recommended List and reclassified in an “Offered” status. Potential reasons for such occurrences could include performance concerns, operational issues, or limited use by Commonwealth’s advisors and their clients. Commonwealth’s advisors receive notification of managers that are removed from the Recommended List. Managers that are on the Offered list are subject to ongoing due diligence by the Investment Management and Research team. Such reviews consider quantitative and qualitative factors, absolute and relative performance, style consistency, risk management, operational parameters, and other considerations. Commonwealth will make quarterly performance available to advisors and their clients. Managers listed as Offered status are generally not marketed to advisors and may only be available for use under limited circumstances.

C. “Accommodative” Status for PPS Direct Program Manager Strategies. Commonwealth will periodically add manager relationships pursuant to the request of one or more Commonwealth advisors. Managers who are on the “Accommodative” list are subject to ongoing due diligence by the Investment Management and Research team. Such reviews consider quantitative and qualitative factors, absolute and relative performance, style consistency, risk management, operational parameters, and other considerations. Commonwealth will make quarterly performance available to advisors and their clients. Managers listed as Accommodative status are generally not marketed to advisors and may only be available for use under limited circumstances.

D. “Closed” Status for PPS Direct Program Manager Strategies. Managers that elect to close an existing strategy to new or existing client investments, or that are subject to termination by Commonwealth, will be reclassified under a “Closed” status. Commonwealth advisors using such managers at the time of closing will be notified accordingly. Managers that are on the Closed list are subject to ongoing due diligence by the Investment Management and Research team for as long as Commonwealth maintains client accounts at the manager. Such reviews consider quantitative and qualitative factors, absolute and relative performance, style consistency, risk management, operational parameters, and other considerations. Commonwealth will make quarterly performance available to advisors and their clients who continue to participate in a closed program.

Advisors assist their clients in choosing a PPS Direct Program that the advisor believes is consistent with the client’s risk tolerance and investment objectives, among other factors. The advisor will also assist clients in selecting a particular manager that has developed a model portfolio that the advisor believes is reasonably designed to meet the client’s long-term goals. Some strategies may be high-risk strategies. While such strategies provide the potential for substantial returns, they also involve significant risks, including loss of principal, are not suitable or intended for all investors. Clients who choose to follow high-risk strategies should be aware that there is the possibility of significant losses and even total loss of all assets placed in the strategies.

PPS Select Program

PPS Select offers clients access to model portfolios that are created and managed by Commonwealth’s own Investment Management and Research team. Following asset allocation concepts and modern portfolio theory, the PPS Select portfolios are designed to provide solid, long-term, risk-adjusted returns for investors across the risk/return spectrum. Depending on the model, the program may invest in mutual funds, ETFs, closed-end funds, and individual securities.

The client’s advisor will recommend one or more PPS Select portfolios and will provide advice in accordance with each client’s stated needs and objectives. As the portfolio manager for the PPS Select Program, Commonwealth receives a portion of the account fee for the advisory services performed by Commonwealth’s Investment Management and Research team and other program services such as performance reporting, account reconciliation, auditing, and quarterly statements.

The PPS Select Program offers an advisor’s clients several model strategies from which to choose. Each of the model strategies available in the PPS Select Program offers varying degrees of risk and potential reward. Of course, no investment strategy or methodology is guaranteed to be profitable, and past

performance does not guarantee future results. Commonwealth's PPS Select model strategies consist of Adaptive, Core/Satellite, Dimensional Fund Advisors ("DFA"), Moving Average, PPS Select Equity SMA, PPS Select Fixed Income SMA, and Socially Responsible Investing/Environmental, Social, and Governance ("SRI/ESG") portfolios, in addition to Active (taxable and with municipals), Passive (taxable and with municipals), and Income (taxable and tax-efficient) portfolios and those with Alternative Investments.

Active, Passive, and Income Models. These models are invested in equity and fixed income asset classes. The asset allocations consist of positive or negative tilts based on the Investment Management team's research (quantitative and qualitative analysis). Investments focus on, but are not limited to, the nine domestic equity style boxes, internationally developed and emerging market securities, a broad range of fixed income markets, and real asset funds (REITs). Portfolios range from Primarily Fixed Income to Equity, depending on a client's risk tolerance and investment objective.

Adaptive Strategies Model. This strategy is primarily composed of alternative and fixed income-oriented mutual funds. The goal of this portfolio is to try to achieve a positive absolute return over a full market cycle. The holdings typically have a lower correlation to traditional fixed income strategies in an effort to provide conservative investors with diversification benefits relative to other portfolios that have a larger allocation to bonds.

Core/Satellite Models. Combining the benefits of indexing (i.e., low cost, tax efficiency) with the abilities of active management, this approach exploits market inefficiencies over time by investing in both mutual funds and ETFs. The core portion of these portfolios is generally represented by exposure to passively managed ETFs that are designed to track various market indices; the satellite component is typically allocated to actively managed mutual funds that are striving to outperform their respective indices. The appropriate allocation varies by asset class and investment objective.

DFA Models. These strategies are composed entirely of DFA investment options that use factor-based investing focusing on different dimensions of returns, such as value, high profitability, and momentum, to structure the mutual funds. On the equity side, the DFA model has a small-cap bias with exposures to profitable, low price-to-book ratio companies. In the fixed income space, the factors that DFA focuses on are term and credit. These models are built using DFA Funds and are done so in close conjunction with DFA.

Models with Alternative Investments. These models build on the Active, Passive, and Income models by adding alternative investments—those that do not fit into the standard equity or fixed income classifications. These investments typically offer additional attributes in their investment profiles, such as low or noncorrelation or other facets that help move the overall portfolio down the risk spectrum. Alternative asset classes consist of, but are not limited to, managed futures, long/short, and multialternative.

Moving Average Model. The Moving Average model portfolio is a momentum-based strategy, incorporating the 200-day moving average. It seeks steady capital growth while attempting to limit downside exposure by moving in and out of three core asset classes (equity, fixed income, and gold). The maximum allocation for each core asset class is 33 percent, but the portfolio can allocate up to 100 percent to cash equivalents if market conditions warrant. The goal is to limit return and drawdown risk during market downturns—metaphorically putting on a seat belt while navigating market unpredictability.

PPS Select Equity SMA Models. This separately managed account model seeks to provide current and future dividend growth, as well as long-term capital appreciation. The portfolio will invest primarily in the stocks of large-capitalization companies with a history of paying dividends or that possess prospects for future dividend growth; however, past and current performance is no guarantee of future results. Stocks are selected based on relative valuation metrics stemming from earnings and cash flow, with additional risk evaluation based on the company's balance sheet strength.

PPS Select Fixed Income SMA Models. This separately managed account model seeks income and preservation of capital. It will typically be invested in investment-grade, nationally issued bonds and focus on various parts of the yield curve depending on the model. Investments are selected on a relative value basis

and opportunities created by movements in the yield curve. The SMA may invest in a national portfolio while working to optimize tax efficiency.

SRI/ESG Models. SRI/ESG investing is also referred to as sustainable investing. The concept allows investors the marriage between ethics and investments by incorporating a set of standards that aligns a company's operations and strategy with principles related to public consciousness of environmental responsibility, social concerns, and corporate governance. The goal of the PPS Select SRI/ESG portfolios is to deliver long-term wealth to shareholders in a socially conscious way.

The Commonwealth Investment Management and Research team conducts extensive due diligence when selecting funds and securities for inclusion in or removal from the PPS Select portfolios. Matching clients' goals with their tolerance for risk is at the heart of any sound asset allocation model. The Commonwealth Investment Management and Research team relies on asset allocation concepts and tools based on Modern Portfolio Theory to pursue a long-term strategy that's rigorous and disciplined, yet flexible enough to take advantage of short-term market opportunities. Commonwealth's portfolio managers follow a comprehensive five-step due diligence process to determine which investments to include in or remove from the PPS Select portfolios.

Step 1: Screening. An initial screening process based on quantitative criteria is used as a starting point for further research. The purpose of the screening process is to narrow down the universe of investments that meet the managers' objective criteria.

Step 2: Evaluation. After screening, the remaining investments are evaluated by applying a scoring system based on returns that are adjusted to take into account quantifiable risk. In addition, investments are evaluated based on their peer group ranking, benchmark-relative performance, and consistency of investment management style.

Step 3: Analysis. The objective of this step is to build a solid understanding of how an investment operates. During this stage, portfolio managers spend a great deal of time evaluating the investment's philosophy and process to ensure that there is consistency. After in-depth quantitative and qualitative analysis is complete, they meet with key investment decision makers either on-site or over the phone to gain a greater understanding of the decision makers' process for managing the portfolio.

Step 4: Portfolio Construction. After portfolio managers have identified one or a group of investments that are attractive on a stand-alone basis, they spend a considerable amount of time assessing how well the investment fits with other portfolio holdings. They review certain metrics, like excess return correlation, to ensure that holdings will perform as expected in different market environments.

Step 5: Ongoing Monitoring. Portfolios are monitored on an ongoing basis. Portfolio managers continually conduct performance reviews, holdings attribution analysis, firm commentary reviews, and regular conference calls and meetings to determine whether the portfolio is meeting their risk-adjusted return expectations.

PPS Custom Program

The client's advisor is responsible for the investment advice and management offered to clients, and the client selects the advisor who manages the account. Commonwealth does not select or recommend other investment advisors or portfolio managers to clients within the PPS Custom Program. Each advisor managing a PPS Custom Program account chooses his or her own research methods, investment strategy, and management philosophy. The advisor will incorporate the investment objectives and needs, as well as time horizon and risk tolerance, when developing a client's investment strategy and management philosophy. It is important to note that no methodology or investment strategy is guaranteed to be successful or profitable. The advisor works with the client to obtain sufficient information to provide individualized investment advice and meets with the client on an ongoing basis. Clients are permitted to impose reasonable restrictions on the management of the account.

The advisor has access to various research reports, including those provided by Commonwealth's Investment Research team and various third-party services, to which he or she may refer in determining which securities to purchase or sell. Commonwealth's Investment Research team makes recommendations regarding asset allocation, mutual funds, and variable annuity subaccounts. Advisors may or may not follow these recommendations in managing PPS Custom Program accounts.

Clients should contact the advisor managing their accounts for additional information on the advisor's particular investment strategy and management philosophy. It is also important to note that an advisor may use a combination of investment strategies and management philosophies. For more information about the advisor managing the account, clients should refer to the Part ADV 2B Brochure Supplement provided by the advisor.

Item 7: Client Information Provided to Portfolio Managers

Commonwealth's PPS Direct SMA/UMA and Strategist Program offers the advisory services of institutional Money Managers using individual securities as the underlying investments. These style-specific managed accounts are designed to meet a particular investment focus or style objective chosen by the client. Commonwealth provides the information provided by the client in the Envestnet Statement of Investment Selection ("SIS") to Envestnet at the time the account is opened. Envestnet, in turn, provides the information contained in the SIS to the portfolio managers. Copies of updates that are made to the SIS are provided to subadvisers as changes occur. The SIS information includes, but is not limited to, the client's name, initial investment amount, risk tolerance and investment selection, and Commonwealth account number. Envestnet will also provide the client's social security or tax ID number, date of birth, and address to portfolio managers. Commonwealth will also notify Envestnet, who will, in turn, notify portfolio managers, of any reasonable restrictions that the client wishes to impose on the management of his or her PPS Direct accounts or the names or types of securities that should or should not be purchased, sold, or held in his or her PPS Direct accounts. In cases where Envestnet or a portfolio manager is unable to reasonably accommodate investment restrictions, clients will have the opportunity to select a different managed account program.

Commonwealth's PPS Select Program is a turnkey advisory solution managed by Commonwealth's own Operations and Investment Management and Research teams. Commonwealth utilizes the client's PPS Select Client Agreement and Profile at the time the account is opened. Copies of updates that are made to the Client Profile are provided to Commonwealth as changes occur. The Client Profile information includes, but is not limited to, the client's name, address, telephone number, social security or tax ID number, date of birth, financial information, investment time horizon, risk tolerance, and portfolio name and description that is selected by the client. Commonwealth will accommodate reasonable restrictions that the client wishes to impose on the management of his or her PPS Select accounts or the names or types of securities that should or should not be purchased, sold, or held in his or her PPS Select accounts. In cases where Commonwealth is unable to reasonably accommodate investment restrictions, clients will have the opportunity to select a different managed account program.

Commonwealth's PPS Custom Program enables the advisor to collect financial data from clients, help clients determine the appropriateness of the investments in the account, and help clients identify the appropriate investment objectives and strategies to be used. Commonwealth and the advisor utilize the client's PPS Custom Program Client Profile at the time the account is opened for this purpose. Copies of updates that are made to the Client Profile are provided to Commonwealth as changes occur. The Client Profile information includes, but is not limited to, the client's name, contact information, personal identification information, financial information, investment time horizon, risk tolerance, and portfolio name and description that is selected by the client. The advisor is responsible for monitoring any restrictions that the client wishes to impose on the management of his or her PPS Custom Program accounts or the names or types of securities that should or should not be purchased, sold, or held in PPS Custom Program accounts.

The SEI Asset Management Program enables the advisor to collect financial data from clients, help clients determine the appropriateness of the program account, and establish an asset allocation strategy for the

client. SPTC will invest the account according to the client's chosen asset allocation strategy and will rebalance or reallocate the investments within the account. Clients will complete and submit to SPTC an account application that includes, but is not limited to, the client's name, address, telephone number, social security or tax ID number, date of birth, and account investment selections, instructions, and authorizations.

Item 8: Client Contact with Portfolio Managers

Commonwealth does not place any restrictions on clients' ability to contact or consult with their portfolio managers during normal business hours. Clients may also contact their advisor to discuss the management of their Commonwealth accounts during normal business hours.

Item 9: Additional Information

Disciplinary Information

Information on disciplinary history and registration of Commonwealth and persons associated with Commonwealth may be obtained online at <https://adviserinfo.sec.gov> or <https://brokercheck.finra.org> or by contacting state regulatory authorities. Following is a list of those legal or disciplinary events that may be material to your evaluation of Commonwealth or the integrity of Commonwealth's management.

During the period January 1, 2014, through March 27, 2014, Commonwealth purchased, recommended, or held for advisory clients' mutual fund share classes that charged 12b-1 fees instead of lower-cost share classes of the same funds for which the clients were eligible. Commonwealth and its associated persons received 12b-1 fees in connection with these investments. The Securities and Exchange Commission ("SEC") found that Commonwealth failed to disclose in its Form ADV or otherwise the conflicts of interest related to its receipt of 12b-1 fees and/or its selection of mutual fund share classes that pay such fees. As a result of these disclosure failures, the SEC found that Commonwealth violated Sections 206(2) and 207 of the Advisers Act. Pursuant to the Division of Enforcement's Share Class Selection Disclosure Initiative, Commonwealth self-reported these violations to the SEC. On March 11, 2019, the SEC accepted Commonwealth's offer of settlement and entered an administrative order. Without admitting or denying the findings, Commonwealth consented to a cease and desist, censure, and disgorgement of \$1,426,700.16 and prejudgment interest of \$210,603.29.

During the period from December 7, 2009, to January 28, 2012, Commonwealth used a system to comply with its regulatory obligations pertaining to archiving, preserving, and supervising the business-related emails of its associated persons. During this period, Commonwealth's email surveillance system failed to subject about 12.6 million of our associated persons' outgoing emails to our daily email surveillance protocol and failed to surveil approximately 474,380 emails that were sent or received by our registered representatives ("RRs"). These failures violated NASD Conduct Rules 3010(a) and 3010(d)(2) and FINRA Rule 2010. Despite the failure of its surveillance tool to review outgoing emails, Commonwealth did surveil incoming emails that were received by its RRs, including emails sent in reply to its RRs' outgoing emails; outgoing emails that were sent to or carbon-copied to Commonwealth employees or other Commonwealth RRs; and certain outgoing emails in connection with the firm's branch audits. Commonwealth self-reported these issues to FINRA in March 2012; undertook an internal review of its supervisory policies, procedures, and systems relating to these issues; and subjected emails that had not been reviewed to review. On March 19, 2014, FINRA accepted Commonwealth's letter of acceptance, waiver, and consent. Without admitting or denying the findings, Commonwealth accepted and consented to a censure and a \$250,000 fine.

Other Financial Industry Activities and Affiliations

Commonwealth, the Broker/Dealer, and Material Conflicts of Interest. As mentioned in the "About Us" section in Item 4 of Part 2A of this Brochure, Commonwealth is registered as an investment adviser and a broker/dealer. Commonwealth's registration as a broker/dealer is material to Commonwealth's advisory business because substantially all of Commonwealth's managed accounts are held with Commonwealth's broker/dealer. Depending upon the securities registrations held by each individual advisor, Commonwealth's advisors offer a variety of securities and investments to their clients, including,

but not limited to, mutual funds, 529 college savings plans, HSAs, annuities, individual stocks and bonds, options, limited partnerships UITs, REITs, donor-advised funds, alternative investments, and a variety of other securities and insurance products approved for sale by Commonwealth. Several of Commonwealth's principal executive officers and management persons, including Commonwealth's founder and chairman, vice chairman, CEO, president, and CFO are each individually registered with Commonwealth's broker/dealer. Further, Commonwealth's relationship as a broker/dealer presents a variety of material conflicts of interest with its clients. Commonwealth has separate, fully disclosed clearing arrangements with NFS, Pershing, and Charles Schwab.

As part of the investment advisory programs offered to clients, Commonwealth, in its capacity as a broker/dealer, provides brokerage execution services to Commonwealth advisory clients participating in Commonwealth's PPS managed account programs. Commonwealth and its advisors make securities and insurance recommendations to clients (or, in the case of discretionary services, make investment decisions for clients) regarding Commonwealth's investment advisory programs and services. Where permitted by law, Commonwealth and/or your advisor will receive transaction-based commissions, insurance commissions, mutual fund 12b-1 fees, distributor fees, service fees, due diligence fees, marketing reimbursements, revenue sharing, and other payments relating to your investment in or otherwise supporting Commonwealth's or your advisor's activities regarding the securities and insurance products recommended, purchased, or held within your Commonwealth advisory program account or pursuant to the advisory services provided. To the extent Commonwealth is the investment adviser, sponsor, or other service provider to your investment advisory program, Commonwealth receives compensation for its services. Clients should be aware that Commonwealth's or your advisor's receipt of commissions, fees, payments, and other compensation presents a conflict of interest because Commonwealth and your advisor have an incentive to make available or to recommend those products, programs, or services or make investment decisions regarding investments that provide additional compensation to Commonwealth or your advisor over other investments that do not provide additional compensation to Commonwealth or your advisor. As a matter of policy Commonwealth credits the mutual fund 12b-1 fees it receives in Commonwealth PPS managed accounts back to the accounts paying such 12b-1 fees.

Other Commonwealth-Related Companies. In addition to its registration as an investment adviser, Commonwealth is registered as a broker/dealer under the same name of Commonwealth Financial Network. Commonwealth has a related company that is licensed as an insurance agency under the name of CES Insurance Agency. Several Commonwealth management persons, and a large majority of Commonwealth's advisors, are licensed insurance agents of CES Insurance Agency.

Commonwealth's Relationships with Other Investment Advisers. Commonwealth and your advisor may serve as solicitors for or recommend clients to third-party investment advisers. Commonwealth and its advisors are compensated for referring your advisory business to these third-party investment advisers. This compensation generally takes the form of the third-party investment adviser sharing with Commonwealth and your advisor a portion of the advisory fee the third-party investment adviser charges you for providing investment management services. Commonwealth and your advisor, therefore, have a conflict of interest to refer clients to those third-party investment advisers that pay referral fees to Commonwealth or to your advisor rather than those that don't. Additionally, Commonwealth and your advisor have a conflict of interest to refer clients to those third-party investment advisers that pay higher referral fees over those that pay lower referral fees. Commonwealth performs reasonable due diligence on these third-party investment advisers on an initial and ongoing basis. Clients who are referred to these third-party investment advisers will receive a separate written disclosure document that describes, among other things, the compensation that will be paid to Commonwealth and the advisor by the third-party investment adviser, as well as any amount to be charged to the client that is in addition to the advisory fee that would otherwise be paid by the client to the third-party investment adviser in exchange for the referral.

Code of Ethics, Participation or Interest in Client Transactions, and Personal Trading

Pursuant to Rule 204A-1 under the Investment Advisers Act of 1940, as amended, Commonwealth has adopted a Code of Ethics that governs a number of conflicts of interest we have when providing our

advisory services to you. Our Code of Ethics is designed to ensure that we meet our fiduciary obligations to you and to foster a culture of compliance throughout our firm.

Our Code of Ethics is designed to help us detect and prevent violations of securities laws and to help ensure that we keep your interests first at all times. We distribute our Code of Ethics to each supervised person at Commonwealth at the time of his or her initial affiliation with our firm, we make sure it remains available to each supervised person for as long as he or she remains associated with our firm, and we ensure that updates to our Code of Ethics are communicated to each supervised person as changes are made.

Commonwealth's Code of Ethics sets forth certain standards of conduct and addresses conflicts of interest among Commonwealth and Commonwealth's employees, agents, advisors, and advisory clients.

We will provide a copy of our Code of Ethics to any client or prospective client upon request.

Commonwealth and its advisors often invest in the same securities that we recommend to clients. Commonwealth and its advisors also recommend securities to, and buy and sell securities for, client accounts at or about the same time that we buy or sell the same securities for our own accounts. These activities create a conflict of interest between us and our clients. Commonwealth policy prohibits "trading ahead" of clients' transactions to the detriment of clients. When Commonwealth and its advisors are purchasing or selling securities for their own accounts, priority will be given to client transactions, or trades will be aggregated together to obtain an average execution price for the benefit of all parties. Commonwealth has implemented surveillance and exception reports that are designed to identify and correct situations in which firm or advisor transactions are placed ahead of client transactions to the detriment of clients.

Review of Accounts

Commonwealth advisors providing continuous and regular investment advice or investment supervisory services to clients will review client portfolios and contact clients at least annually, or as agreed upon by the client, for conformity with the respective portfolio selection's investment strategies, client's specific investment objectives, changes in the client's financial condition, any reasonable restrictions imposed by the client as to specific assets or types of assets to be included or excluded from client portfolios.

Clients who participate in one or more of Commonwealth's wrap fee programs select one or more portfolio managers and model strategies that are reasonably designed to conform to the client's individual financial condition, investment objectives and long-term goals. Once clients select a particular model portfolio, the selected portfolio manager will automatically rebalance or reallocate the client's assets in a manner that is consistent with the objectives and risk tolerance of the chosen model portfolio. The client's advisor will periodically review the client's accounts and discuss any relevant specifics involving the portfolio manager's ongoing management of the client's assets during the regular discussions or meetings between the advisor and the client.

Client Referrals and Other Compensation

Other Compensation Received from Product Sponsors. Through our national network of advisors, Commonwealth offers access to a broad selection of securities products, including mutual funds, variable insurance products, 529 college savings plans, direct participation programs, HSAs, donor-advised funds, and nontraded alternative investments ("Sponsor Companies"). These companies often pay the travel, meals, and lodging expenses for Commonwealth advisors to attend educational programs and due diligence meetings designed to help advisors be more knowledgeable about those companies' products, operations, and management. These companies also often provide other forms of compensation to Commonwealth advisors relating to the sale and distribution of their products, including merchandise, gifts, prizes, and entertainment such as tickets to sporting events and leisure activities, as well as payment or reimbursement for the costs of business development expenses, client seminars, client appreciation events, software, and marketing materials designed to help promote the advisor's business.

In addition to the support that Sponsor Companies provide directly to Commonwealth's advisors, Commonwealth receives additional compensation from certain mutual fund companies ("Core Partners") in the form of annual payments, typically paid in quarterly installments, directly from these companies. This compensation is in addition to the customary commissions, 12b-1 fees, distribution fees, and other fees that are paid to Commonwealth by these Core Partners and constitutes a conflict of interest. The annual payments are made from the Core Partner's or an affiliate's own assets and not from investor assets. No portion of the annual payments made by Core Partners to Commonwealth is paid from brokerage commissions generated by the purchases of any specific investment.

In exchange for the annual payments Commonwealth receives from its Core Partners, Commonwealth will provide a variety of benefits to these companies. These benefits include, but are not limited to, direct access to Commonwealth's senior leadership, research, and product support staff; invitations to Commonwealth-sponsored meetings and events, which include direct access to Commonwealth advisors; ability to post product marketing and educational materials to Commonwealth's internal web portal used by Commonwealth advisors; access to Commonwealth's proprietary investment models, research, and analysis; and contact information for Commonwealth advisors.

None of the annual payments received by Commonwealth from Core Partners are paid to or shared with any advisor who sells a Core Partner's products. Commonwealth advisors do not receive a greater or lesser commission or advisory fee for sales of these sponsors' products for which Commonwealth receives annual payments. Because Commonwealth's advisors receive no direct increase or change in compensation from selling a certain sponsor's products over those of another sponsor's products, we do not believe Commonwealth's receipt of these annual payments from its Core partners presents a conflict of interest for a Commonwealth advisor to recommend one sponsor's products over another's.

The financial support, marketing support, participation in due diligence meetings and educational activities, and gifts and entertainment received by advisors that are paid for by the Sponsor Companies do, however, create a conflict of interest for Commonwealth advisors who receive this compensation because they incentivize our advisors to focus more on or otherwise recommend or promote the products of those Sponsor Companies that provide this compensation to the advisor over those that do not. These activities are reviewed, and require approval, by a member of the Commonwealth Compliance department.

Additional information describing the support and annual payments provided by Core Partners to Commonwealth is provided on the Revenue Sharing Disclosure, which is available on Commonwealth's website at www.commonwealth.com/clients/revenue-sharing.aspx.

Investment Adviser/Asset Management Programs. Commonwealth and/or its advisors receive reimbursements, marketing and distribution allowances, business and client development, educational enhancement, due diligence fees, gifts and entertainment, and other compensation ("additional compensation") directly from third-party investment advisory program sponsors (collectively, "Program Sponsors") based on the amount of client deposits and/or client assets under management with the Program Sponsors. This additional compensation is provided to Commonwealth and/or the advisor as an incentive to promote the sale of the Program Sponsor's products or services.

In all cases, such reimbursements, marketing allowances, or other compensation will be paid to Commonwealth and/or the advisor from the Program Sponsor's own resources and not from client funds or assets. Program Sponsors may also opt to pay Commonwealth a quarterly fee based upon deposits or AUM and/or some combination thereof on an annual basis based upon certain allowable assets.

These payments to Commonwealth and/or its advisors present a conflict of interest because they provide a financial incentive for Commonwealth or its advisors to recommend clients use a particular Program Sponsor that provides this additional compensation over other programs that do not provide this additional compensation. Clients are urged to read and consider the contents of this Brochure carefully (and the Brochures of any other Program Sponsors, as applicable) and to inquire about Commonwealth

and their advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor. Further information about Commonwealth's and your advisor's sources of compensation and conflicts of interest is described in this Brochure.

Other Payments to Commonwealth Advisors. In addition to receiving asset-based fees in their capacity as an investment adviser or solicitor, Commonwealth advisors receive reimbursements or marketing allowances for marketing expenses and business development costs they incur. In addition, advisors receive invitations to conferences and meetings that are sponsored by third-party firms that offer managed account or advisory programs or services to the advisor. Portfolio strategists, investment managers, and product manufacturers typically contribute to the cost of the conferences and meetings, are identified as a sponsor of the conference or meeting, and often have the opportunity to promote their products, programs, and services directly to the financial advisor. Additionally, the advisor's travel-related costs and expenses, meals, and entertainment are usually paid for or subsidized by the firms. These payments to Commonwealth advisors present a conflict of interest because they provide a financial incentive for advisors to recommend clients use a particular managed account program or advisory service that offers these payments and opportunities to the advisor over other managed account or advisory programs that do not offer such payments or opportunities to the advisor.

Commonwealth offers your advisor one or more forms of financial benefits based on your advisor's total AUM held at Commonwealth or in Commonwealth's own PPS Program accounts or financial assistance for transitioning from another firm to Commonwealth. The types of financial benefits that your advisor may receive from Commonwealth include, but may not be limited to, forgivable or unforgivable loans, enhanced payouts, and discounts or waivers on transaction, platform, and account fees; technology fees; research package fees; financial planning software fees; administrative fees; brokerage account fees; account transfer fees; licensing and insurance costs; and the cost of attending conferences and events. The enhanced payouts, discounts, and other forms of financial benefits that your advisor may have the opportunity to receive from Commonwealth provide a financial incentive for your advisor to select Commonwealth as broker/dealer for your accounts over other broker/dealers from which they may not receive similar financial benefits or to use certain Commonwealth PPS programs over other programs available through Commonwealth.

Clients are urged to read and consider the contents of this Brochure carefully and to inquire about Commonwealth's or their advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor. Further information about Commonwealth's and your advisor's sources of compensation and conflicts of interest is described in this Brochure.

Payments to Commonwealth. Consistent with prudent product approval practices, Commonwealth conducts or causes to be conducted a due diligence analysis of Sponsor Companies prior to making them available to the public through its advisors. Commonwealth receives due diligence fees, distribution allowances and other payments from certain Sponsor Companies. While the arrangements Commonwealth has with Sponsor Companies vary, certain Sponsor Companies pay Commonwealth additional compensation for marketing expenses, distribution allowances, due diligence, or other compensation of either up to 70 basis points (0.70%) annually on deposits or assets held at the Sponsor Company, or up to 200 basis points (2.00%) on the gross amount of each sale, depending on the product. These additional payments are paid to and retained by Commonwealth, and none of these additional payments are paid to or shared with any Commonwealth advisor. Even though these payments are not shared with Commonwealth advisors, the receipt of these payments from Sponsor Companies by Commonwealth creates a conflict of interest for clients because Commonwealth may choose to make available to clients those Sponsor Companies that provide these payments to Commonwealth over those Sponsor Companies that do not make such payments to Commonwealth.

Commonwealth receives additional compensation from approximately 30 mutual fund companies—our Core Partners—in the form of annual payments, typically paid in quarterly installments, directly from these companies. This compensation is in addition to the customary commissions, 12b-1 fees,

distribution fees, and other fees that are paid to Commonwealth by these Core Partners. In exchange for the annual payments Commonwealth receives from its Core Partners, Commonwealth provides a variety of benefits to these companies. These benefits include, but are not limited to, direct access to Commonwealth's senior leadership, research, and product support staff; invitations to Commonwealth-sponsored meetings and events, which include direct access to Commonwealth advisors; ability to post product marketing and educational materials to Commonwealth's internal web portal used by Commonwealth advisors; access to Commonwealth's proprietary investment models, research, and analysis; and direct contact information for Commonwealth's advisors. The existence of the additional benefits provided by Commonwealth to Core Partners, in exchange for the annual payments these Core Partners provide to Commonwealth, creates a conflict of interest for clients because Commonwealth or your financial advisor is more likely to recommend or promote the products of its Core Partners that make such payments to Commonwealth or receive these benefits from Commonwealth over those product sponsors that do not.

As also discussed elsewhere in this Brochure, Commonwealth uses NFS as its clearing and custody firm for substantially all of Commonwealth's PPS managed accounts. Commonwealth's business relationship with NFS provides Commonwealth considerable revenue-sharing benefits. In particular, Commonwealth receives substantial monthly revenue-sharing payments from NFS based on client assets held by Commonwealth with NFS in non-Fidelity NTF funds that participate in Fidelity's NTF program and non-Fidelity TF funds that participate in Fidelity's TF program.

Not all investment advisers that are dually registered as broker/dealers or that have affiliated broker/dealers require their clients to use the adviser's related broker/dealer to execute transactions. Although Commonwealth is often able to obtain price improvement through its trade executions with NFS and Pershing that it believes is beneficial to its clients, Commonwealth's clearing relationship with NFS provides Commonwealth's broker/dealer with substantial economic benefits by using itself as the broker/dealer and NFS as the clearing firm for its PPS Program accounts rather than an unaffiliated broker/dealer or other clearing broker/dealer.

For example, Commonwealth assesses transaction charges to offset the asset-based fees it pays to its clearing broker/dealer and to generate additional revenue for Commonwealth. Additionally, Commonwealth receives continuous revenue-sharing payments from NFS that are derived from certain types of positions and assets in client accounts held at NFS. Commonwealth also maintains a Core Account Sweep Program with NFS. This program creates substantial financial benefits for Commonwealth as discussed in Item 12 in Part 2A of this Brochure. This additional compensation received by Commonwealth in its broker/dealer capacity creates a significant conflict of interest with Commonwealth's clients because Commonwealth has a substantial economic incentive to use NFS as its clearing firm for trade execution and custody over other firms that do not or would not revenue share with Commonwealth. Additionally, by using itself as the broker/dealer for its PPS Program accounts, Commonwealth may be unable to achieve the most favorable execution for client transactions, which may cost clients more money. Clients are urged to read and consider the contents of this Brochure carefully and to inquire about Commonwealth's and the advisor's various sources of compensation and conflicts of interest in making a fair and reasonable assessment of the fees and charges clients will pay for the services rendered by Commonwealth and their advisor.

Additionally, NFS offers an NTF program to Commonwealth. Participating mutual fund sponsors pay a fee to NFS to participate in the NTF program, and a substantial portion of this fee is shared with Commonwealth. None of these additional payments are paid to any advisors who sell NTF funds. NTF mutual funds may be purchased within an investment advisory account at no charge to the client. Clients, however, should be aware that funds available through the NTF program often contain higher internal expenses than mutual funds that do not participate in the NTF program. Commonwealth's receipt of a substantial portion of the fees associated with the NTF program creates a conflict of interest because Commonwealth has an incentive to make available or to recommend the various NTF classes of mutual funds that provide this additional compensation to Commonwealth over other mutual fund share classes of the same fund that do not make such payments to NFS to share with Commonwealth.

Although NTF funds do not assess transaction charges, most NTF funds have higher internal expenses than funds that do not participate in an NTF program. These higher internal fund expenses are assessed

to investors who purchase or hold NTF funds. Depending upon the frequency of trading and hold periods, NTF funds may cost you more, or may cost Commonwealth or your Commonwealth advisor less, than mutual funds that assess transaction charges but have lower internal expenses. In addition, the higher internal expenses charged to clients who hold NTF funds will adversely affect the long-term performance of their account when compared to share classes of the same fund that assess lower internal expenses.

For those Commonwealth advisory programs that assess transaction charges to clients or to Commonwealth or the advisor, a conflict of interest exists because Commonwealth and your advisor have a financial incentive to recommend or select NTF funds that do not assess transaction charges but cost you more in internal expenses than funds that do assess transaction charges but cost you less in internal expenses. In addition to reading this Brochure carefully, clients are urged to inquire whether lower-cost share classes are available and/or appropriate for their account in consideration of their expected investment holding periods, amounts invested, and anticipated trading frequency. Further information regarding fees and charges assessed by a mutual fund is available in the appropriate mutual fund prospectus.

Core Account Sweep Programs. Commonwealth offers two core account sweep programs (“Programs”). These Programs are the core account investment vehicles used to hold your cash balances while awaiting reinvestment for eligible accounts. The two Programs, the Bank Deposit Sweep Program (“BDSP”) and the Advisory Retirement Sweep Program (“ARSP”), are available for different types of client accounts. The BDSP is the core account investment vehicle for eligible brokerage accounts. The ARSP is the core account investment vehicle for eligible advisory individual retirement accounts. The cash balance in your eligible Commonwealth brokerage accounts will be deposited automatically or “swept” into interest-bearing FDIC insurance-eligible Program deposit accounts (“Deposit Accounts”) at one or more FDIC-insured financial institutions (each a “Program Bank” or collectively, “Program Banks”).

The Programs create substantial financial benefits for Commonwealth and NFS. Please see Item 12 of Part 2A of this Brochure for a detailed description of the compensation and associated conflicts that will apply to clients who participate in the Program.

Nonpurpose Loan Program

Commonwealth offers a nonpurpose loan (“NPL”) program that enables clients to collateralize certain accounts to obtain secured loans through NFS or banking institutions that participate in the program. Commonwealth receives third-party compensation from program participants based on the amount of the outstanding loan. This compensation to Commonwealth varies; therefore, Commonwealth can earn more or less depending on the program participant selected by the client. This compensation is a conflict of interest to Commonwealth since Commonwealth has a financial incentive for the client to select a program participant that pays Commonwealth more. Commonwealth does not share this compensation with its advisors; therefore, an advisor does not have a financial incentive if one program participant is selected over another. Clients are not required to use the program participants in Commonwealth’s NPL program and can work directly with other banks to negotiate loan terms or obtain other financing arrangement.

Commonwealth as Solicitor

Commonwealth and your advisor may serve as solicitors for a variety of third-party investment advisers with respect to some or all of your assets. In such cases, Commonwealth and your advisor are compensated by these third-party investment advisers for referring your advisory business to them. This compensation generally takes the form of the third-party investment adviser sharing with Commonwealth and the advisor a percentage of the advisory fee the third-party investment adviser charges you. In some cases, these investment advisers will increase the advisory fee you would otherwise pay to the investment adviser if you engaged them directly. You will receive a written disclosure document that includes, among other things, a description of the compensation paid or to be paid to Commonwealth and your advisor as a solicitor and the amount, if any, that you will be charged in addition to the advisory fee you would have otherwise paid to the investment adviser. Commonwealth and your advisor have a conflict of interest to refer your advisory business to those third-party investment advisers that pay referral fees to Commonwealth and your advisor rather than to those investment advisers that do not make such

payments or to those investment advisers that pay higher referral fees to Commonwealth and your advisor rather than to those who compensate Commonwealth and your advisor lesser referral fees.

In some cases, Commonwealth and/or your Commonwealth advisor receive training and educational support, marketing support, enhanced service, invitations to attend conferences or meetings, or some other economic benefit that is in addition to our receipt of the referral fee discussed above from a third-party investment adviser to whom we have referred your advisory business. This support or other economic benefit will be paid from the third-party investment adviser's own funds and not from client funds. Commonwealth and your advisor have a conflict of interest to favor referring your advisory business to those third-party investment advisers that provide such additional compensation over those investment advisers that do not.

Commonwealth's Use of Solicitors

The Commonwealth Alliance Program ("CAP") is a referral program designed to compensate outside professionals or firms, such as attorneys, accountants, or other broker/dealers and investment advisers, for referring your advisory business to Commonwealth and your advisor. These professionals or firms are known as "solicitors." If your advisory account is referred by a solicitor to Commonwealth or your advisor, Commonwealth and your advisor will generally pay a portion of the advisory fee you pay us to the solicitor, typically for as long as you maintain an advisory relationship with us, to compensate the solicitor for the referral. Commonwealth will not charge a client who is referred to Commonwealth by a solicitor any amount for the cost of obtaining the client that is in addition to the fee normally charged by Commonwealth for its investment advisory services. The amount of this compensation, however, may be more than what the solicitor would receive if the client participated in our other programs or paid separately for investment advice, brokerage, and other services. The solicitor, therefore, has a financial incentive to recommend one or more of Commonwealth's wrap fee programs over other programs or services, including nonadvisory programs and services, that may be available to a client for which the solicitor would not receive referral compensation.

Commonwealth also permits the use of certain approved lead generation programs. In these programs, the Commonwealth IAR pays fees to the lead generation program based on the agreement signed between the lead generation program provider and the Commonwealth IAR. The lead generation program provider is required to sign an agreement with Commonwealth outlining their duties under Advisers Act Rule 206(4)-3, including, but not limited to, the delivery of Commonwealth's Form ADV Part 2A and solicitor disclosure documents to prospective clients at the time of referral.

Commonwealth also permits advisors and staff members associated with the Firm to refer clients to other IARs of Commonwealth. This program, known as the Strategic Alliance Program ("SAP"), operates under substantially similar requirements as CAP.

Commonwealth also maintains networking arrangements with certain financial institutions (generally banks and credit unions) who may also refer clients to various Commonwealth advisers. In exchange for the referrals, those institutions also receive a portion of advisory fees charged by Commonwealth.

All solicitation arrangements are disclosed to clients at the time of the solicitation via execution of a Solicitor Disclosure Statement that outlines the nature and amount of the compensation we pay to the solicitor and whether the solicitor is affiliated with or related to Commonwealth. Solicitors are required to provide prospective clients with a current copy of Commonwealth's then current Form ADV Part 2A Brochure no later than the date on which the client enters into an advisory relationship with Commonwealth and the advisor.

Financial Information

Some advisors who provide Wealth Management Consulting or Retirement Plan Consulting services to clients may require prepayment of more than \$1,200 in fees six (6) months or more in advance. Commonwealth also maintains custody of certain client assets and in certain instances, as defined in SEC Rule 206(4)-2. Additionally, pursuant to the trading authorization granted by Commonwealth managed account clients to Commonwealth and their advisor, Commonwealth has discretionary trading authority over the funds and securities of clients.

Commonwealth has no financial commitment that would impair its ability to meet its contractual and fiduciary commitments to clients, nor has Commonwealth been the subject of a bankruptcy proceeding.

Part 2B: Brochure Supplements for PPS Select Programs
Commonwealth Financial Network®

March 11, 2019

Brochure Supplement

**W. Bradford McMillan
PPS Select Program(s)**

29 Sawyer Road
Waltham, MA 02453-3483

San Diego, CA 92101-3706
Toll-Free: 877.347.1982
Phone: 619.471.9700
Main Fax: 619.471.9701

This brochure supplement provides information about W. Bradford McMillan that supplements the Commonwealth Financial Network® (“Commonwealth”) Brochure. You should have received a copy of that Brochure. Please call 800.237.0081 or email *FormADVPart2@commonwealth.com* if you did not receive Commonwealth’s Brochure or if you have any questions about the contents of this supplement.

Additional information about W. Bradford McMillan is available on the SEC’s website at www.adviserinfo.sec.gov.

Educational Background and Business Experience

Year of Birth:

1965

Formal Education After High School:

Name of School	Degree Obtained	Year Started	Year Ended
Dartmouth College	Bachelor of Arts	1983	1987
Massachusetts Institute of Technology	Master of Science in Real Estate Development	1991	1992
Boston College	Master of Science in Finance	2003	2006

Business Background:

Name of Company	Position Held	Year Started	Year Ended
Commonwealth	Managing Principal and CIO	2018	Present
Commonwealth	SVP and Chief Investment Officer	2014	2018

Designations:

CFA® (Chartered Financial Analyst®): To obtain the CFA® designation, your advisor had to complete three levels of a self-study program, each requiring 250 hours of study, and pass a closed-book exam for each level. Additionally, the advisor had to demonstrate either possession of an undergraduate degree and four years of professional experience involving investment decision making or four years of qualified work experience (full-time, but not necessarily investment-related).

CAIA (Chartered Alternative Investment Analyst): The CAIA charter, recognized globally, is administered by the Chartered Alternative Investment Analyst Association and requires a comprehensive understanding of core and advanced concepts regarding alternative investments, structures, and ethical obligations. To qualify for the CAIA charter, finance professionals must complete a self-directed, comprehensive course of study on risk-return attributes of institutional-quality alternative assets; pass both the Level I and Level II CAIA examinations at global, proctored testing centers; attest annually to the terms of the Member Agreement; and hold a U.S. bachelor's degree (or equivalent) plus have at least one year of professional experience or have four years of professional experience. Professional experience includes full-time employment in a professional capacity within the regulatory, banking, financial, or related fields. Once a qualified candidate completes the CAIA program, he or she may apply for CAIA membership and the right to use the CAIA designation, providing an opportunity to access ongoing educational opportunities.

Disciplinary Information

W. Bradford McMillan does not have any material disciplinary history.

Other Business Activities

W. Bradford McMillan has no outside business activities to report.

Additional Compensation

W. Bradford McMillan receives an economic benefit from persons other than clients for providing advisory services.

Many of the companies that provide Commonwealth access to their products and programs provide Commonwealth personnel with opportunities to receive additional compensation in the form of payment for travel-related costs and expenses for attending business meetings and conferences, as well as various forms of gifts and entertainment.

Commonwealth's Investment Management and Research team uses independent, quantitative, and qualitative criteria in its PPS Select investment selection process, without regard to whether a particular product sponsor has made or makes additional compensation payments to Commonwealth or its agents and employees. Because many product sponsors included on Commonwealth's recommended list are among the largest and most widely used product sponsors in the industry, it is not uncommon for Commonwealth or its agents and employees to receive additional compensation from these product sponsors. Under no circumstances are the products or services provided by sponsors considered for inclusion in Commonwealth's PPS Select programs because of, or in any way in relationship to, the additional compensation that Commonwealth or its agents and employees receive from product sponsors.

Supervision

Commonwealth's system for supervision of its supervised persons centers on delegating functions to designated supervisors located in Commonwealth's home offices in San Diego, California, and Waltham, Massachusetts. These designated supervisors are collectively responsible for ensuring that all of Commonwealth's supervised persons are in compliance with applicable SEC and state rules and regulations and Commonwealth's own policies and procedures. Through the use of a wide variety of surveillance systems, ongoing training and education, and supervisory controls, Commonwealth's designated supervisors perform myriad supervisory functions on a regular basis that are reasonably designed to supervise Commonwealth's supervised persons. Commonwealth routinely monitors the adequacy and effectiveness of its policies, procedures, and supervisory controls.

The individual with overall supervisory responsibility for W. Bradford McMillan is:

Wayne Bloom, CEO 781.736.0700

Additional information about Brian Price is available on the SEC’s website at www.adviserinfo.sec.gov.

Educational Background and Business Experience

Year of Birth:

1976

Formal Education After High School:

Name of School	Degree Obtained	Year Started	Year Ended
Georgetown University	Bachelor of Arts	1994	1998

Business Background:

Name of Company	Position Held	Year Started	Year Ended
Commonwealth	SVP, Investment Management and Research	2018	Present
Commonwealth	VP, Investment Management and Research	2014	2018

Designations:

CFA® (Chartered Financial Analyst®): To obtain the CFA® designation, your advisor had to complete three levels of a self-study program, each requiring 250 hours of study, and pass a closed-book exam for each level. Additionally, the advisor had to demonstrate either possession of an undergraduate degree and four years of professional experience involving investment decision making or four years of qualified work experience (full-time, but not necessarily investment-related).

Disciplinary Information

Brian Price does not have any material disciplinary history.

Other Business Activities

In addition to being an employee of Commonwealth's Investment Management and Research team, Brian Price is also a registered representative of Commonwealth's broker/dealer. As Brian's broker/dealer, Commonwealth provides brokerage execution services for the accounts of advisory clients participating in Commonwealth's Preferred Portfolio Services® ("PPS") managed account programs. Brian makes securities recommendations to clients (or, in the case of discretionary services, makes investment decisions for clients) regarding Commonwealth's investment advisory programs. Further, Brian purchases and sells securities and investment products for his own accounts that are also recommended to advisory clients, which creates a conflict of interest. Commonwealth policy prohibits its supervised persons from "trading ahead" of Commonwealth client transactions. When advisors are purchasing or selling securities for their own accounts, priority will be given to Commonwealth client transactions. Commonwealth has implemented surveillance and exception reports that are reasonably designed to identify and correct situations in which firm or advisor transactions are placed ahead of client transactions.

Additional Compensation

Brian Price receives an economic benefit from persons other than clients for providing advisory services.

Many of the companies that provide Commonwealth access to their products and programs provide Commonwealth personnel with opportunities to receive additional compensation in the form of payment for travel-related costs and expenses for attending business meetings and conferences, as well as various forms of gifts and entertainment.

Commonwealth's Investment Management and Research team uses independent, quantitative, and qualitative criteria in its PPS Select investment selection process, without regard to whether a particular product sponsor has made or makes additional compensation payments to Commonwealth or its agents and employees. Because many product sponsors included on Commonwealth's recommended list are among the largest and most widely used product sponsors in the industry, it is not uncommon for Commonwealth or its agents and employees to receive additional compensation from these product sponsors. Under no circumstances are the products or services provided by sponsors considered for

inclusion in Commonwealth's PPS Select programs because of, or in any way in relationship to, the additional compensation that Commonwealth or its agents and employees receive from product sponsors.

Supervision

Commonwealth's system for supervision of its supervised persons centers on delegating functions to designated supervisors located in Commonwealth's home offices in San Diego, California, and Waltham, Massachusetts. These designated supervisors are collectively responsible for ensuring that all of Commonwealth's supervised persons are in compliance with applicable SEC and state rules and regulations and Commonwealth's own policies and procedures. Through the use of a wide variety of surveillance systems, ongoing training and education, and supervisory controls, Commonwealth's designated supervisors perform myriad supervisory functions on a regular basis that are reasonably designed to supervise Commonwealth's supervised persons. Commonwealth routinely monitors the adequacy and effectiveness of its policies, procedures, and supervisory controls.

The individual with overall supervisory responsibility for Brian Price is:

Educational Background and Business Experience

Year of Birth:

1982

Formal Education After High School:

Name of School	Degree Obtained	Year Started	Year Ended
Union College	Bachelor of Science in Economics	2000	2004

Business Background:

Name of Company	Position Held	Year Started	Year Ended
Commonwealth	VP, Investment Management and Research	2019	Present
Commonwealth	Director, Investment Management and Research	2018	2019
Commonwealth	Manager, Investment Management and Research	2017	2018
Commonwealth	Portfolio Manager	2014	2017

Designations:

CAIA (Chartered Alternative Investment Analyst): The CAIA charter, recognized globally, is administered by the Chartered Alternative Investment Analyst Association and requires a comprehensive understanding of core and advanced concepts regarding alternative investments, structures, and ethical obligations. To qualify for the CAIA charter, finance professionals must complete a self-directed, comprehensive course of study on risk-return attributes of institutional quality alternative assets; pass both the Level I and Level II CAIA examinations at global, proctored testing centers; attest annually to the terms of the Member Agreement; and hold a U.S. bachelor's degree (or equivalent) plus have at least one year of professional experience or have four years of professional experience. Professional experience includes full-time employment in a professional capacity within the regulatory, banking, financial, or related fields. Once a qualified candidate completes the CAIA program, he or may apply for CAIA membership and the right to use the CAIA designation, providing an opportunity to access ongoing educational opportunities.

CFA® (Chartered Financial Analyst®): To obtain the CFA® designation, your advisor had to complete three levels of a self-study program, each requiring 250 hours of study, and pass a closed-book exam for each level. Additionally, the advisor had to demonstrate either possession of an undergraduate degree and four years of professional experience involving investment decision making or four years of qualified work experience (full-time, but not necessarily investment-related).

CFP® (CERTIFIED FINANCIAL PLANNER™): To obtain the CFP® certification, your advisor had to complete a CFP Board-registered program in financial planning or hold one of the following recognized designations: Certified Public Accountant (CPA), Chartered Financial Consultant® (ChFC®), Chartered Life Underwriter® (CLU®), Chartered Financial Analyst® (CFA®), PhD in business or economics, doctor of business administration, or an attorney's license.

Disciplinary Information

Peter Essele does not have any material disciplinary history.

Other Business Activities

In addition to being an employee of Commonwealth's Investment Management and Research team, Peter Essele is also a registered representative of Commonwealth's broker/dealer. As Peter's broker/dealer, Commonwealth provides brokerage execution services for the accounts of advisory clients participating in Commonwealth's Preferred Portfolio Services® ("PPS") managed account programs. Peter makes securities recommendations to clients (or, in the case of discretionary services, makes investment

decisions for clients) regarding Commonwealth's investment advisory programs. Further, Peter purchases and sells securities and investment products for his own accounts that are also recommended to advisory clients, which creates a conflict of interest. Commonwealth policy prohibits its supervised persons from "trading ahead" of Commonwealth client transactions. When advisors are purchasing or selling securities for their own accounts, priority will be given to Commonwealth client transactions. Commonwealth has implemented surveillance and exception reports that are reasonably designed to identify and correct situations in which firm or advisor transactions are placed ahead of client transactions.

Additional Compensation

Peter Essele receives an economic benefit from persons other than clients for providing advisory services.

Many of the companies that provide Commonwealth access to their products and programs provide Commonwealth personnel with opportunities to receive additional compensation in the form of payment for travel-related costs and expenses for attending business meetings and conferences, as well as various forms of gifts and entertainment.
